INTRODUCTION

A word of explanation is required in presenting this Eighth issue of the Statistical Year Book.

During the War period, the Department of Statistics and Census, like other Government Departments, was put to a considerable strain for collection of statistical data essential for public administration as well as for various controls and other War measures. Accurate and up-to-date Agricultural Statistics being a *sine qua non* for Food controls and Rationing, a special scheme of Agricultural Census was adopted in 1952-53 F. and Census is conducted twice a year; one for Kharif and the other for Rabi crops. Similarly, the problem of dearth and war allowances for industrial workers necessitated the construction of cost of Living indices. At the instance of the Railway Department, a scheme was sanctioned in 1952 F. for working out the monthly Cost of Living Index Numbers of industrial workers for six centres in the Dominions, viz.

- | | |
|-----------------------|----------------|
| 1. City of Hyderabad, | 4. Aurangabad, |
| 2. Warangal, | 5. Nizamabad |
| 3. Gulbarga, | and 6. Nander. |

In addition to the above, statistics relating to industrial production, prices, trade, etc. were compiled and furnished to Government Departments, Government of India and also to other enquirers. At the same time, compilation of annual issues of the Statistical Year Books continued as usual, and accordingly, manuscripts for 1951 and 1952 F. were prepared.

But, owing to the extraordinary pressure of work of War-Priority nature, on the one hand, and with its existing plant and depleted staff, on the other, the Government Press was not in a position to expedite the printing of these issues. Indeed, the last proof copies of 1950 F. Year Book, manuscripts which was sent on 5.5.52 F. were received on 31.7.55 F. and by this time the manuscripts for 1953 F. and 1954 F. were also completed.

INTRODUCTION

Prima facie, publication of separate issues of the annual statistics for 1351 F. to 1354 F. was bound to result in an inordinate delay, and detract considerably from the utility of the Statistics. In order, therefore, to bring out the latest Statistical information and incidentally, as a measure of paper economy, it was decided to publish the present volume containing detailed figures for the year 1354 F. and comparative figures for the preceding four years.

This issue, thus, relates to the period 1351 F. (1940-41) to 1354 F. (1944-45). In cases where totals for Khalsa and non-Khalsa ilaqs are shown, comparative totals are given for four years 1351 to 1354 F. and Grand totals are given for the period 1351 F. to 1354 F.

Detailed statistics for the years 1351 F., 1352 F. and 1353 F. will, however, be made available from office records, on request, to all enquirers.

MAZHAR HUSAIN, M.A., B.SC.

Director of Statistics & Census.

Dated 21-3-1356 F.

SECTION I.
Public Administration

PUBLIC ADMINISTRATION

Sovereign.

His Exalted Highness, Rustom-i-Dowran, Arastu-i-Zaman, Lieut-General, Asif Jah, Muzaffar-ul-Mulk Wal Mumalik, Nizam-ul-mulk, Nizam-ud-Dowla, Nawab Sir MIR OSMAN ALI KHAN Bahadur, Fateh Jung, Sipah Salar, Sultan-ul-Ulum, Faithful Ally of the British Empire, G.C.S.I., G.B.E., Nizam of Hyderabad and Berar.

In the administration of the State the Ruler was assisted by Cabinet Council presided over by the Prime Minister.

History of the Cabinet Council—In 1302 F. (1895) a Cabinet Council was established to assist and advise the Prime Minister on the State Annual Budget, disposal of cases for report on which Special Commission had been appointed, questions relating to State Concessions, important questions arising out of the proceedings of the Legislative Council and other subjects of importance are reserved for consideration by the Council. The Prime Minister had the right of over-ruling any decisions of the Council in anticipation of His Exalted Highness' sanction.

From 1324 F. (1914) to 12th Dai 1329 F. (17th November 1919) H.E.H. was pleased to take the direct supervision of the Government into his own hands.

Executive Council.

On 12th Dai 1329 (17th Nov. 1919) an Executive Council with a President and seven members and an extraordinary member without Port-folio, was constituted, the Cabinet Council having been dissolved. The first Executive Council (Bab-e-Hukumath) consisted of:

- President*:—SIR ALI IMAM, K.C.S.I., (with Legislative Port-folio).
Finance:—SIR R. I. R. GLANCY, C.I.E., C.S.I.
Judicial:—NAWAB VILAYATH JUNG BDR.
Military:—NAWAB LUTFUD-DOWLA BDR.
Revenue:—RAJAH FATEH NAWAZ WANT BDR.
P. W. D.:—NAWAB TILAWAT JUNG BDR.
Political:—NAWAB NIZAMAT JUNG BDR.
Commerce & Industries:—NAWAB AQEEL JUNG BDR.
Extra-ordinary:—SIR FARIDDOON-UL-MULK BDR., K.C.I.E., C.S.I., C.B.E., without port-folio.

Besides the above, there were the Sadr-ul-Mohams Peshi (in charge of the H.E.H.'s peshi Dept.) and the Sadr-us-sadur of the Religious Dept; but these had no seats in the above Council.

The Presidents.

SIR ALI IMAM
 SIR FARIDOON-UL-MULK
 NAWAB VALIUD-DOWLA BDR.
 MAHARAJA SIR KISHEN PERSHAD BDR.
 RT. HON'BLE SIR AKBAR HYDRI.
 COLONEL SIR MD. AHMED SAID KHAN, Nawab Sahib of
 Chattari, K.C.S.I., K.C.I.E., M.B.E., L.L.D.

Peshkari:—It is a hereditary appointment, the last incumbent being RAJA RAJAYAN RAJA SIR KISHEN PERSHAD MAHARAJA BDR., Yamin-us-Sultanath, K.C.I.E., G.C.I.E., (assumed office on 18-4-1902 F.) Honourarium Rs. 6,000/- P. M.

2. Court of Wards.
3. Hyderabad Commercial Corporation.
4. Hyderabad State Bank.

SECTION II.

Area and Population

AREA AND POPULATION.

Area and Population.—The area of the Dominions remained unaltered at 82,698 square miles. For administrative purposes the State is divided into 16 Diwani districts, and one Sarf-i-khas (Crown) of Atrai-i-Balda. The total number of taluks in Khalsa area is 98 and that in Saraf-i-khas and Jagirs 82, in all 175 as compared with 140 in the preceding decade.

The total population in the whole State is 16,338,534 as compared with 14,436,148 of which the urban areas have 2,194,294 and rural 14,144,240, the number of villages being 22,360. (Table I.)

Variation in Population —Since 1891 the population increased by 48 lakhs or 14.7 per cent. In Medak the rise is by 107.9 per cent, and in Warangal by 106.4, Adilabad population has grown by 83.1 per cent, Mahbubnagar by 74.9 per cent. and Hyderabad City by 72.4 per cent. (Table 2) Density per square mile of territory is highest in Hyderabad City 9,356 persons. Medak (248) is the densest district, followed by Karimnagar (238), Atrai-i-Balda (233) and Nizamabad (216) (Table 8).

Rural Population —Out of 22,435 villages 75 around Hyderabad have been included in the area of the metropolis as they have acquired urban characteristics. The actual number of villages therefore is 22,360, of which 12,825 have an average population of 500; 5,901 between 500 and 1,000 persons and 3,157 between one and two thousand. (Table 4.)

Urban Population.—There are in the Dominions 138 towns and cities of varying sizes carrying total population of 2,194,294 of which 1,018,354 are Caste Hindus, 269,622 Harijans, 8,659 Jains, 3,967 Sikhs, 1,798 Zoroastrians, 24,942 Tribes, 251 Others, 828,492 Muslims and 38,209 Christians (Table 5).

Sex.—In the decade between 1931 and 1941 both males and females increased by 13.1 per cent. each, the total number in the respective group being 8,346,775 and 7,991,759. Details are found in (Table 6).

Communities.—Of the total population of the Dominions 10,881,609 are Caste Hindus, 2,928,040 Harijans or non-caste Hindus, 2,097,475 Muslims, 220,464 Christians, 24,853 Jains, 5,330 Sikhs, 1,974 Zoroastrians 678,149 Tribes and 640 others (Table 7).

Civil condition.—Of the total males (8,346,775) 42.39 per cent. are unmarried, 52.62 per cent. married and 4.99 per cent. widowed. Of the females (7,991,759) 31.11 per cent. are unmarried, 53.26 per cent. married and 15.61 per cent. widowed (Table 10). Details for communities are found in tables 11, 12 and for age groups in tables 13, 14 and 15.

Literacy.—Of the total males population, 983,478 persons or 11.8 per cent. are literate of whom Caste Hindus are 662,931 or 37.6 per cent. Muslims 261,824 or 24.2 per cent., Christians 23,476

II.—AREA AND POPULATION.

or 20.9 per cent.; Jains 4,676 or 38.4 per cent.; Sikhs 1,657 or 56.4 per cent.; Zoroastrians 862 or 86.6 per cent.; Tribes 8,721 or 1.1 per cent. and Others 299 or 85.4 per cent.

Of the total females, 285,526 or 3.6 per cent. are literate. Muslim women literates form 9.2 per cent. Christians 12.2 per cent. and Brahmanic Hindus 66.7 per cent.

The total number of literates in Urdu are males 375,859, and females 70,790 and those in English, males 155,806 and females 27,271 (Table 16).

Occupation.—3,344,054 persons of both sexes are employed in exploitation of animals and vegetation, 50,250 in that of minerals. Industry engaged 647,671 persons, transport 220,304; Trade 557,770; Public Administration & Liberal Arts 275,250; Miscellaneous 656,141, 42.89 per cent. of the total are actual full-time workers. (Details in Table 19).

Languages Spoken.—2,187,005 persons speak Urdu as their mother tongue, 7,529,029 Telugu, 3,947,289 Marathi and 1,721,180 Kanarese. The other languages of the State are Bhili, Brakata, Gondi, Lambadi and Pardhi (Table 21). Besides, 808,121 persons speak Urdu as a subsidiary language, 6,122,787 Telugu 1,129,165 Marathi and 415,633 Kanarese. English is spoken as mother tongue by 12,040 and as a subsidiary language by 4,812 persons (Table 22).

Infirmities.—90,293 persons (50,304 males and 39,989 females) are either blind, deaf-mute, lunatic or otherwise infirm. 156,403 persons suffer from guinea-worm infections (Table 23). Of those 83,098 are agriculturists and 63,802 are beggars and vagrants.

13	Pardhan (g) ...	1,583	859	724

N. B.—Minor castes found are Baiga (10 M+8 F), Dyandra (13 M+4 F), Yanadi (85 M+34 F).

(a) Erakala includes Korvi or Korwah, 2,239 M+2,167 F.

(b) Gond & Naikpod include Rajgond, 777 M+365 F.

(c) Kolam or Mannervaru have in Hyderabad generally been confused with Gond, being wrongly shown in "Castes & Tribes of the Nizam's Dominions" as a Sub-tribe of Gond. Therefore the figures are not reliable, and probably 2,000 or 3,000 are included in Gond.

(d) The figures of Koli & Raj Koli are included for the first time as the tribe in the C. P. & Berar is shown as an aboriginal tribe though because it is much Hinduised, and it has not previously been classed as aboriginal in Hyderabad. The Hyderabad and Berar Koli intermarry.

(e) Koya includes Bhine-Koya 325 M+215 F and Raj Koya (or Racha-Koya) 188 M+138 F.

(f) Lambara or Banjara includes Mathura 1,852 M+1,637 F. The figures do not include the very Hinduised Wanjari section of the community which has long settled down to agriculture, is completely Hinduised and regards itself as a separate caste and is therefore recorded as a Separate Hindu caste.

(g) Pardhan or the Gond Bards were included in 1931 census in the Pardhi group.

No. 34.—*The proportion of Diwani Government and non-Diwani Areas.*

The total area of the Dominions 82,698 sq. miles of which Sarf-i-Khas, Paigah, Jagir, etc., claim 34,318.7 sq. miles, i.e., 41.5 per cent. The total area of the Sarf-i-Khas Ilagas is 8,109 sq. miles or 9.9 per cent. of the total Dominions' areas. The compact areas of Paigahs, Samasthans and Jagirs is 8,061 sq. miles or 8.7 per cent. of the total Dominions' area. The spread out non-Government Ilagas amount to 16,080 square miles or 21.9 per cent. Thus Paigah, Samasthan and Jagir on the whole make a total of 31.6 per cent.

The compact areas of Sarf-i Khas, Paigahs, Samasthans and Jagirs according to Census Vol. II., State Table I, are noted below:—

SECTION III.
Vital Statistics

VITAL STATISTICS.

The total number of births registered during 1354 F. stood at 172,177 as against 167,130; 185,803 and 199,371 in 1353, 1352 & 1351 respectively, while total number of deaths recorded in each of these years was 212,965; 180,172; 154,149 and 176,434. It will be observed that the total deaths recorded in 1354 exceeded the annual average of preceding years. and consequently while the ratio of births per mile of population in 1354 F. works out at 10.5, that of deaths stands at 13.0.

Of the total births in 1354 F., 52.3% were males.

Fever was the principal cause of death in 1354 F. claiming 47.8% of the total mortality.

Vaccination is compulsory and primary and re-vaccination was done extensively. In 1354 F. 726,994 of the former and 188,344 of the latter description were carried out.

The total number of hospitals and dispensaries stood at 212 in 1354 F. and the daily number of patients treated was 3,254 inpatients and 26,555 outpatients.

Treatment of 132,667 Lepers and 1,515 insane persons was carried out in 1354 F. in Special Hospitals at Dichpalli and other centres.

The total expenditure on Medical and Public Health Department for the year 1354 F. amounted to Rs. 35,54,000; while the total expenditure in the non-Khalsa Ilagas stood at Rs. 1,47,000 only.

No. 9. Brief History of the Medical and Public Health Department.

1. Established in 1254 F. (1846 A. D.)
2. Heads of the Department and period of their tenure :—

Directors

1.	Dr. Templeton	1254 to 1276 F.
2.	Dr. Reid.	1276 to 1276 F.
3.	Dr. Window.	1276 to 1279 F.
4.	Dr. John Law.	1279 to 1281 F.
5.	Dr. Window.	1281 to 1290 F.
6.	Dr. Beamont.	1290 to 1294 F.
7.	Dr. Col. E. Lawrie, I.M.S.	1294 to 1310 F.
8.	Dr. Col. G. H. D. Gemlette, I.M.S.	1310 to 1317 F.
9.	Dr. Lt. Col. Thompson.	1317 to 1317 F.
10.	Dr. Col. R. Shore, I.M.S.	1317 to 1321 F.
11.	Lt. Col. H. E. Drake Brockman, I.M.S....	1321 to 1326 F.
12.	Dr. A. Lancaster	1326 to 1329 F.
13.	Lt. Col. B. Jiwan Singh, C.I.E., I.M.S.,...	1329 to 1333 F.
14.	Lt. Col. Mohd. Ashruff, M. B. Ch. B.	1333 to 1334 F.
15.	Major Khaja Moinuddin. M. D.	1334 to 1338 F.
16.	Colonel J. Norman Walker, C.I.E., I.M.S.,	1338 to 1347 F.
17.	Dr. H. Hyder Ali Khan, F.R.C.S.	1347 to 1352 F.
18.	Raja Bahadur, Lt. Col. K.N. Waghray,	
	M.R.C.P.	1-1-1353 F. (cont)

3. *History* :—The First Medical Institution opened in the State was Hyderabad Medical School founded in 1844 A. D. (1254 F.) which did much useful work in training Medical Officers and subordinates for the Hyderabad Medical Service and Hospital Assistants for Berar. At first instruction was imparted in Urdu but since 1884 (1294 F.) English was the Medium, the course being approximately the same as the L.M.S. of the Madras University. Later this Medical School became a college and afterwards affiliated to the Osmania University with Urdu as medium of instruction.

III.—VITAL STATISTICS

In 1884-1885 (1293-94 F.) there were 6 hospitals in the city and suburbs and 48 dispensaries in the districts. In 1945 (1354 F.) the total number was 152.

In Hyderabad, the State Medical Department whose functions were purely curative, came into existence in 1844 A.D. (1254-55 F.) Dr. Templeton (1254 to 1275) who was also the Residency Surgeon being the first Director. Except for Vaccination against smallpox no organisation existed for preventive medicine until 1912 (1922 F.) Compulsory primary Vaccination of children between the ages of 6 and 12 months was introduced in the State as a first preventive measure in 1922 (1331 F.) In Lt. Col. H.E. Drake Brockman's regime as Director of Medical Department, the Public Health Department was established.

In 1913 (1322 F.) Government made the Director, Medical Department, the Sanitary Commissioner of the State as well. District Civil Surgeons were appointed as District Sanitary Officers. 15 travelling dispensaries were created, one for each district under an Assistant Surgeon as District Sanitary Assistant.

At the end of 1934 (1343 F.) the Public Health Department was recognized. A post of Deputy Director of Public Health was created in 1936 A.D. (1345 F.)

4. *Chief Function* :—

Medical: (1) The Chief aim of the Medical Department is to provide medical aid to all the subjects of H.E.H. the Nizam's Dominions by establishing Hospitals and dispensaries in various parts of the Dominions. (2) To advise District Boards, Local Fund Committees and the Sarf-i-Khas Department on all professional matters connected with medical and health activities. (3) To arrange for the Medical Examination of all Government Employees, H.C.S. candidates, applicants for the State Life Insurance, pensioners and Mansabdars for commutation of pensions. (4) To conduct all Medico-Legal and Post-mortem examinations.

PUBLIC HEALTH:

(1) To adopt measures designed to improve the physical well being of the population, Maternity and Child Welfare Work, Medical

III.—VITAL STATISTICS

Inspection of school children, physical education, diet surveys and suggestions to improve nutritional condition of population, rural reconstruction are all measures towards that end (2) to control preventable diseases. (3) to improve general environmental conditions both in urban and rural areas (4) to undertake health education of masses with a view to obtaining their active co-operation in health measures taken for their welfare by the Public Health Department.

5. *Achievements :-*

Medical : The Department has provided hospitals and dispensaries and Maternity and Childwelfare Centres for the town and rural population at important places. The number now is 157 which was 54 at the beginning. Regulation and protection of unclaimed children scheme was brought into force from 1347 Fasli which has proved very beneficial and is working satisfactorily. The Department assumed control of the Bait-ul-Mazureen since 1348 F. at the instance of the Department as so far 501 medical practitioners have registered. Provision of two Regional Mobile Hospitals, Training of male nurses was introduced in 1348 F. in addition to training of female nurses.

Public Health :— The incidence of malaria in many parts of the Dominions has been apparently reduced. (2) Mortality due to small-pox has become now almost negligible. (3) The sanitary conscience of the public has now been roused to intensive health propaganda. (4) Sanitary conditions of towns and large villages have visibly improved.

Control.

The Medical and Public Health Department is controlled by a Director, assisted by two Deputies One for Medical and the other for Public Health and is also assisted by a Personal Assistant.

III.—VITAL STATISTICS.

No. 11.—Brief History of Unani Medical Department for the year 1354 F.

1. Established 15th Thir 1313 F.
2. Heads of the Department and period of their tenure
 1. Nawab Maqsood Jung Bahadur Azur 1352 to 31-9-53
 2. Nawab Ghouse Yar Jung Bahadur 1-10-1352 to 31-9-54 F.
 3. Nawab Rahmat Yar Jung Bahadur 1-10-1354 F.

3. *History.*—The Department was created on 15th Thir 1313 F. with one main Hospital having its supervision over two subordinate hospitals and a Medical School. In 1323 F. three additional hospitals were opened in different parts of the city. In 1327 F. two more hospitals and in 1338 F. a dispensary were added. District hospitals that functioned under the supervision of Local Fund Government numbered 78 in 1348F. The number of hospitals in the city rose to 11 in 1354F. 1349 F. was an epoch-making year in the history of Unani Dispensaries of the Dominions when His Exalted Highness laid the foundation stone of a Unani Hospital.

In 1351 F. a ward for Zenana ladies was attached and a surgical ward was also set up at the instance of His Exalted Highness.

4. *Chief functions.*—The object and aim of the Department is to revive the dying science of oriental medicine, train nurses, produce efficient Hakeems and help those who seek unani treatment.

5. *Achievements.*—During the year the Number of Patients (outdoor and indoor) treated was 3,248,446.

6. *Control.*—The Department is under the control of a Director with a Deputy Director and two assistants.

SECTION IV.

Medico-Legal Investigations

IV.—MEDICO-LEGAL INVESTIGATIONS.

POISONING.

In 1854 F. 198 cases of human poisoning and 16 of animal poisoning were sent to Government Chemical Analyser and Bacteriologist, the average number of cases for the preceding five years being 222 and 13 respectively. Of the total human poisoning cases tested 105 were positive. Opium and other organic drugs were the principal poisons employed. Poison was detected in 18.7 % of the animal poisoning cases.

No. 14 —*Brief History of the Department of Public Instruction* (*Talimat*)

1. Established in 1279 F. (1869 A. D.)
2. Heads of the Department and the period of their tenure:—

Directors.

1. Mr. Wilkinson	1279-1281 F.
2. „ Inayat-ur Rahman Khan	1281-1298 F.
3. Nawab Imad-ur Mulk Bdr	1298-1295 F.
4. Mr. Syed Ali Bilgrami	1295-1296 F.
5. Nawab Imad-ur Mulk Bdr.	1296-1816 F.
6. Dr. Syed Siraj-ur Hasan (Nawab Siraj Yar Jung Bdr.)	1816-1822 F.
7. Dr. Alma Latif	1822-1825 F.
8. Nawab Masood Jung Bdr.	1825-1837 F.
9. Mr. Syed Md. Husain Jafri	1837-1838 F.
10. „ Khan Fazl Md. Khan	1838-1846 F.
11. „ S. M. Husain Jafri	1846-1852 F.
12. „ Syed Md. Azam	1852-cont.

3. *History*:—It was in the year 1264 F. that the Government took the first step towards Public Instruction and founded the Darul-Uloom in the City of Hyderabad and placed it under an Education Board. It became a centre of Oriental learning and culture and a few years later five branch schools were opened, one at each gate of the City.

The next step in popularising education was taken when the Government issued a notification in 1269 F. ordering the opening of two schools in each of the Taluq and District Headquarters, one in Persian and the other in the local language. The management of these schools was left in the hands of a Committee consisting of patels and patwaries, presided over by the Tahsildar at each Taluqa Headquarters, while the third Taluqdar was the head of the district committee and also the inspecting officer for the district.

VI.—EDUCATION.

In 1278 F. the Minister, Miscellaneous Department was entrusted with this work and a year afterwards the Education Department was definitely created with the appointment of a Secretary to the Miscellaneous Minister in the Education Department and Director of Public Instruction. In 1284 F. Deputy Inspectors for the districts were appointed.

The first Government High School started in the Dominions was the City High School founded in 1280 F. It was amalgamated with the Chaderghat Anglo-Vernacular School in 1285 F. which became the English High School, Chaderghat. English education was first introduced in the districts in 1283 F., when an Anglo-Vernacular School was opened in Aurangabad, and another at Gulbarga in 1285 F.

The Chaderghat High School was raised to the status of a second grade college affiliated to the Madras University under the name of Hyderabad College which became ultimately a First Grade College in 1293 F.

The Madrasa-i-Aliya founded on the model of an English Public School and meant for the sons of the nobles was brought under Government control in 1287 F. Subsequently a Civil Service Class was added to it and Aliya was attached to it. Hyderabad College in 1297 is now known as Nizam College. By 1292 F. there were four Aided English High Schools viz. St. George's Grammar School, the All Saints Institute, Mahboob College and the Madrasa-i-Aizza. The last named was and has remained to this day a school for Murshidzadas. Besides there were a few English Middle Schools for girls.

The year 1292 F. marks the opening of a new chapter in the history of education in the State. Public Instruction became a major Department with a budget grant of 2½ lakhs for it. High Schools were opened at the Headquarters of the each Subah. Upper and Lower Middle schools were established at a large number of places in the districts and the number of primary schools increased from 161 to 402 in three years' time (1294-1297 F). In 1300 F. the Middle Schools Examination was instituted.

Text Book Committee and an Education Board constituted in the same year. The Normal School for the training of teachers which was opened by 1280 F., was re-organised. By 1314 F. Technical and Professional Schools such as those for Industries, Arts and Crafts,

VI.—EDUCATION.

Engineering, Medicine and Law were all brought under the partial control of the Educational Department.

The years 1317 and 1318 F. (1908) two Girls' High Schools (the Nampalli and the Mahboobia Schools) were opened. The H. S. L. C. Board was constituted in 1320 F. (1910).

The inauguration of the Osmania University in 1328 F. (1918) led to a rapid development of higher education. Intermediate classes were added to the City High School and to the Aurangabad High School in 1332 F. (1922-23), the Zenana High School, Nampally, in 1333 F. (1923) and to the Warangal and Gulbarga High Schools in 1325 F. (1926) and 1340 F. (1931), respectively. The Department of Technical and Vocational Education was created to open and supervise Technical and Vocational schools and to popularise various industries, arts and crafts

4. *Chief Functions* : Promotion of School and College education and aid all such efforts.

5. *Achievements : Primary Education.* Primary education is free in the Dominions since 1332 F (1922). Mother-tongue is the medium of instruction in all primary schools. The curriculum of primary education has been revised and brought in harmony with the atmosphere in the urban and rural areas. The responsibility of mass-education rests with the Government; thus the recurring expenditure on primary education is borne out of shahi funds. A scheme for opening schools in all villages with a population of 1000 and above, having no proper educational facilities, has been enforced and nearly 65 % of such villages have been furnished with Government schools. By the end of 1352 F. besides this 1277 villages with a population of less than a thousand have Primary schools in them. A scheme for the construction of buildings for rural primary schools on a large scale involving a heavy expenditure has been launched. School-Committees comprising of influential (leading) local residents to encourage attendance of pupils at schools and to bring the local requirements to the notice of the inspecting staff have been and are being constituted in all villages having schools.

Secondary Education : The Board of Secondary Education, comprising of representatives of Education Departments, of Commerce and Industries, the Co-operative, Agriculture and Engineering as well as representatives of girls' education and the public, has been

VI.—EDUCATION.

constituted to guide and supervise the Secondary Education in the Dominions. The Board after considering all aspects relating to the secondary education submitted its recommendation for the re-organisation of secondary education before the Government which were duly sanctioned with some amendments. Committees and sub-committees of courses and text-book committees were constituted to prepare syllabuses and select books for studies for different classes of the secondary stage, with a view based on the suggestions made by the board and the committees held previously, so that the syllabuses of secondary stage were overhauled completely. The two systems of secondary education namely the H. S. L. C. system affiliated to Madras University and the Osmania Matriculation system affiliated to the Osmania University were amalgamated and brought under the Board of Secondary Education with common courses of studies and a common examination at the end of the Higher Secondary stage. Special emphasis is laid on the teaching of Science and Manual Training.

- The whole system of education in the Dominions has been reorganised in a way to facilitate bifurcation at the end of any stage of instruction i. e. primary, lower secondary, higher secondary or University stage. The newly created Department of Technical and Vocational education has reorganised the few existing industrial and vocational schools and has opened several post-primary, post-middle and post-high schools in different suitable localities providing for various industries, arts and crafts with special reference to local industries and crafts.

Special schools for adults, depressed classes, deaf and dumb and primitive tribes have been organised.

Boy Scouts and Girls Guide movements have been organised.

6. *Control*: The Department is under a Director assisted by a special Inspecting Officer and Secretary, Board of Secondary Education, four Assistants and three Inspectors for Science, Manual Instruction and Depressed Classes. Four Divisional Inspectors one directly responsible for the secondary schools. Under the Divisional Inspectors there are District Inspectors, one for each district, who are responsible for the Primary and Lower Secondary schools. They are helped by Sub-Inspectors in the inspection of Primary Schools. There are also three Inspectresses of Girls' Schools in charge of the Girls' education in the Dominions.

VI.—EDUCATION.

No. 15.—*The Osmania University.*

The Osmania University which was established by a Royal Charter in 1918, is the first attempt in India to impart University Education through an Indian language, while retaining English as a Compulsory subject of study upto the B. A. standard. For over half a century, higher education in the State was so discouraging that in 1917, the Right Hon'ble Sir Akbar Hydari, Kt.D.C.L., LL.D. the then Secretary to His Exalted Highness' Government in the Education Department submitted a memorandum to His Exalted Highness in which after surveying the existing conditions and discussing the disadvantages of imparting knowledge through the medium of a foreign language, recommended the inauguration of a University which should be both an examining and teaching body and in addition to this should undertake to compile and translate, using Urdu as the medium of instruction and examination as it is the official language of the State and is widely understood and spoken not only in the Dominions but throughout India. The standard of English which is compulsory upto the B. A. standard is nearly the same as in other Universities. The alumni of the University are thus enabled to keep in touch with the current of thought in the English-speaking world as they can freely consult English books on the subject they study.

Constitution :—The Council which is the governing body of the University is entrusted with general supervision and control over the constituent colleges. His Exalted Highness is the Patron of the University, His Excellency the President Executive Council is the ex-officio Pro Chancellor. A whole time Vice-Chancellor is in administrative control of all institutions under the University, and is assisted by a Rector and two part time Provosts.

Faculties :—The University is of the unitary teaching type, provides instruction in all subjects of University study. The Faculties of Theology, Arts, Science, Law and Engineering are located in the University areas at Adikmet, while the Medical College, Training College for (Males and Females) are located in the City.

VI.—EDUCATION.

The Womens' College which has intermediate, B.A., B.Sc, classes is also located in the City. There are three Intermediate Colleges at Aurangabad, Warangal, Gulbarga and three in the City of Hyderabad. .

The University commenced its tutorial work with the opening of the Osmania University College in August 1919. A beginning was made with the first year class and higher classes were added year by year till B. A. Examination was held in the year 1923 and the first M. A. and LL. B Examination in 1925 The University now confers the B.A., LL.M., M.B.B.S., B.Æ., M.Ed., & Ph.D. degrees and confers Diplomas in Education, French and German.

Nawab Ali Yawar Jung Bahadur, Vice-Chancellor, represents the University on the Inter University Board.

5. „ Mohd. Elias Burny	...	1344-
6. „ Mohd. Nizamuddin	...	(continuing)

3. *History*.—The Osmania University with Urdu as the medium of instruction is a land-mark in the history of higher education in India. In order to accomplish this great ideal, it was necessary to provide text-books on all subjects and standard works in Urdu.

4. *Chief Functions*.—The first constructive work of the University was the establishment of a Bureau for the compilation and translation of books in Urdu acuteness needed for courses of studies in all subjects.

5. *Achievement*.—During the course of twentyseven years the Bureau has been able to compile nearly 90,000 technical terms on all subjects. At first all the technical terms were classified under three categories.

1. Nomenclature,
2. Terminology,
3. Notation.

The total number of works that have been translated into Urdu is 487, out of which 330 have already been published, 69 are in the Osmania University Press under print, 38 are under preparation and several others are under consideration. It is significant to note that the number of translations on scientific books alone reaches 100.

VI.—EDUCATION.

The Bureau is not only serving the cause of Osmania University but of the Indian Urdu speaking public in general. Its beneficent work is valued throughout the length and breadth of India and other adjoining countries wherever Urdu is spoken or taught. The utility of the work of the Bureau has gone beyond the confines of the Dominions of His Exalted Highness the Nizam, and time has come when many of the sister Universities in the North and South will avail themselves of the results of these gigantic labours and contribute their shares to the expansion of knowledge in their own spheres.

6. *Control*:—The Bureau is under the direction and control of a Curator who is responsible to the Vice-Chancellor for the administration of the Bureau and the Press.

No. 20.—*Brief History of Asafia State Library* (*Kutub Khana-i-Asafia*)

1. Established in Farwardi 1300 F. (1891 A. D.)
2. Heads of the Department and period of their tenure:—

Superintendents

1. Mr. Syed Ali Hyder 1300 to 30-10-1305 F.
(Hyder Yar Jung Bdr.)
2. Mr. Syed Tasaduq Husain 1-11-1305 to 6- 7-1327 F.
3. Mr. Syed Abbas Husain 7- 7-1327 to 2- 5-1349 F.
4. Mr. Hamiduzzafar 3- 5-1348 to 15-12-1348 F.
5. Mr. Md. Rahmatullah Khan 16-12-1348 F. (continuing)

3. *History*:—The Asafia State Library was started through the efforts of the late Moulvi Syed Husain Bilgrami (Nawab Imadul-Mulk Bahadur). It is a purely Government Institution. The Library follows its own scheme of classification. The catalogues are of classified nature and are in printed form. The stock of the end of the year 1353 F. consisted of 57,656 volumes including 12,772 manuscripts, 26,043 printed books in the oriental section and 18,851 printed books in the occidental section. Since 1345 F. the Library is lodged in a very imposing and up-to-date building situated on the north bank of the river Musi.

4. *Chief Functions*:—It is a free public Library and efforts to collect and make it accessible to the public the extinct manuscripts, printed books (oriental and occidental sections), papers and periodicals, etc. The Reading Rooms are kept open continuously from 8 a. m to 8 p. m.

5. *Achievement*:—The Library was founded with a view to collect and retain in the country most of the manuscript books about the Islamic Culture and the Hindu Period that were passing out of the Dominions for trifling sums. The Library authorities purchased all such manuscripts and some other private collections also. The result has been achieved to such an extent that the Asafia State Library is now considered as one of the best among the famous libraries in India. According to the needs of the day printed books of various subjects and in different languages are also represented in the Library. The annual budget grant for the purchase of books is Rs. 17,800/—

6. *Control*:—The Managing Committee (Library Council) of the Library is the Library Authority and is vested with full administrative powers under the Constitution. The Superintendent is the only officer in charge of the library.

No. 22.—*Brief History of the Department of Technical and Vocational Education.*

1. Established in 1346 F.
2. Heads of the Department and period of their tenure.
 1. Mr. Khan Fazal Mohd Khan 1346-1351 F.
 2. „ Syed Mohiuddin 1351-1351 F.
 3. „ Khan Bahadur Syed Ahmad 1351-1352 F.
 4. „ Syed Ali Akbar 1352-1353 F.
 5. „ Syed Mohd. Azam 1353-1353 F.
 6. „ Qazi Mohammad Husain 1353 F. (continuing).

History :—The Department of Technical and Vocational Education was established in 1937, and the existing technical education institutions attached to other departments of Government were transferred to it. Shortly afterwards Government created an Employment Bureau for the recruitment of qualified young men for various services. For administrative purposes the Bureau was attached to the Department of Technical and Vocational Education. The advisory committee formerly established in connection with the Department of Technical and Vocational Education has now been replaced by an Advisory Board to consider matters relating to courses of instruction, examinations and issues connected with the advancement of technical and vocational education, including technical matters. The Board consists of representatives of the Department of Technical and Vocational Education, of the technical and industrial department of Government and of the public.

The most important institution of the Department is the Osmania Technical College, established in 1922, for which a new building is under construction and is nearing completion. The College provides a 4 year - Diploma Course in Mechanical and Electrical Engineering, two special courses for Railway Apprentices, and courses for electrical trades. It is proposed in the near future to expand this Institution into a full polytechnic, by the establishment of additional courses in other branches of technology. During the World War 1939-1945, the

VI.—EDUCATION.

College has conducted scheme of training of technicians required by the fighting services, ordinance factories and local war industries.

The next largest institution is the Central School of Arts and Crafts, established in 1941 providing 3 year Intermediate Certificate Courses and, 2 year Diploma Courses in various arts and crafts, in addition to certain special short courses. It also conducts 3 year special courses in horn and ivory work, quartz polishing and Benarasi weaving.

The Department has also established a Central school of Commercial and Secretarial Training, providing Diploma and Certificate Courses in commercial and secretarial subjects.

Recently two Technical High Schools for boys have been opened at Aurangabad and Warangal, which will provide a full high-school course of training with a technical bias. These schools will be similar to schools of the same type already started in certain British Indian Provinces, and will be modelled on the lines of such schools as recommended in the Report of the Central Advisory Board of Education, 1944.

In addition to the above, there are 12 Industrial Schools for boys at various district head-quarters and at Hyderabad. These schools provide 2 year or 3 year Artisan Courses of training for blacksmiths, coppersmiths, wiremen, electricians, electroplaters, carpenters, cane workers, cement workers, (tiles etc), leather workers including shoe makers, lacquer workers, gem cutters and polishers, cloth weavers, benarasi weavers, himroo weaver and tailors. Most of these courses at present are of post primary school standard, but it is hoped in the near future to raise them to a post middle school standard.

Vocational Education for girls has not been over looked by the Department. There are two Vocational High Schools for girls, providing Diploma Courses in Domestic Science as well as short courses suitable for girls in special home industries. In addition, there are 6 Industrial Schools for girls, providing Junior courses of the same type and more such schools are are contemplated.

In the field of Agriculture it is hoped in the near future to open 3 Agriculture High Schools and more contemplated.

In addition to the above Government institutions, the Department has also recognised 5 private industrial schools for boys and

VI.—EDUCATION.

4 for girls. Of these, grant in aid are being given to 2 institutions for boys and 4 for girls.

The expenditure of this Department has risen from Rs. 1.82 lakhs in 1937 to Rs. 10.71 lakhs in 1944-45. It is expected that this will rise to Rs. 20 lakhs per annum in the near future and ultimately, according to the Post War Educational Development scheme, it is likely to rise to nearly Rs. 60 lakhs in 14 years.

SECTION VII.

Printing and Stationery.

VII.—PRESS AND STATIONERY.

The number of Printing presses this year is 190 as compared with 189 in the preceding year. Except in Baghat and Karimnagar districts, the presses are distributed all over the Dominions. Hyderabad has the largest number *viz* 100. There are 4 English Newspapers, 16 Urdu newspapers out of a total 29 dailys. In Hyderabad City all the 16 Urdu papers are printed. There are 64 periodicals published in all the languages of the State, of which Urdu claim 39 and English 14. During the year 278 Books in Urdu, 36 in Telugu, 30 in Marathi, 24 in English, 10 in Hindi and one in Gujarati were printed and published.

The Government Central Press which does all the printing for all the Government Departments is well staffed and cost Government 5 lakhs. It also undertakes private job works. Income from various sources was 5 lakhs.

The Stationery Department purchases and supplies paper and other office equipment to all Government Offices. The total purchases amounted to Rs. 13.34 lakhs and the cost of Depot was Rs. 13.91 lakhs.

VII.—PRESS AND STATIONERY.

PRESS & STATIONERY.

No. 5.—Brief History of the Government Central Printing Department.

1. Established in 1276 F. (1867 A. D.)
2. Heads of the Department and the period of their tenure :—

Jail Superintendents.

1. Mr. Kazim
2. Mr. Hashi-uz-zaman
3. Mr. Syed Zainulabuddin Shirazi
4. Mr. Fredrick Gorden
5. Mr. Syed Ahmed
6. Mr. Burzorji
7. Mr. Md. Mustaq Hasan Khan
Superintendent & Director of Printing.
8. Mr. B. V. Pillai, Bar.-at-Law, 1842 F.
9. Mr. Abdul Qaiyum, B. A., H.C.S. (continuing)

3. *History.*—The Government Central Press was started in 1276 F. (1867 A. D.), primarily with the object of printing the Jarida or Official Gazette. In 1826 F., however, a wholtime Technical Superintendent was appointed. In 1842 F. the press was raised to a Directorate. In 1882 F. a separate section was established under the supervision of the Central Press for printing the text books of the Osmania University and this section was transferred in 1842 F. to the to the Osmania University Press. Until 1854 F. the head of Government Printing also acted as the Director of the Government Stationery Depot but since then a bifurcation has been effected.

4. *Chief Functions.*—The Government Central Press, as its name implies, primarily does Government Printing consisting of Annual Reports, Forms and Registers, the Weekly Gazette, State Budgets, Calenders, etc. along with all confidential work of Government. It also undertakes semi-Government works such as the quarterly 'Islamic Culture' and also carries out private orders that could be put through without dislocating Government work.

VII.—PRESS AND STATIONERY.

5. *Achievements*—From its initial modest beginning the Government Central Press has gradually enlarged itself into one of the leading Presses in India in addition to being a completely self-sufficient unit comprising of Letter Press, Litho, Offset, Electro-Stereo-typing, Process and Nastaliq sections. Its plant and machinery is up-to-date and it carries out work in all the vernacular languages of the State. Barring Kanarese all composition work is done through machines. The 'Hyderabad Information', a bulletin that appears under the aegis of the Information Bureau, is a very good example of the linguistic work done here. It is printed in English, Urdu, Telugu, Marathi and Kanarese.

The third year of Currency Note printing maintained the improvement noticed earlier in the quality of One-rupee Notes and in the ability of the Section to meet the demand for increased out-put.

The Osmania Foundry: The Osmania Foundry continued to make further experiments and to find ways and means of improving the Naskh, Suls and Nastaliq types and also to add to the variety of types now available for Urdu, Arabic and Persian composition. During the year an 18 pt. type was added to the 'Osmania Script' series which would aid materially in display composition.

6. *Control*.—The Press is under a Director, assisted by 3 Assistants.

SECTION VIII.

Public Works

VIII.—PUBLIC WORKS.

(a) *Roads.*

Much headway has been made in improving the means of communication both by the P. W. D. and the Local Bodies such as Municipalities, District and Local Boards.

In 1854 F. the total length of roads was 6,215.16 miles of which 449.00 miles were unmetalled. Of the metalled length 4,349.00 miles were maintained by P. W. D. Of the unmetalled portion 832 miles was under the P. W. D. In addition to the mileage shown in the statement against Hyderabad City 53.93 miles were treated with Cement Concrete, 5.70 & 1.86 miles of asphalt and comfalt road maintained by the municipality respectively.

The Capital expenditure on construction of buildings was Rs. 21.68 lakhs Roads & Culverts Rs. 40.58 lakhs, Bridges Rs. 2.07 lakhs, Irrigation Rs. 15.39 lakhs, Well Sinking Rs. 3.40 lakhs Water Works Rs. 4.79 lakhs, Drainage Rs. 2.07 lakhs, Tools and plants 1.41 lakhs and Fire prevention Rs. 0.26 lakhs.

The department is in charge of 127 officers receipt amount 9.78 lakhs. The total expenditure is 36.20 lakhs.

(b) *Water Works.*

For the supply of potable water to the town population, Government have constructed reservoirs and laid distributory mains in Hyderabad, Warangal, Aurangabad and Gulbarga cities; and Nizamabad, Jalna, Parbhani, Nander, Seram, Osmanabad, Latur, Tuljapur, Raichur and Mominabad; the total capital cost of all such works being Rs. 329.40 lakhs. The reservoirs have a storage capacity of 48,456 million gallons and the mains are 501.96 miles long. Annually 11,503.95 millions gallons of water are consumed by the population. The income derived by the department from consumers in 1854 F. amounted to Rs. 14.72 lakhs and expenditure was Rs. 21.12 lakhs excluding over-head charges of the Engineering establishment.

(c) *Sewerage.*

In Hyderabad City 170.70 miles of sewers with 5,377 connection and 6,126 manholes were maintained during the year 1854 F. for the convenience of the public and slum dwellers, 9 public baths, 82 flush-latrines and 61 flush urinals were provided.

There were also 75 dumping pits. The Capital cost of the project amounted to Rs. 101.70 lakhs. The annual maintenance cost being 0.58 lakhs.

Drainage Department.

Total expenditure of the City Drainage Department in 1854 F. was Rs. 13,852 chargeable to the general revenue and Rs. 3,02,853 chargeable to the "Maintenance" head; a total of Rs. 3.16 lakhs.

VIII.—PUBLIC WORKS.

No.7.—Brief History of the District Water Works Department for 1354 Fasli.

1. The Department was established in 1338 F.

2. Head of the Department.

Mr. D. V. Rao, B. Sc. (London) F.R.S.A. (London) continued as Superintending Engineer of the District Water Works.

3. *History*:—

The Water Board was formed in 1928 A. D. for the expeditions disposed of the Water Supply and Drainage Schemes of the District towns. The Hon'ble Revenue Member is the President of the Water Board and the Secretary to Government, Revenue Department, is its Secretary. The other two members of the Water Board are the Hon'ble Members of Finance and Public Works Departments. The Superintending Engineer is the Chief Administrative and Executive Officer of the Department working under the orders of the Water Board.

Government provides annually Rs. 5,00,000/- for the funds of the Board and further grants as loans to the Municipalities to the extent of 25% of the cost of the Scheme repayable at an interest of 4% per annum in 28 equal instalments. Thus for the construction of Water Supply and Drainage Works of the towns 75% of the cost is borne by the Government and the remaining 25% by the Municipalities.

4. *Chief Functions*:—

The Department investigates designs, constructs, and maintains Water Supply and Drainage Schemes for such towns as are provided with funds as stated above. Other works of town improvement are also carried out by the Department when funds are provided.

5. *Achievements*:—

By the end of 1354 F. the following works are completed by the Department and maintained in good running order.

VIII.—PUBLIC WORKS.

The cost of such schemes are shown against them.

1.	Water Supply Scheme, Jalna	Rs. 9,05,904-0-0
2.	Drainage ,,	Rs. 1,91,126-0-0
3.	Water Supply Scheme, Aurangabad	Rs. 3,51,998-0-0
4.	Drainage ,,	Rs. 1,96,278-0-0
5.	Water Supply Scheme, Latur	Rs. 7,88,207-0-0
6.	Drainage ,,	Rs. 1,44,188-0-0
7.	Water Supply Scheme, Raichur	Rs. 11,67,717-0-0
8.	Drainage ,,	Rs. 1,63,748-0-0
9.	Water Supply Scheme, Nander	Rs. 5,58,682-0-0
10.	Drainage ,,	Rs. 94,978-0-0
11.	Water Supply Scheme, Warangal	Rs. 12,45,319-0-0
12.	Drainage ,,	Rs. 3,04,079-0-0
13.	Remodelling the Water Supply, Gulbarga	Rs. 3,82,772-0-0
14.	Drainage ,,	Rs. 2,99,188-0-0
15.	Water Supply Scheme, Tuljapur	Rs. 2,02,929-0-0
16.	Drainage ,,	Rs. 55,222-0-0
17.	Electrification ,,	Rs. 92,066-0-0
18.	Water Supply Scheme, Sedam	Rs. 39,339-0-0
19.	Drainage ,,	Rs. 38,074-0-0
20.	Water Supply Scheme, Osmanabad	Rs. 94,225-0-0
21.	do Manvi	Rs. 10,000-0-0

VIII.—PUBLIC WORKS.

No. 9.—*A Brief History of the District Water Works Department for 1954 Fasli.*

1. *Date of Establishment*:—The Hyderabad Water Works Dept. as such, came into being with the completion of the original Chaderghat Water Supply System in 1889 A. D.

2. *Heads of the Department and period of their tenure*:—

Hyderabad Water Works has since its inception formed part of the Public Works Department. The following officers were in charge of it from time to time since the year 1925 F.:—

Mr. A. W. Stonebridge, Special Engineer,
from 6-5-25 to 26-10-30 F.

Mr. Ahmed Mirza, Executive Engineer,
from 27-10-30 to 31-5-38 F.

Mr. Faridoon S. Chenoy, Executive Engineer,
from 1-6-38 to 23-3-53 F.

Mr. K. Rahimatullah, Assistant Engineer,
from 24-3-53 to 9-6-53 F.

Mr. F. J. Campos, Assistant Engineer,
the present incumbent.

3. *History*:—Originally Hyderabad Water Works comprised two separate systems, viz. (i) Chaderghat Water-supply System, completed in 1899 at a cost of about Rs. 9.6 lakhs and (ii) City Water supply System completed in 1894 at a cost of about Rs. 12.6 lakhs. The Chaderghat system derived its supply from Hussain Sagar. This water was purified at the Narayanguda slow-sand filters and stored in the Bogulkunta and Residency service reservoirs, whence it was distributed to the area south of these reservoirs as far as Afzal Gunj and Begum Bazaar. A small pumping plant at Narayanguda served the area around Gun Foundry. The City System obtained its supply from Mir Alum tank. After purification through slow-sand filters in the vicinity of this tank the water was stored in the Misrigunj Service Reservoir, whence it was distributed to the City areas below Panj

VIII—PUBLIC WORKS.

Mahla and a portion of Karwan. The city areas south of Panj Mahla obtained a precarious supply from Umdah Sagar through a private (Paigah) pipe system. Secunderabad Cantonment had its own independent supply from Hussain Sagar and Jidimatla Tank.

After the disastrous floods of 1908 the construction of the two large lakes, now known as Osmansagar and Himayatsagar, were undertaken for flood remedial purposes. It was decided to take advantage for water-supply purposes of the large storage that would be available in these lakes and the scheme known as the "New Hyderabad Water-supply System" was launched and completed by 1921. Under this scheme a masonry conduit, with a maximum capacity of about 21 M. G. per day, was constructed for conveying the water from Osmansagar to Asafnagar. At the latter point a rapid gravity filtration plant of a maximum capacity of about 9 M. G. per day was installed. Provision for the supply of 20 gallons per head per day for an eventual population of about 5 lakhs, including that of Secunderabad Cantonment, was made. The supply to Secunderabad was delivered in bulk at the end of Hussain Sagar Tank Bund. The cost of the whole scheme amounted to as much as Rs. 86 lakhs. •

Due to rapid expansion of the town and the provision of sanitary amenities and other municipal improvements, however, the demand has now risen to about 40 gallons per head per day, averaging over Hyderabad and Secunderabad. Remodelling of the System has had, therefore, to be taken in hand. This scheme provides for a supply of 45 gallons per head per day for an eventual population of 6 lakhs, *i. e.* a total eventual supply of 27 M. G. per day. Of this, 14 M. G. per day will be drawn from Osmansagar and 13 M. G. per day from Himayatsagar. There will thus be two independent systems, each with its own conduit, filtration plant, trunk mains and distribution system. The whole scheme is expected to cost about Rs. 70 lakhs. The first instalment of this scheme comprising the augmentation of the Osmansagar filters, duplication of the Osmansagar trunk mains, remodelling some of the distribution system, etc., has already been completed at a cost of about Rs. 15½ lakhs. The second instalment of the scheme is now in progress.

VIII.—PUBLIC WORKS.

The total capital expenditure incurred on the Hyderabad Water Works so far is Rs. 282.2 lakhs. The Hyderabad Water Works Department have, in addition to the water-supply system of the town proper, been instrumental in constructing the following independent water-supply system :—

- (1) Golkonda Water-works, completed in the year 1341 F.
- (2) Water-supply to Pahadi Sharif, completed in 1341 F.
- (3) Unfiltered water-supply (from Hussainsagar) to the Industrial and Osmania University areas, completed in 1344 F.
- (4) Water-supply to the Districts Police Quarters at Amberpet, completed in 1348 F.
- (5) A scheme of water-supply to the proposed Ibrahim Bagh Barracks outside Golkonda, (practically complete).
- (6) Water-supply to E. G. 4 Factory at Fatehnagar and to the proposed Convalescent Home, Eramnuma.
- (7) Water-supply to Makai Darwaza Barracks, Golkonda.

In the year 1347 F. the water-supply system of Sultan Bazaars was taken over by this Department.

4. *Chief functions* :—The main function of this Department is of course, to supply pure and wholesome water to the whole of the town. In addition to this, the Department also looks after the above independent water-supply system. It is also in charge of the municipal surveys of the town.

5. *Achievements* :—The Hyderabad Water-works system is one of the best in India. The water that is supplied to the town conforms to the latest stringent sanitary standards in force in up-to date cities in the world. The charges levied on the consumers are as follows :— $\frac{1}{2}$ " connection Rs. 12/- per annum, $\frac{3}{4}$ " connection Rs. 27/- per annum, metered house-connections Rs. 0-5-0 per 1,000 gallons, metered industrial connections Rs. 0-15-0 per 1,000 gallons.

For the benefit of the poorer classes the department is maintaining 1,053 public stand-posts in various parts of the town. It also maintains 530 fire hydrants.

Private connections are continually on the increase. The total number so far in Hyderabad proper is 19,525 of which only 2,767 are metered.

VIII.--PUBLIC WORKS.

The Expenditure incurred annually on the maintenance of the Water Works is at present nearly Rs. 4 lakhs. Adding to this the overhead charges on the above mentioned capital expenditure of Rs. 232.21 lakhs the cost of the supply to private consumers works out to 3.8 annas per thousand gallons.

The net revenue realised during the last financial year was about Rs. 6.69 lakhs. This works out to only about 1.7 annas per thousand gallons supplied to private consumers. Excluding the charges levied on the bulk supply to Secunderabad Cantonment and the Railway at Secunderabad, the incidence of water taxation *per capita* in Hyderabad proper works out to only 11.1 annas per annum.

6. *Control* ;—The Hyderabad Water Works is run as a division of the Public Works Department. It is in charge of a Divisional Engineer assisted by an Assistant Engineer and Sectional Officers. A separate temporary establishment under an Assistant Engineer is maintained for the Remodelling of the Water Works.

VIII.—PUBLIC WORKS.

No. 13.—Brief History of the Department of Drainage, Hyderabad City 1354 F.

1. Established in 1335 F. (1926 A.D.)
2. Heads of the Department and the period of their tenure:

Chief Engineer and Secretary to Government

1. Nawab Karamat Jung Bahadur, B.A., F.C.H., M.I.E. (India.)
from 5-1-1335 F. to 10-5-1341 F.
2. Nawab Ahsan Yar Jung Bahadur, C.E. (Cooper's Hill), M.I.E.,
(India) from 11-5-1341 F. to 3-7-1349 F.
3. Syed Arifuddin Esqr. B. Sc. (Hons.), Manchester from 4-7-1349
to 22-2-1352 F.
4. M. Ahmed Mirza Esqr. C. E. (London) from 23-2-1352 F. to
14-4-1353 F.
5. M. Anwarullah Esqr. B. Sc. (Durham) from 15-4-1353 F. to
28-10-1354 F.

Chief Engineer I. B.

6. Syed Dildar Hussain Esqr. B. E., M. I. E., (India) from
28-10-1354 F.

Note :—The post of the Superintending Engineer in this Department was abolished in the year 1343 F. The Department was placed under the administrative control of Superintending Engineer, P.W.D., Medak Circle, Hyderabad from 1-3-1352 F.

3. *History* :—In the year 1318 F. the possibility of equipping the city with an efficient water carriage system was first examined by Sir M. Visvesvaraya and a partial scheme estimated to cost Rs. 52 lakhs was drawn up by him, omitting certain portions of the city, where there was insufficient water supply. In the year 1330 F. Mr. A. W. Stonebridge, the then Sanitary Engineer to Government, prepared a complete project for the whole city with plan and esti-

VIII—PUBLIC WORKS.

males amounting to Rs. 163 lakhs, providing for the disposal of both sewage and storm waters.

In 1931 F. Sir M. Visvesvaraya, after careful examination of the Scheme, reduced the estimated cost to Rs. 100 lakhs, excluding storm water drains and recommended that the drainage Scheme should be started with as little delay as possible. In 1934 F. Mr. M. A. Zaman (late Nawab Ahsan Yar Jung Bahadur) was placed in charge of the project. He revised the Scheme in the light of expert recommendations and drew up a programme of works. In 1935 F. the Drainage Department was formed with the late Nawab Karamat Jung Bahadur as Chief Engineer and Secretary and Mr. M. A. Zaman as Superintending Engineer of the Department. The actual work on the scheme was started in the year 1936 F. with an initial grant of 15 lakhs a year sanctioned by Government.

In the year 1938 F. the opinion of this Department was invited with regard to the best methods of constructing the city roads and rendering them dustless. The recommendations of this Department for cement concreting the roadways was approved by Government and the Project was entrusted to this Department for execution.

In the year 1940 F. proposals were submitted for improving the Sanitary condition of the river Musi, by forming a serpentine lake and remodelling and constructing storm water drains, in the city. These proposals were approved and their execution is under consideration of the Government.

4. *Chief Functions*:—Improvement of the sanitation of city by means of up-to-date methods of underground drainage and storm water surface drains and constructions of dustless roads.

5. *Achievements*:—(a) *Drainage Sewers*: Main Sewers, branches and lateral sewers and disposal works have been completed at a cost of about Rs. 102.48 lakhs. The construction of sub branch-sewers, wherever required, are taken up as applications are received from house-owners for connection to Drainage system. Sanitary public latrines, dumping pits, urinals and baths have also been constructed in the different parts of the city for the use of the public. In addition to this, the works completed are being maintained to ensure efficient working.

The sewage delivered at the Disposal works is partially purified: The effluent is mixed with fresh water and given out for

VIII.—PUBLIC WORKS.

the cultivation of 1,100 acres of wet land. Proposals are before Government to extend the area of cultivation to 3,000 acres. An Experimental Demonstration Farm is attached to the disposal works for the guidance of the cultivators.

(b) *Cement Concrete Roads.*

(1) The total length of the creteways, so far constructed by this Department is 27.60 miles at a cost of Rs. 28.38 lakhs. These roads and their berms are maintained in an efficient condition.

(2) In addition to the above, 5.13 miles of city roads were also converted into creteways by this Department on behalf of the Municipality.

(3) Hyderabad has the longest mileage of roads constructed with cement concrete, on modern lines. The construction of roads have not only added to the aesthetics of the City, but has also considerably contributed to better health conditions. It also affords great facilities towards ease, comfort and economy in traffic conditions, and in the conservation of essential commodities, as Tyres, Petrol and spare parts of vehicles.

(4) The Cement Concrete Roads together with its establishment were transferred to Hyderabad Municipality on 1-8-1952 Fasli.

(c) *Improvement of the River Musi.*

A scheme costing Rs. 16.78 lakhs is under consideration of the Government.

(d) *Construction of Storm Water Drains.*

Main Storm water drains in important localities were constructed at a cost of Rs. 8.44 lakhs.

6. *Executive Charge:*—(a) The Department is under an Executive Engineer, two Assistant Engineers, a Sub-Engineer & a Chemist
(b) *Administrative control:*—Hitherto after the abolition of Superintending Engineer's post in 1848 F. the Department was working directly under the Chief Engineer and Secretary, P. W. D. but in the Re-organisation Scheme of the P. W. D. it was placed under administrative control of the Superintending Engineer, P. W. D., Medak Circle from 1-8-1952 F.

*No. 15.—Brief History of O. U. B. P. Circle, Hyderabad-Deccan
for 1354 Fasli.*

1. Established in 1341 F. (1931 A.D.)

2. Heads of the Department and the period of their tenure:—

(1) Nawab Zain Yar Jung Bahaḍur, Chief Architect-Design
from 1941 F. till he became P. W. D. Member.

(2) Mr. Anwarulla, B. Sc. (Distinction) Durham—Construction
Superintending Engineer till the end of 1953 F.

(3) Mr. Syed Dildar Husain, Superintending Engineer, P. W. D.
Medak Circle was looking after this Circle as it was amalgamated in
that circle.

3. *History*:—Brief report about the function of the Circle has
been published in previous issues. This circle continued working
under Medak Circle as reported in previous report upto 11/54 F.
when it was separated and a new circle is established under the
Superintendent of Works.

4. *Chief Functions*:—This circle controlled and administered
the following Divisions:—

1. O U. B. Project Division.

2. Special Division.

but when it was amalgamated with Medak Circle the control and
administration of the above divisions was also transferred to that
circle.

O. U. B. P. Division:—deals with construction, layout and maintenance of all buildings, roads, water-supply, drainage and electricity in the whole of the University campus which is about 2000 acres. Besides this it deals with the survey valuation and a Requisition of buildings of C. S. B. Scheme.

Special Division:—Deals with the construction of Military buildings, projects, annual maintenance of some of these buildings and the annual upkeep of Bella Vista and Hill Fort Palaces.

VIII—PUBLIC WORKS.

5. *Achievements*—The following are the principal scheme during the year 1854 F.

O. U. B. P. Division *Expenditure to end of 54 F.*

1. Physics College.	4.88	Lakhs.
2. Chemistry College	6.75	,
3. Botany & Zoology College	5.87	,

7. Constg: Existing Stables into living quarters at Mohamadi lines	2.52	,

A. R. P.

Air Raid shelters at Bella Vista and Hill Fort
Palaces.

5.68 ,

6. *Control*:—This circle is under the control of the Superintending Engineer assisted by one Divisional Engineer and one Assistant Engineer in each Division.

SECTION IX.

Irrigation Projects & Water Supply

IX.—IRRIGATION.

Godavari and Krishna with their tributaries form the river system of Hyderabad State. In addition to the waters these rivers bring, the country receives from rainfall more than two million cubic feet of water annually. Out of this barely 10 % is utilised for irrigation and the rest runs to waste.

The expenditure incurred so far on minor irrigation works was about 6 crores; a large portion of this amount was spent on maintenance and repairs of old tanks. Major irrigation works such as Nizamsagar, Pocharam, Wyrā, Palair etc. have cost the state another 6 crores. The total revenue from irrigation amounted to about Rs. 150 lakhs.

There were 25,451 serviceable and 6,793 unserviceable tanks. 979 miles of serviceable and 270 miles of unserviceable canals with 4,871 miles of distributories. The number of serviceable and unserviceable wells being 211,529 and 60,025 respectively. In addition to the above, the total number of other irrigational sources in 1354 F. was 9,826.

The total area under irrigation from all sources was 1,848,814 acres of which the 'Kharif' and 'Abi' area constituted 50.09 % and the 'Rabi' and 'Tabi' 10.98 % the remainder being 'Dofasla' and 'Baghat'

SECTION X.

Electricity

X.—ELECTRICITY.

Electricity is generated and supplied for street and house lighting in the four cities of Hyderabad, Warangal, Gulburga and Aurangabad and also in Nizamabad, Nanded, Yadgir, Raichur and Narayenpet towns. Many industrial concerns also take supply of electric power for running their machinery. In 1954 F., the total capital outlay on plants, land & building, etc. amounted to Rs. 178.8 lakhs, of which Rs. 131.7 lakhs was for the city of Hyderabad.

The total route mileage of overhead transmission line, distributed overhead lines and underground cables stood at 232.0, 92.3 and 93.7 respectively.

330.52 lakhs of units were generated during the year of which 85.82 percent were sold to consumers, 5.78 percent were used by the power houses and 9.60 percent went to waste. The average rate per unit charged amounted to 4.47 annas, and the total receipts by the sale of Current during 1954 F. stood at Rs. 38.86 lakhs of which Rs. 30.67 lakhs were from the City of Hyderabad. The expenditure of the Department amounted to Rs. 23.78 lakhs while the total revenue realised was Rs. 40.15 lakhs.

The amount of deposit held from the consumers was Rs. 6 21 lakhs, which yielded an interest of Rs 11,602.

The state holds a very favourable position in as much as the largest rivers of Deccan, namely, Godavery and Krishna, flow through its: the extent of water power so far investigated amount to more than 112 lakhs continuous horse power, excluding the large tributaries such as Tungabhadra, Peinganga, Manjira, Purna, Kaddem, Manair etc, which can supply an additional 171 lakhs or in all nearly 283 lakhs horse powers. A brief description of the various Hydro-Electric possibilities in the State are given below.

The river Tungabhadra flowing as a boundary river between Madras and Hyderabad in the south has been under investigation for a long time. It is intended to construct a joint reservoir across this river near Malapuram. The Hyderabad canal during its course drops 230 ft., at two places on the mile 14 and the other at mile 24. With

X.—ELECTRICITY.

this total fall of 230 ft., and with a perennial discharge of at least two thousand cusecs from our share of the water, it is expected to develop about 42,000 H. P. continuous. The river Krishna flowing to the north of Raichur also affords great possibilities. It falls through a height nearly 300 ft., in a distance of 4 miles, above Lingsugur. These falls are known as jaldrug falls. It is proposed to construct a reservoir across this river just above the cataract, and divert the perennial supply on the right bank. This channel will tunnel through a bridge near Hira village and beyond it will be dropped about 250 ft., in two or three development and eventually the water will be joined with the Tungabhadra canal. This river is at least $11\frac{1}{3}$ times the river Tungabhadra, and with a storage of 60,000 M. c ft., it will be possible to create a perennial flow of 2,500 cusecs. This canal discharge will be capable of developing about 67,000 horse power. Lower down on the river Krishna in Nalgonda district, another project is contemplated which is known as Lower Krishna Project. This is also likely to be combined a Project, between Madras and Hyderabad. The dam will be nearly 400 ft., high and the height between the sill of canals and the riverbed about 240 ft. Madras will be joining the scheme, in order to safeguard their existing irrigation in the Krishna Delta. The needs of this delta are likely to be in the region of 3,000 cusecs perennial, which dropped through 240 ft., fall give about 666,000 H.P., Besides this, there is another drop of 100 ft., available between the F. S. L. of reservoir and the sill of canal which is likely to be harnessed one day for secondary power to be utilized for irrigation pumping. The potentiality of the river Krishna is thus about 1,65,000 H. P.

The river Godavery falls through a rapid below Soan Bridge on the Hyderabad Nirmal road. It falls as much as 500 ft., in 50 miles and it is this fall which is proposed to be utilized. By constructing a reservoir above Soan Bridge it is possible to create a fall of about 300 ft., and to drop the waters in its tributary, the Kaddam. The river Godavery with the storage under consideration will give about 2,000 cusecs perennial discharge which will be to create 55,000 H. P. continuous. Among the tributaries of the river Godavery, Painganga, Purna, Manjira, Kaddam and Manair, all offer opportunities for the development of power. Painganga is capable of giving about 15,000 H. P., Purna about 7,000 H. P., Manjira about 30,000 H. P., Kaddam 10,000 H. P. and Manair about 1,000 H. P., The total potentialities of the river Godavery are in the region of 1,18,000 H. P.

X.—ELECTRICITY.

The total resources of the State in the way of water-power are thus well above 2,50,000 H.P. Most of these schemes are combined Hydro-Electric and irrigation scheme irrigating more than 2 1/2 Million acres when completed, and as combined scheme they are capable of giving a reasonable return on the capital outlay. The Hydro-Electric power generated in the state can serve the various metal industries, it will also be useful for the nitrogen fixation industry and for rural electrification such as Irrigation Pumping.

The following figures (from World Almanac, New York 1932) will show how inadequate electric development in India as a whole is when compared with the leading countries of the world:-

WATER POWER RESOURCES.

Countries.	In Million Hydro-power.		Percentage to total
	Potential	Developed quantity	
U. S. A.	35.0	11.7	33
India.	27.0	0.8	3
Canada	18.2	4.5	25
France.	5.4	2.1	37
Japan.	4.5	1.7	37
Spain.	4.0	1.0	25
Italy.	3.8	1.8	47
Switzerland.	2.5	1.8	72
Germany.	2.0	1.0	55

From the figures given for the Dominions it is evident that the Hydro-power available will be more than 2 lakhs K. W. continuous which when fully developed in conjunction with fuel plants may amount to nearly 1,800 million units or about 120 units per head of population in the Dominions. It has been established in all developed countries of the world that the only way to increase prosperity and thereby the wealth per head is to increase the output of power per head.

X.—ELECTRICITY

No. 6.—Brief History of the Hyderabad City Electricity Department (B A R Q I.)

1. Established in 1319 Fasli (1910).
2. Heads of the Department and the period of their tenure:

Directors :—

1. Mr. R. L. Gamlen, M.I.E.E., 16-12-1319 F. to 11-7-1344 F.
2. Mr. H.C.H. Armstead, B.Sc., A.C.G.I., M.I.M.E., M.I.E.E.,
M.I.C.E., 12-7-1344 F. to 21-10-1354.
3. Mr. J. Roman, Chief Electrical Engineer, 22-10-1354 F.
(Continuing).

(The designation of the Head of the Department has since been changed from Director to Chief Electrical Engineer from 26-5-54 F. under Government orders).

3. History :—

In 1319 F. the Electricity Department was established and Mr. R. L. Gamlen, who was then the Mint Master, was appointed as Director.

In 1912 (1321) eleven lakhs of rupees were sanctioned : (a) for the erection of a regular power house as an addition to the old Mint Engine Rooms (b) the extension of the distribution and transmission system and (c) the construction of a Railway Siding for bringing the coal to the site of the power house. The first generator was a 14 kw reciprocating D. C. Machine, which was used to supply only a few buildings in the vicinity of the Mint, but gradually the demand grew and the plant was increased step by step. The first General Power House was built in 1321 F. and the plant capacity of this ultimately became 4,000 kw. The demand, however, soon outgrew the size of this plant and the New Power House in the southern flank of Hussain Sagar Tank was finally erected in 1332 F. The Old and New Power Houses worked together for some years, but eventually the more modern plant in the latter entirely superseded that of the Old Power

X.—ELECTRICITY.

House which ceased to generate power, except during emergencies, after the year 1885 F. There were up to the end of 1854 F. three Turbo-Generators in the New Power House, having total capacity of approximately 10,000 kw. A fourth machine of 7,500 kw. rating is under construction. Eight boilers are installed, two of which are fed by pulverised coal, and the other six are fired by means of modern mechanical stokers. An emergency Diesel House, containing about 1,500 kw. of generating plant is now in operation.

During the year 1854 F., no less than 2,84,73,334 units were generated. The highest load yet experienced on the generating plant is 5,850 kw. To the end of 1854 F., there were 10,900 consumers in Hyderabad which include five bulk supply consumers, namely Secunderabad Electricity Co. Ltd., Nizam's State Railway, Ramgopal Mills and Hyderabad Spinning and Weaving Mills and Osmania University who were being fed with electrical energy from Hussain Sagar Power House.

The average price received per unit sold in 1854 F. was H. S. 2.084 annas. With a view to stimulating the demand of electricity, a Publicity Section was started in 1845 F. with a Showroom known as "Bijli Mahal" where the public could receive information as to the uses of Electricity, and where they could witness demonstrations of a large variety of electrical appliances. This, however, has since been closed down owing to the temporary need for reversing the policy of expansion on account of coal shortage. In fact the coal situation deteriorated so much that since Aban 1852 F. actual rationing of electricity had to be enforced.

4. *Chief Functions*:— The generation and distribution of electrical energy from coal.

5. *Achievements*:— On account of the cheap power supply many industrial works have been started around the city. The citizens have all the amenities of life usually present in a modern city due to the use of electric energy, and the highways and byways of the city and suburbs are extensively illuminated.

6. *Control*:—The Department is under a Chief Electrical Engineer who is assisted by a Commercial Superintendent, and a Registrar on the office side and by a staff of Engineers on the Executive side.

X.—ELECTRICITY.

No. 7.—Brief History of the Department of District Power Schemes

1. Year of the establishment : 1336 F. (1927 A. D.)

2. Head of the department and the period of their tenure.

1. Late Mr. Khateeb Mahmood Hussain M. A. (Cantab) Mech. Sc. (tripos) A. M. I. E. E., designated as the Special Engineer. Worked from the inception of the Department *i. e.* 1336 F. till Bahman 1349 F. when his distinguished career was chequered with premature death.

2. Mr. K. M. Mutthanah was in charge Special Engineer from Isfandar 1349 F. to 20th Isfandar 1350 F.

3. Mr S. A. Quader B. Sc. (Madras) B. Sc. (Hons) Manchester, A.M.I.E., (India) was in charge Special Engineer from 20th Isfandar 1350 F. to 6th Aban 1352 F.

4. Mr. Mohd. Afzal Ali Khan B. Sc. (Calcutta) B. Sc. Tech. (Manchester,) A.M.C.T., A.M.I.E.E., A.M.I. Mech. E., A.M.I.E. (India) took charge of the department as Special Engineer on 6-12-52 F. and is continuing.

3. *History.* The Department was inaugurated in 1336 F. for the electrification of Aurangabad City. A Power House at Aurangabad was opened in the year 1337 F. On 19-1-49 F. the Government sanctioned a sum of O. S. Rs. 1,90,650/- for additional equipment at Aurangabad in order to increase the capacity of this station but owing to war only a 100 K. W. second hand Diesel set could be procured and installed. During the year 1354 F. a further sum of O. S. Rs. 3,32,000/- was sanctioned for purchasing and installing 2 new Diesel Sets of 150 K. Ws. each to supplement the plant. Two sets of Worthington Siemens make were purchased from the Government of India and out of these two sets one set was erected, tested and put into commission in the second week of Amardad 1354 F. The second set is under erection.

X.—ELECTRICITY.

The Town of Nizamabad was electrified in 1344 F. and the Power House was declared open by Prince Walashan Nawab Azam Jah Bahadur on 11-2-44 F.

The town of Raichur was also electrified about the same time as Nizamabad and the Power House was declared open by Prince Walashan Nawab Moazzam Jah Bahadur on the 11th Isfandar 1344 F.

Yadgir and Narayanpeth which were intended to be only distributing stations receiving supply from Raichur, have tentatively been started as separate units in the year 1347 F. with independent generation at each.

In the year 1345 F. Warangal and Nander were started as distributing stations receiving supply from the Azam Jahi Mills and the Osman Shahi Mills, situated at the respective places. The Osman Shahi Mills later on discontinued the bulk supply for some time due to inadequacy of their plant capacity, when the Department made its own arrangements for generation. Having duly supplemented the plant the Mills have again reverted to giving supply which arrangement is still being continued.

The electrification of Gulbarga town was started in the year 1347 F. as a generating station but due to growing demand of Power and inadequacy of plant capacity the supply is being taken from the M. S. K. Mills since Meher 1350 F. on all mill working days.

The Government had sanctioned a sum of O. S. Rs. 1,97,952/- for purchasing the transmission line from Kothagudam to Yellandu and the town installation at Yellandu, from the Sigareni Collieries Co., and to continue the town supply by this Department. The Department purchases current in bulk from the said Singareni Collieries Co. operating at Kothagudam. Accordingly the net work of L. T. and H. T. mains were taken over on 1-1-44 A. D. (28-3-53 F.)

4. *Chief functions.*

Chief functions of this department are the investigations and surveys of electricity in the State and the installation and running of electric supply plants and distribution system in the Districts.

X.—ELECTRICITY.

5. *Achievements.*

Cities and towns 8 in number were electrified by the Department since its inception and an already electrified town, Yellandu, was taken into its fold during 1944 A. D. (53 F.)

6. *Control.*

The Department is controlled by the Special Engineer assisted by an Assistant in the Head Office and 3 Superintendents and 2 Assistant Superintendents in the Districts.

SECTION XI.

Railways

XI. RAILWAYS.

The total mileage was 1,361, of which the Broad Gauge was 690 and Metre Gauge 671 miles. The capital outlay amounted to Rs. 15.51 Crores in 1944-1945.

The total number of rolling stock was 171, of which 4 were rail motors and 2 steamcoaches. The coaching vehicles numbered 368 of which 267 were passenger carriages and 101 other vehicles. .

Of the 17,789,100 passengers carried by the railway, as many as 10,732,800 were accounted for by the metre gauge. The total earnings from passenger traffic amounted to Rs. 16,245 thousands while earnings from goods carried amounted to Rs. 26,906 thousand.

The gross earnings and the working expenses in the year 1354 F. were Rs. 4,99,68 thousand and Rs. 2,60,61 thousand respectively. The percentage of total working expenses to gross earnings was Rs. 52.2.

In 1354 F. the number of accidents on railway was 65 killed and 162 injured as compared with 47 killed and 169 injured in 1353 F. Of the total casualties railway servants accounted for 8 killed and 124 injured.

The personnel of the Railway Administration consisted of 52 Europeans, 258 Anglo-Indian domiciled Europeans, and 16,651 Indians of whom Hindus were 7,832, Depressed Classes 5,896, Muslims 2,540 and Indian Christians 817.

A brief history of the Department is attached to this section after the statistical tables.

XI.—RAILWAYS.

No. 16—*Brief History of H. E. H. the Nizam's Railway,
for the period ending 1944-45 A. D.*

History:—

The question of providing Hyderabad with a railway arose as far back as the early sixties. The decision to link Bombay with Madras rendered the proposal a practical proposition and determined the location of the first railway in the Hyderabad State. Under an agreement dated May 19th, 1870 the Capital was supplied by the Nizam's Government, whose sole property the railway was to be, but the details of construction and working were undertaken by the British Government. The first railway line, Wadi-Secunderabad, 117 miles long, was accordingly opened for traffic on the 9th October 1874. For the first 4 years after construction the line was worked by the G. I. P. Railway, the next six years by State Railway Agency, and from January 1885 to the end of March 1930 by the Nizam's Guaranteed State Railway Co. Ltd., (incorporated in England) which had, in pursuance of a contract dated December 27th, 1883, acquired all rights of working and management of the existing lines and of constructing new railways in the Nizam's State. An outstanding event in the history of the railway was its acquisition on 1st April 1930 by Govt. from the N. G. S. R. Company. The London Board was subsequently abolished and in its place a new Board at Hyderabad was set up in 1941. The net revenue from the railway which formerly used to be distributed to the shareholders of the Company now accrues entirely to the State.

H. E. H. the Nizam's State Railway's open mileage comprises 689 miles of broad and 671 of metre gauge, of which 22 miles of broad gauge from the British Frontier Bezwada, known as the Bezwada Extension Railway, and 36 miles of metre gauge from the British Frontier to Dronachellam known as the Dronachellam (Dhone) Kurnool Railway are owned by the Government of India but worked by the Nizam's State Railway.

The Railway operates its own road services and had also started operating its own commercial air services, which had, however, to be

XI—RAILWAYS.

held in abeyance—all air facilities having been directed to augment the war effort.

Situated as it is in the heart of the Indian Peninsula, this Railway connects the North with the South and the East with the West and links up the M. S. M. Railway with the G. I. P. Railway. The Broad Gauge system extends from Bezwada in the Madras Presidency on the South, to Wadi on the West and Balharshah in the North; while the Metre Gauge system extends from Dronachellam in the Madras Presidency to Manmad in the Bombay Presidency. Secunderabad is the Headquarters.

The construction of all main lines from 1912 onwards was financed by His Exalted Highness the Nizam's Government the actual construction and the working being entrusted to the late N. G. S. Railway Co.

Achievements :—

The Engineering Department has endeavoured to keep abreast of the times. An upto-date and modern hotel has been built at Aurangabad and is under the management of H. E. H. the Nizam's State Railway. Many distinguished persons have honoured the hotel by being its guests.

By inaugurating experimental road services of their own in June 1932 with a monopoly over certain selected routes, H. E. H. the Nizam's State Railway gave a lead to other Railways in India in this respect. In subsequent years the Railway took over practically all the main roads in the State for operating passenger bus services and also goods service over selected roads. These road services are run in co-ordination with rail services, wherever possible, over a route mileage of 4,206 miles and are managed by the Road Transport Department of the Railway.

His Exalted Highness by a Firman-e-Mubarak dated 11th January 1938, agreed to the Executive Council's proposals for the inauguration of air services within the State as well as to British India under the supervision of the Railway Administration. Accordingly the Air Department of the Railway was constituted. The Railway also assumed responsibility for the construction and maintenance of all flying grounds in the Dominions.

XI.—RAILWAYS

Accordingly the Begampet Air Port came under the railway and is a regular intermediate stop for the Tata's Bombay to Madras Mail Services flying to and fro about four times a week. The Control Officer at the air port is in direct communication with the Trimulgherry Wireless station and Meteorological reports between Bombay, Madras and Hyderabad are regularly exchanged.

A seasonal bi-weekly service to Madras *via*. Bangalore was operated in 1940.

Control:—

The Management of the Railway vests in the Railway Board at Secunderabad. His Excellency the President of His Exalted Highness' Executive Council is the President of the Board. The members of the Board during 1943--44. *i.e.* upto the end of 1953 F. were:—

Col. Nawab Sir Mohamed Ahmed Said Khan of Chatari, K.C.S.I., K.C.I.E., M.B.E. LL.D., President, Executive Council.	}	President.
Hon'ble Zahid' Hussain Esq., C.I.E., the Finance Member		Vice-President.
Lt.-Col. E. W. Slaughter C.B.E. M.I.M.E.		Managing Director.
Nawab Zain Yar Jung Bhdr.		Director.
Khan Bahadur Barkatali		Finance Officer.
A. Boxall Esq.		Technical Officer.
S. N. Bilgrami Esq.		Secretary.

Control over the finance of the railway is exercised by a Government Auditor who is vested with full powers.

SECTION XII.
Motor Transport

XII.— MOTOR TRANSPORT.

Road Transport.

In 1354 F. 6,203 Motor vehicles were registered in these Dominions as compared with 7,777 in 1353 F., 3,880 of these were private motor cars. The number of Taxi motor cars decreased from 355 in 1353 F. to 284 in 1354 F. and the number of Motor cycles also declined from 866 to 612 during the same period.

The Revenue realised from registration of motor vehicles, driving licenses etc. was Rs. 357,355 in 1354 F. as compared to Rs. 852,334 in 1353 F.

Railway Bus Service.

The Railway Road Transport Department put on the road in 1354 F. (1944-45). 484 vehicles including goods lorries and trailers which operate on the route mileage of 4,291. The seating accommodation in the passenger buses was 7,411. These buses carried 19,159,372 passengers. The total amount of earnings being Rs. 8,801,907 as against Rs. 7,037,579 in 1353 F.

XII.—MOTOR TRANSPORT.

*No. 7—Brief History of the Road Transport Department
H. E. H. the Nizam's State Railway for 1354 F.
(Amended upto 1354 F. by the Railway Department)*

1. *Established* in Amardad 1341 F. (June 1932).
2. *Heads of the Department and the period of their tenure:—*

Road Transport Superintendent.

1. Lt. Col. J.A.H. Bampton, M.B.E. 1347 F. (on war was service)
2. B.A.J. Dunlop, Esq, 1349 F. (Acting)

3. *History.*

Up till the year 1341 F. (1932) road transport by motor vehicles was carried on by private individuals and small private business concerns. The Deccan Motor Services had a monopoly of a wide area and their services extended to many districts of the Dominions. In the City of Hyderabad, individuals and Companies operated. The services rendered by the private agencies were neither regular nor punctual, and the inconvenience caused to the public by dislocation of Traffic, due to unhealthy competition was great. Besides the fares charged were arbitrary and the kind of vehicles run unsatisfactory. Therefore the Govt. took over the road monopoly of certain trunk roads in the city and suburbs as well as in the districts and entrusted the Railway Department with the operation of the services from June 1932 (1341 F.). A policy of expansion has been pursued. The financial results are encouraging and the public are satisfied with regular and punctual services at cheap standard fares.

There are now 484 vehicles including goods and parcel lorries operating on most of the important roads of the Dominions, the route mileage being 4,291.

As a measure of co-ordinated railway and road services out agencies linking important trade centres have been opened. The collection and delivery of goods at merchants' godowns in the towns of Hyderabad, Secuderabad and Warangal are well established.

XII.—MOTOR TRANSPORT.

4. *Chief Functions.*

Affording cheap and regular motor transport by road for passengers and goods throughout the Dominions.

5. *Achievements.*

Transport service on 4,291 route miles of road, serving important railway stations, villages, markets, pilgrimage centres and towns in the districts and Head quarters. The maintenance of public utility services despite the difficulties in obtaining new equipment and spare parts as a result of the war. The number of passengers carried by N. S. R. Buses during the year was 19,159,372 as compared with 17,230,668 passengers in the previous year.

6. *Control.*

The Department is under State Railway management with an executive officer as Road Transport Superintendent and six Assistant Officers.

SECTION XIII.

Aviation and Air Transport

XIII.—AVIATION AND AIR TRANSPORT.

The Flying Club started in June 1936 and continued to function at Begumpet in Hyderabad and Chikalthana in Aurangabad. H.E.H. the Nizam's Government sanctioned a subsidy of Rs. 2,826 for the training of pilots. The total number of hours flown during 1954 F. was 50.05 hours.

A brief history of the Department is attached in the end of the section.

XIII.—AVIATION AND AIR TRANSPORT.

No. 5—*Brief History of The Hyderabad State Aero Club.
Begumpet, Hyderabad Deccan.*

(Amended upto 1354 F. by the Air Transport Department.)

1. *Name of Department.* Hyderabad State Aero Club.
2. The club was established in the year 1345 F. (1936).
3. Heads of the Department and the period of their respective tenure:

Member-in-charge of Aviation.

His Excellency Nawab Sir Mohamed Ahmed Sa'id Khan K.C.S.I.
K.C.I.E. M.B.E. LL.D. President, H.E.H. the Nizam's Executive Council and Member-in-charge of Railway and Civil Aviation.

Head of the Department.

Nawab Mir Nawaz Jung Bahadur, Secretary to Govt. Railways and Civil Aviation.

4. *Govt. Subsidy.*

A Subsidy of Rs. 2,826/- was sanctioned by H. E. H. the Nizam's Government for the year under report.

5. *Control.*

Consequent on the suspension of all civil flying in the club, the club has been closed for the duration of the war and the clerical staff are working in the Railways and Civil Aviation Secretariat until such time as the activities of the Aero Club are resumed.

SECTION XIV.

(a) Post

XIV.—(a) POST.

22 New post offices of all grades were added during the year 1354 Fasli, making a total of 1,401, with an average of 59 sqr. miles territorial area under each post office.

The number of letter boxes were 2,107 and number of Post men 275—a decrease of 28 in the former and 10 in the latter from 1353 Fasli.

The Department issued 452 lakhs letters, post-cards, newspapers, etc. as compared with 325 lakhs in 1353 F. And also issued Rs. 233.9 lakhs and paid Rs. 9.5 lakhs money orders.

The number of postal Saving Banks has increased from 388 to 391 from the preceding year and the number of depositions has also increased from 1.06 lakhs to 1.12 lakhs.

Sale of Stamps, money order commission and other receipts brought 16.76 lakhs rupees to the Department while the total expenditure amounted to Rs. 12.05 lakhs.

XIV.—(a) POST.

No. 7.—*Brief History of the Postal Department (Tappa) for 1354 F.*

1. Year of Establishment:—1278 Fasli, (1869 A. D.)
2. Heads of the Department and the period of their tenure:—

Postmasters-General.

1. Nawab Shahsawar Jung Bahadur	4-11-1279 to 19-8-1281 F.
2. Mr. P. J. Charles	20-8-1281 to 31-6-1285 F.
3. Major H. Rocke	1-7-1285 to 11-1-1287 F.
4. Mr. Syed Mohiuddin Alvi	12-1-1287 to 31-10-1291 F.
5. Mr. Abdul Karim	1-11-1291 to 8-6-1306 F.
6 Mr C. Lauder	9-6-1306 to 17-11-1312 F.
7. Mr Md. Siddiq	18-11-1312 to 9-3-1316 F.
8. Mr. Knox Homan	10-3-1316 to 19-9-1328 F.
9. Mr. Rustumji Chenoy (Offtd.)	19-9-1328 to 27-6 1329 F.
10. Khan Bahadur Mir Mazharuddin	28-6-1329 to 27-6-1331 F
11. Mr. Rustumji Chenoy (Offtd.)	28-6-1331 to 16-8-1331 F.
12. Nawab Sardar Nawaz Jung Bhdr.	17-8-1331 to 15-4-1338 F.
13. Mr. Rustumji Chenoy	16-4-1338 to 8 9-1340 F.
14. Mr. Mohamad Ahmed	9-9-1340 to 31-6-1349 F.
15. Mr. Syed Turab Ali	1-1-1349 to 11-1-1352 F.
16. Mr. Md. Samsamuddin Hyder, H.C.S.	12-1-1352 to Continuing.

3. *History*:-In olden days there were no State Post Offices and means of communication were lacking. The public had to send their letters either through merchants and travellers or if they could find any opportunity, along with Government Mails. Government Service were carried by "Sawars" or orderlies appointed for purpose or by "Baigars". No postage was generally charged for this purpose.

For the first time, arrangements for transporting Govt. Service Mails were made by the then Prime Minister, Mir Alam Bdr. in the region of the Late H. H. Nawab Sikander Jah Bdr. It was only this postal service, which besides functioning within the Dominions, also maintained connections with the important Cities outside the State

XIV.—(a) POST.

like, Calcutta, Madras, and Bombay, etc. This organisation was maintained through "Contract System" and was limited to ordinary letters only.

In the reign of the Late H. H. Nawab Afzal-ud-Dowla Bdr. the Great Sir Salar Jung I did away with the above "Contract System" and the conveyance of mails was entrusted to an old contractor under Government Supervision.

In the reign of the Late H. H. Nawab Mir Mahboob Ali Khan Bdr., Nawab Sir Salar Jung I, appointed on 4th Mehir 1279 F., Nawab Shahsawar Jung Bdr. as Postmaster-General, who introduced some elementary and ordinary system; postage stamps for private letters were also introduced.

In 1291 F. the State entered into a postal agreement with British India, whereby principle of exchange of postal articles was accepted.

Since its creation, the Department has been undergoing continuous development in different branches of its working and after the introduction of many systems it improved and progressed in quantity and quality of the work. At the present time it covers practically all the functions usually performed by Postal Departments in other countries, and yields a net profit of over nine lakhs in 1354 F. The following systems were introduced in the Postal Department of the State in the year noted along with them;—

Insurance System in 1316 F.

Money Orders System in 1320 F.

Value Payable System in 1323 F.

Saving Bank System in 1332 F.

Postal Cash Certificates in 1352 F.

National Savings Certificates in 1353 F.

Chief Functions:—The activities of H. E. H. the Nizam's Postal Department are, however, confined within the State, while the British Indian Post Offices deal with all the Postal Departmental

XIV.—(a) POST.

duties partially inside and wholly outside the State. The following figures of 1854 F. will give some idea of the functions and the scope of the activities of the Postal Department:—

No. of Registered Articles distributed	11,188,877
No. of Non-registered do do	45,242,389
No. of Non-bearing do do	22,819,518
No. of Money Orders paid	784,902
Amount of Money Orders	Rs. 24,809,722-10-0
No. of Saving Bank Accounts	111,563
Amount deposited in Saving Bank Accounts	Rs. 12,984,106 12-9
No. of Post Offices	1,401
No. of Letter Boxes	93
Income	Rs. 2,191,465-11-0
Expenditure	Rs. 1,204,738-11-0
Profit	Rs. 986,738-0-0

5. *Achievements*:—Although the rates of postage and other taxes of the State Postal Department are comparatively lower than those of the Imperial Postal Department, it is gratifying to note that its income far exceeds its expenditure annually. Owing to the absence of a uniform system of exchange of Money Orders between the Imperial and State Post Offices, much inconvenience was felt by the public. The Department introduced in 1847 F. a system for the exchange of Money Orders between the State and the Imperial Post Office, Hyderabad through the State General Post Office, Hyderabad which is much appreciated by the inhabitants of H.E.H. the Nizam's Dominions as well as British India in spite of the fact that they have to incur double commission of the State and Imperial Post Offices.

Within 21 years of the introduction of Saving Bank System, it has made a remarkable progress as may be evidenced by the number of Saving Bank Accounts and the amount in deposit at the end of 1854 F.

6. *Control*.—The Department is under the Postmaster-General assisted by one Deputy and two Assistants. There are five Divisional Superintendents, one Superintendent of R.M.S. and a Chief Postmaster, who look after their respective divisions.

3. *History:—*

Telephone service was introduced into the Hyderabad City in 1294 F. under the commands of the late H. H. the Nizam. The work of installation was entrusted to the Bombay Telephone Company and on its completion the concern was taken over and managed by Government.

To construct Telephone lines previous approval of the Government of India was necessary till about 1910 A.D. (1320 F.) when the procedure was amended and the Indian States were permitted to construct Telephone Lines.

To start with there was only one Telephone Exchange with 16 lines at Baradari (City). To facilitate speedy communication, the service which was intended purely for Government use opened to the public as well. To cope with the demand for Telephone connections two more Exchanges one at Narayanguda in 1300 F. and another at Secunderabad in 1322 F. were opened.

XIV.—(b) TELEPHONE.

The system of service first introduced was managed to system with single line earth return circuit with battery at each subscribers' stations. On the recommendation of Mr. Robinson of Bombay Telephone Company, the entire system was reconstructed. In place of overhead lines, Cables were laid underground. One Central Exchange was established at Gowliguda with one common battery at the Exchange and all the lines connected to the three different Exchanges were brought on the C. B. Switchboard at the Central Exchange, and this system was brought into operation in 1334 F.

To make use of the magneto Telephone and other materials dismantled at Hyderabad City Scheme were formulated to install them at Districts and in obedience to Firman-e-Mubarak dated 20-6-42 H. Telephones were installed at Aurangabad, Jalna and Raichur in 1335 F. and at Warangal and Sub-Station Bhongir, Alir, Jangaon and Ghanapur in 1336 F. In addition to the Central Battery Exchange at Gowliguda and magneto Exchange connecting to Kothi Mubarak and certain Royal Palaces continued to remain.

H. E. H. the Nizam in Firman-e-Mubarak dated 7th Rajab 1357 H. sanctioned to the introduction of Automatic system in place of C. B. system. In obedience to this order for an Automatic Switch having a capacity of 2,500 lines was placed in 1347 F. Under this system three Sub-Exchanges were created, one at Secunderabad, another at Gowliguda and the third at the Osmania University. The Secunderabad Sub-Exchange is equipped for 500 lines and the other two Sub-Exchanges for 50 lines each. The entire work was completed on 19th Thir 1348 F. This system insured preferential facilities.

Trunk lines were installed connecting (1) Aurangabad with Jalna in 1335 F. and (2) Hyderabad with Warangal in 1336 F. with a view to improve the conditions of the District Telephone concerns the Department has taken up the scheme of connecting all important towns like District head quarters with Hyderabad City by means of Trunk lines. It is confidently expected that the work will be started in the very near future.

During the year 1351 F. the All-India Trunks were connected with the State Telephone system. The scheme sanctioned for the establishment of internal Telephone system connecting the capital with all the District Head Quarters could not be put into operation owing to international situation.

XIV.—(b) TELEPHONE.

4. *Chief Functions*:—To render Telephone service to the public and Government Officers at Hyderabad, Secunderabad and Bolarum and at Districts Aurangabad, Jalna, Raichur, Warangal and Sub-Stations.

5. *Achievements*:—The system of services installed in 1294 F. was magneto. In 1333 F., C.B. system was introduced. In 1348 F. the Automatic system was introduced. The total capital outlay at the end of the year 1354 F. for the whole Dominions came to Rs. 25.82 lakhs. In the City of Hyderabad there are 1,691 Telephone connection, Aurangabad 88, Jalna 75, Raichur 17, Warangal 109 and 10 at Bhongir and Jangaon. At the end of 1354 F. there were 1,696 Exchange lines 329 extension lines, 1 Call Office and 2 service lines in the City. This shows an increase of 16 Exchange lines and 2 Extension lines.

6. *Control*:—The Department was under the Control of the Chief Engineer & Secretary, P. W. D. from 1294 F.; (except for 2 years 1326 and 1327 F. when it was under the control of the Finance Department.) And from 6th Amardad 1354 F. the Department has been put in charge of the Chief Electrical Engineer to Government as per gracious commands of His Exalted Highness the Nizam contained in Firman-e-Mubarak dated 24th Safar 1364 H.

 14. Mr. Shafaqat Shareef, „ „

XIV.—(c) WIRELESS AND RADIO.

4. *History* :—

Broadcasting in Hyderabad, as in British India, began as a private enterprise in 1933, with a low power transmitter which was subsequently taken over by Government in 1935, when the service began to function, as a State enterprise. A further step was taken in this direction by the appointment of a Wireless Board, whose powers were subsequently vested in the Hon'ble the Wireless Member to explore the potentialities of Broadcasting in the State. On the recommendations of this board, new machinery was purchased and a 5 k. w. transmitter with masts and aerial system, speech control and other equipment was installed in the building specially constructed for the purpose. The new station started functioning on 411 metres (730 Kc/s) from 1st July 1939 when the old low power station was closed down.

Another landmark in the history of Broadcasting in the State was the opening of a medium wave transmitting station at Aurangabad on 4th April 1941. This regional station broadcasts rural and urban programmes both in Urdu and Marathi.

During the year under review great strides were made towards the expansion of the activities of the department. Language broadcasts, morning transmission, daily news bulletins in Telugu and the Women's programme on Fridays continued as usual.

License Section :

During the period under review, no license fee was levied but preliminary steps were taken with a view to collecting necessary data and creating suitable machinery for the promulgation of Wireless Regulation which is on the anvil. According to the statement furnished by the Customs Department, 140 radio sets were imported into the Dominions in 1954 F. as against 544 in 1953 F. The decrease in the imports is due to the present international situation.

Hyderabad Broadcasting Station :

During the period under review, the total duration of transmission was 2,353 hours 38 minutes as compared with 2,224 hours 44 minutes last year. The gap during the period under review is 7 hours 59 minutes which is 0.315% of total duration of transmission.

XIV.—(c) WIRELESS AND RADIO.

The hours of daily transmission were from 8-30 to 9-30 in the morning and 5 to 10-30 in the evening. The time of the children's programme remained as usual from 7-30 to 8 p. m. A talk in Urdu of 15 minutes duration was a regular feature of the general programme and 50 minutes were taken up by the news in Urdu, Telugu and English. The rest of the time was devoted to music, and other items of entertainment value.

Morning broadcast between 8-30 and 9-30 a. m. comprises of music, headline news, recorded music, and home exercises. Besides morning broadcast of one hour daily, women's hour occupied two hours on Fridays from 10 to 12 a. m. It comprises of a talk of 10 minutes, Alam-e-Niswan, Qawwali, recorded programme and live items of music, and weekly local news reviews in Urdu. As this transmission is solely meant for women, most of the talks deal with social and cultural aspects of women's life.

To satisfy the local wishes for music and talks of regional listeners, broadcasts in Telugu, Marathi and Canarese as well as in Persian and Arabic continued during the period under review. The language programmes broadcast daily between 5 and 5-30 p. m. include talks dramas, news reviews, live and recorded items of music. The programme can be classified under the following six categories :—
1. Music, 2. Talks, dramas and features, 3. Women's hour, 4. Children's programme, 5. Language programme and, 6. News.

During the year under review, altogether 474 speakers participated in the general programme as against 485 last year. Among the prominent speakers the names of His Highness General Walashan Nawab Azamjah Bahadur, Prince of Berar, His Excellency the Nawab of Chattari. Hon'ble Sir Arthur Lothian, Prof. Hadi Hasan, Mr. Qazi Abdul Gaffar, Moulvi Mirza Farhatulla Baig and Aga Hyder Hasan may be mentioned. The number of talks broadcast during the year under review was 474 which comprised of current affairs, economic, educational, social, scientific and literary subjects.

In addition to the special programme, 5 subjective and 8 Mushairas were arranged in which many local poets participated. Passages from Holy Quran on Fridays and Shrimath Bhagavath Geeta on Tuesdays were broadcast as usual together with their translations in Urdu.

XIV.—(c) WIRELESS AND RADIO.

Music.

Items of classical and light music were given due recognition. In the former category there were 376 khayals of various rags while in the latter 1,528 ghazals, 685 thumris, 222 dadras, 326 geets, 91 khamsas, 52 puds, 61 bhavgeets and 27 poems. Studio orchestra played 122 guts, 11 duets and 27 musical features also went on the air. The number of male and female artists that took part in the programme is 388.

In the children's programme every effort was made to stimulate the interest of children. Besides 167 talks and stories, 49 programmes of "An choon" for tiny tots and 31 special programmes were broadcast. There were 25 informative dialogues, 31 recitations, 2 interesting Mushairas, Children's letters and their broadcast 33 times.

The language programmes comprise of talks, news reviews, features and recorded and vocal music. During the year under review in addition to 98 talks in Telugu, 104 talks in Marathi, 52 talks in Canarese, 52 talks in Persian, dramas and stories in the respective languages were also broadcast. A news review of 10 minutes duration was a regular feature of the language programmes, other than Telugu, in which, a daily news bulletin of 10 minutes duration was broadcast.

During the period under review, the daily news bulletin in Urdu, Telugu and English were of the usual duration of 25, 10 and 15 minutes respectively.

Besides 5 minutes headline news daily in the morning transmission, a local news review in the women's hour occupied 10 minutes on Fridays

Moreover, 75 writeups relating to the general progress of the state, 423 notifications and 27 press notes also formed part of the news.

Aurangabad Broadcasting Station:

The regional station set up at Aurangabad in April 1941 continued to broadcast rural and urban programmes on 319 metres (948 Kcs) both in Urdu and Marathi. The hours of transmission were from 5-30 to 10-30 p. m. One hour daily was allotted as usual to Urdu and Marathi rural broadcasts. The total duration of transmission during the year was 1,716 hours 36 minutes as against 1,716 hours in the previous year.

XIV.—(c) WIRELESS AND RADIO.

During the period under review, total duration of music was 1,144 hours 24 minutes. The programme included khayals of various rags, and raginis, thumris, dadras, ghazals, 4 operas, 8 recorded stories and 32 duets. Records were played 2,200 times and Gurba dance was presented on many occasions. As many as 24 special programmes were broadcast for the entertainment of the troops stationed at Aurangabad.

During the period under review, various talk in Urdu and in Marathi were broadcast on different subjects; dramas, features, dialogues and stories were also put on the air.

Special programmes for children and women were arranged by Urdu and Marathi sections separately. During the period under review, Urdu and Marathi news bulletins of 15 minutes each in which were included local, state and Indian news, were broadcast daily.

Rural Broadcasting; As the chief object of the Aurangabad Station is to popularise rural broadcasting, special attempts were made to make the "Village Hours" both interesting and instructive.

The number of Urdu and Marathi dialogues, features and dramas in the rural programme was 342 and 342 respectively. Useful information was supplied to the villagers through talks as well as reports of various departments engaged in rural welfare work.

Programme Bulletins: Both the Hyderabad and Aurangabad stations published regular programme bulletins fortnightly in Urdu and English for Hyderabad and in Marathi and Urdu for Aurangabad.

Judicial

XV.—JUDICIAL

The prominent feature of the judiciary of H. E. H. the Nizam's Dominions is its separation from the Executive which was effected from Khurda 1381 F. (June 1921). In other respects, however, it is administered on the lines of the British Indian High Courts of Judicature. The personnel of the High Court of Hyderabad consists of the Chief Justice, ten puisne Judges, the Inspecting Officers of the Judicial Department, one Mufti, the Registrar and his assistant with an elaborate establishment of his subordinates and clerks. Subordinate to the High Court of Judicature there are four Sessions Courts (one for each Suba) with 3 additional Sessions Judges' one Civil City Court, one Criminal City Court, one Special Magistrate's Court; for the Dominions, there are 15 Districts Judges Courts (one for each district) with 6 additional district judges, and 88 Courts and five Honorary Magistrates. In addition to the above, Sarf-i-Khas and Jagirs have got their own law courts numbering about 101 which administer Justice under the jurisdiction of the High Court.

In 1354 F. the total number of Civil cases disposed off by the Khalsa (H. E. H. the Nizam's Govt.) Courts was 61,171 and by Jagir Courts 6,990. The disposal on the Criminal side totalled 76,807 in Khalsa and 6,715 in Jagir Courts.

The value of Civil Suits instituted amounted to Rs. 117 lakhs in Khalsa Courts and Rs. 9 lakhs in Jagir Courts. In Khalsa Courts, the average number of days taken for the disposal of contested civil suits was 197 and of un-contested suits 111 days. 85,629 Criminal cases involving 1,19,602 persons were decided by the Khalsa and Jagir Criminal Courts and 86,243 were convicted. On the Criminal side 9,020 appeals involving 9,937 persons were disposed off.

Appeals and revision applications were made by 11,645 persons and the average duration of time taken for disposal was 67 days, in Khalsa Courts and 50 days in Jagirs Courts.

XV.—JUDICIAL.

In Khalsa and Jagir Courts, the principal offences related to public tranquillity, hurt, theft, trespass, and special and local laws.

The nature of penalties awarded was death to 40 persons, transportation of penal servitude to 89 persons, imprisonment to 4,053 persons, fine 31,110 persons and whipping 54 persons in both the Khalsa and Jagir Courts.

No. 14.—CIVIL AND CRIMINAL JUSTICE, 1354 F.

(Compiled on the basis of data furnished by the City & District Courts.)

Brief History of Judicial Department (Adalat).

Before 1822, the civil and criminal cases of the City of Hyderabad were decided by an Officer called 'Subedar Sahib' (an executive Revenue Officer), and by 'Kotwal Balda' respectively, whereas in districts, Judicial work was entrusted to 'Subedars' and to their subordinates known as 'Amaldars' (Collectors of Revenue).

In 1822 a separate City Civil Court, 'Diwani Buzurg' (Chief Civil Court) was established. In 1838 (1247 F.) a city Criminal Court called 'Foujdari Buzurg' (Chief Criminal Court) was opened. In 1858 a new court called 'Adalat Shahi' was established, which exercised unlimited jurisdiction in civil and criminal cases, except awarding capital punishment and imprisonment for life. There was a Civil Court for Arabs called 'Majlis-i Oaza-Arabi' and the 'Majlis Sahwan' was meant for big bankers. The jurisdiction of these courts was limited to the cases arising in the city.

In 1866 (1275 F.) the whole Dominions were divided into districts in some of which regular city courts were established. In Aurangabad a Nazim (District Judge) was appointed in the place of 'Subedar' to dispose of judicial work. In 1870 (1279 F.) powers to decide civil cases were taken from all Revenue Officers except the Tahsildars who retained civil powers, as there were no civil courts in talukas. The Taluqdar also and in some cases the police patel disposed of some magisterial work.

On the 1st of Khurdad, 1331 F. (9th June, 1921) the judicial and executive functions were separated and every taluq was given a whole-time judicial officer who exercised both civil and criminal powers. The districts in their turn were each given a District Judge. And along with these, one Session Court was established in each of the four Divisions of the Dominions. In this way, Revenue Officers

XV.—JUDICIAL.

were relieved of the work of judicial nature. After eight years of the introduction of this reform a Committee was appointed by the Royal Firman to go through and report on the working of the Separation Scheme. The Committee after full deliberation reported in favour of the retention of the Scheme mainly on grounds that the Reform had proved beneficial to the ryot in many respects, and above all had gained their confidence. A significant feature has been the reduction of duration in both civil and criminal cases. While, formerly, the Subedars and Revenue Officers used to take much longer time in disposing of cases, as also they had other duties besides the judicial to perform but now the department has officers whose sole duty is to administer justice, thus the efficiency of the judiciary is at a higher level than that it would otherwise have been.

In the City of Hyderabad besides the High Court there are several courts, amongst them being the Darul-Kaza Court and the Small Cause Court. The former administers, purely Mohammadan Law in such cases as those of marriage, divorce, gift and wakfs. The latter was established in 1938 (1842 F.) and now it is vested with powers to deal with cases upto the valuation of rupees fifteen hundred. The popularity of this court could well be gauged by the rise in the number of cases in view of which two more judges had to be appointed to cope with the increased work.

In the districts, civil judges are individually invested with Small Cause Court powers wherever necessary.

The Jury system was introduced in 1932 (1842 F.) The personnel of the High Court consists of the Chief Justice, eleven puisne Judges, one Mufti, the Registrar and his assistants.

Subordinate to the High Court of Judicature, there are altogether four Sessions Courts (one for each Suba) with three Additional Sessions Judges, one Civil City Court, one Criminal City Court, one Special Magistrate's Court for the Dominions, fifteen District Judges' Courts (one for each district) with six Additional District Judges and 88 courts and five Honorary Magistrates.

In addition to the above, Saraf-i-Khas Mubarak, Paigahs and Jagirs have got their own separate law courts numbering about 101 which administer justice under the jurisdiction of the High Court.

XV.—JUDICIAL.

In 1854 F. eleven judges, including the Chief Justice, worked in the High Court during the year. Besides this a 'Mufti' also worked in the High court but the work of deciding cases was not included in his duties. There are 117 Diwani and 101 Paigah and Jagir Courts under the High court. The figures indicate that the judiciary is functioning on sound basis. Several circulars and directives for the guidance of lower courts were issued during the year. The Judges inspected the lower courts and gave timely advice and instructions. Severe notice was taken of the duration and decision of the cases and particular attention was paid towards the fact whether the lower courts were acting accordingly to the circulars and directions issued from time to time by the High Court to their guidance. If any court was found slacking in these respects, efforts have been made to rectify the omissions, as a result of which the work of lower courts has been much improved. The lower courts are also instructed to obey the instructions and directives to the letter in future. Complaints by the public were also given a hearing during the inspection as a result of which a tendency to bring their disputes in courts for decision in large numbers, is on increase in the public. The public is quite satisfied with the judiciary and a few persons, having legal knowledge, have been appointed as Honorary Magistrates with judiciary powers to decide the cases. Seven such Honorary Magistrates worked during the year as compared to the five of last year. All these measures have been adopted with a view to facilitate the public in receiving timely justice. To gain more effective results than this, few more measures are under contemplation which will be adopted gradually in future.

XV.—JUDICIAL.

No. 17.—JUSTICE AND LEGISLATURE, 1354 F.

*Brief History of the Legislative Department,
(Majlis Khawananin)*

1. Established in 1303 Fasli (1894 A D)
2. Heads of the Department and the period of their tenure.

1.	Mr. Hurmusji Nausherwanji	...	16-4-1303 to 19-12-1306	F.
2.	Nawab Imad Jung Bahadur	...	20-12-1306 to 28-11-1313	F.
3.	Nawab Sar Buland Jung Bahadur...		29-12-1313 to 19-6-1316	F.
4.	Mr. Mohamed Aziz Mirza	...	20-6-1316 to 4-8-1319	F.
5.	Raja Bahadur G. Krishnamachari...		5-8-1319 to 28-4-1333	F.
6.	Rai Baijnath Saheb	...	29-6-1333 to 28-4-1338	F.
7.	Nawab Hashim Yar Jung Bahadur.		29-4-1338 to end of 1346	F.
8.	Nawab Askar Yar Jung Bahadur	...	1-1-1347 F.	(Continues).

3. *History.* At first the Legislative Council Office was a branch of the Home Secretariat. It was only after the posts of Legal Advisor and Secretary, Legislative Council had been combined into one post in the year 1319 F., that the Legislative Secretariat was made an independent department and was provided with a separate building. Though the Legislative Council was constituted in 1303 F., and its constitution underwent some changes subsequently it had not a Hall of its own to meet until after the accession of His Exalted Highness to the throne in the year 1321 F. (1912). At the time it had, besides the President and Vice President, 11 officials including 3 ex-officio members and 8 non-officials elected members. When opening the Legislative Council Hall, His Exalted Highness, on representation made on behalf of the Legislative Council, was gracious enough to sanction by his Firman dated the 2nd Safar 1330 H. (23rd January 1912), as a temporary measure, an increase of 3 members in the strength of non-official members, making it 11 by allowing representation of Local Boards and the Hyderabad Municipality. But as this system did not work satisfactorily it was given up. Later, by a special Firman a member to represent Sarf-i-Khas was added to the Legislative Council, thus making a total of 20 members. Lately in the year

XV.— JUDICIAL.

1338 F. (1928), His Exalted Highness issued a Firman dated 11th Jamadi-ul-Awwal 1347 H (29th October 1928) directing the Sadr-e-Aazm to collect all necessary material on which a liberal scheme for the enlargement of the Legislative Council and the expansion of its usefulness as an integral part of the Government machinery could be based. Since then all the necessary material has been collected and a scheme is now under the consideration of Government.

4. *Chief functions.*

1. *Legal* :—To give legal advice to the Government Departments on reference made by them, and to their suits against the Government under Act V of 1920 F.
2. *Legislature* :—Ever since its constitution the Legislative Council has been passing various acts for the good administration of the State and these are detailed in the several Annual General Administration Reports of the State.

5. *Control* :—A Secretary, who is also the Legal Adviser, controls the work of the Department assisted by one Deputy Secretary, an Assistant Secretary and a Registrar.

SECTION XVI.

Police

XVI—.POLICE

1854 FASLI.

For the prevention, detection of crime against persons and state, Government has regular police service in the City, districts and jagirs. The Force consists of 2,188 officers 13,742 men, the sanctioned strength being 2,199 officers and 13,812 men for the Khalsa and 339 officers and 1,725 men against the sanctioned strength of 339 officers and 1,745 men for jagirs.

The efficiency, integrity and discipline of the rank and file were strictly maintained, for offence, 8 officers and 421 men of government and 16 officers, and 313 men of jagirs were dismissed and 280 officers and 2,017 men of Government 40 officers and 66 men of jagirs were punished departmentally and 12 officers 38 men of Government were dealt with judicially, 21 men of the Government deserted the force, 396 officers and 765 men of the Government, 7 officers and 21 men of the jagirs received rewards for good services.

Of the officers, 87.4 percent and the men 51.0 percent in Government and 89.0 percent of officers and 35.4 percent of men in jagirs were literate.

The Government and the Jagirs' Police recorded 44,979 cases of cognizable crimes 5,890 less than the previous year. 43,351 cases were found true, police conviction was secured in 71.6 percent of the true cases. The above cases concerned with 50,026 persons of whom 77.4 percent were convicted.

The number of cases of non-cognizable nature was 2,393 of which 11.6 percent ended in conviction. Of the total 1,437 persons concerned in the above cases 98.0 percent were convicted.

The value of the property involved in theft cases numbering 8,007 was Rs. 16 Lakhs of which 34.0 percent was recovered, both in Government and Jagir areas.

The cost of Government police administration and of British Administered Areas was Rs. 51.19 lakhs and jagirs' police was 5.70 lakhs in 1854 F.

11. Nawab Zour Awar Jung to -1-1282 F.
12. Mr. Inayat Husain Khan 13-7-1283 to 27-7-1293 F.
13. Nawab Akbarul Mulk 8-6-1293 to 5-7-1314 F.
14. Mr. Wazir Ali Sultan Yar Jung 5-7-1314 to 21-7-1321 F.
15. Khan Bahadur Abdul Karim Khan
Saheb (Lal Khan) 27-7-1321 to 11-12-1321 F.
16. Mr. Mir Mubarak Ali Khan 12-12-1321 to 4-2-1322 F.
17. Nawab Emad Jung Bahadur 4-2-1322 to 18-6-1329 F.
18. Raja Bahadur Venkat Rama Reddy 19-6-1329 to 15-9-1343 F.
19. Nawab Rahmat Yar Jung Bahadur 26-9-1343 to

3. *History.*

Before the reign of the late Nawab Sir Salar Jung, Mukhtarul Mulk Bahadur, there was no regular police force.

XVI.—POLICE.

Arrangement for the different parts of the country were in the hands of the Revenue Officials. In 1862 A. D. (1272 F.) the first Zilabandi arrangement was enforced, a regular police was enlisted and placed under the Revenue Officials, the result did not however, prove satisfactory. On the 1st November 1860 A. D. (1279 F.) the Department of Sadrul Muham Police was created and Nawab Shamshir Jung Bahadur was appointed to the post with full powers.

On the 11th August 1884 A. D. (1293 F.) Nawab Fakrul Mulk Bahadur was appointed Moinul Muham, Police Department, and subsequently on the 6th May 1885 (1294 F.) Nawab Shahab Jung Iftikharul Mulk Bahadur succeeded to the post.

Nawab Shahab Jung Iftikharul Mulk Bahadur retired on the 10th September 1913 (1322 F.) after 40 years service and the Police Department was placed in charge of Nawab Fakhrul Bahadur Moinul Muham, Judicial Department. Thereafter the Sadrul Muham of Revenue held the portfolio of the police department. They were Sir Richard Trench and Sir Theodore Tasker.

The Police Department was attached to the office of the Secretary to Government, Judicial Department, when Mr. Aminuddin Khan was holding that post. When Maharaja Nārinder Pershad Bahadur Peshkar, officiated as Prime Minister, a Police Secretariat was created of which Sardar Deliar Jung Bahadur was Secretary, as per orders published in the Government Gazette on the 13th December 1886 (1296 F.) became the Police Secretariat.

Expansion was made in the City Police on proper lines until the time Mr. Inayat Hussain Khan there were two kotwals, one for the City and the other for suburbs, but on 5th April 1884 (1293 F.) when Nawab Akber-ul-Mulk Bahadur was appointed as City Kotwal, the suburban police was also, placed under him.

After his demise, Nawab Sultan Yar Jung Bahadur was appointed Kotwal on 8th April 1905 (1314 F.) The Afghan City Police Force was created on 19th November 1884 (1294 F.) and was placed on guard duty at Charminar in the same year.

XVI.—POLICE.

The registration of motor vehicles and issuing licences was entrusted to the police Department in January 1917 (1326 F.)

The City Police Commissioner controls the printing presses.

During the past few years, much attention has been devoted to the reorganization of the City Police Department. As a result of the re-distribution of areas, the city at present consists of 8 Divisions or 'Halqas' comprising 9 sub-divisions or 'simths'. Each is under a Sadar Amin who is responsible for the prevention and detection of crime. The number of sub-ordinate staff in each simth has been fixed according to the local requirements. There are altogether 24 Police stations and 150 Nakas in the City.

Various rules and orders have been issued calculated to improve the discipline and morals of the force.

Parades are being held regularly and recreational training is receiving a full measure of encouragement.

As the older illiterate men retire, they are being replaced by literate men as far as possible. Provision has also been made for men who are illiterate at the time of enlistment to acquire the elements of literacy in the Lines School. These measures have led to a steady increase of literacy in the lower ranks.

4. *Chief Functions* :—

Maintenance of law and order, safe-guarding of public life and property, prevention of crimes and control of traffic etc.,

5. *Achievements* :—

The citizens of Hyderabad are happy, well united and leading a peaceful life in spite of so much outside agitation.

The details of some of the achievements are (a) introduction to the City Police Act and rules framed under it regarding the following subjects :—

- i. Traffic control and traffic signals.
- ii. Discipline of the force.
- iii. Blasting of rocks.
- iv. Playing of music in streets and public places.
- v. Explosives.

XVI.—POLICE.

- vi. Places of public entertainment and amusement.
- (b) Introduction of the Manual of Police Procedure.
- (c) Publication of the Hyderabad Road Code with a view to educating the public in traffic matters.
- (d) Reconstitution of the 'Simth' areas and redistribution of the force in some of the Police Divisions.
- (e) Reorganisation of the X Special Branch C. I. D.,
- (f) Establishment of the Crime Bureau and the Traffic Control Branch.
- (g) Issue of Daily Notice Sheet.
- (h) Introduction of Card Indexing.
- (i) Various measures affecting the internal security were taken for example, drawing of a suit scheme and a total increase of 250 officers and men in the armed and civil section of the force.

6. *Control* :—

The Department is under a Commissioner (Kotwal) assisted by five deputies, eight assistants and an officer-in-charge of fire brigade.

SECTION XVII.

Jails

XVII—JAILS.

There were in these Dominions 4 Central Jails, 13 District Jails besides 38 Sub-Jails for the undertrials in Jagirs. There is a Reformatory School for the minors and Criminal settlement at Lingal for the Criminal classroom.

They accommodated in 1354 F., 11,994 undertrials of whom 97.7 percent were males, the daily average number in the prisons being 52.37.

Classified according to religion 1,824 or 52.0 percent were Hindus; 840 or 23.5 percent Muslims and the rest other religions, 340 or 23.5 percent were drawn from agricultural populations.

The total expenditure of the Government Jails Administration in 1354 F. was 8.4 lakhs.

There is a district jail in the British Administered Area besides the above.

XVII.—JAILS.

No. 14.—BRIEF HISTORY OF THE JAIL DEPARTMENT FOR 1854 FASLI.

*(Compiled on the basis of data supplied by the City & District
Jails)*

1. This Department was created in 1293 F. (1884 A. D)
2. The various Heads of the Department and the periods they held office were:—
 1. Lt. Col E. S Ludlow, C.S.I. 27-10-1293 to 20-4 1305 F.
 2. Mr. Hugh Gough 21-4-1305 to 26 1-1306 F.
 3. Mr. A. C. Hankin, C.S.I., C.I.E. 27-1 1306 to 27-1-1329 F.
 4. Mr. W. A. Gayer. 28-1-1329 to 21-1-1330 F.
 5. Nawab Muhammad Nawaz Jung Bdr. 29-1-1330 to 12-7-1332 F.
 6. Lt. Col. Jiwan Singh, C.I.E. I.M S. 12-7-1332 to 21-12-1333 F.
 7. Nawab Muhammad Nawaz Jung Bdr. 22-12-1333 to 27-1-1336 F.
 8. Sir Frank Crawford, C.I.E., O.B.E 28 1-1336 to 5-5-1336 F
 9. Mr. J. E. Armstrong, C.I.E. O B.E. 6-5-1336 to 28-7-1334 F.
 10. Mr. S. I. Hollins, C.I.E. 28-9-1344 to 3 4-1351 F.
 11. Mr. F. H. G. Taylor, C.I.E., I.P. 4-4-1351 to 11-7 1354 F.
 12. Mr. J. A. Anderson, O.E. I.P., 12-7-1354 F. (continuing)

3. *History* :—

The designation of the officer-in-charge of the Jail Department was first Inspector General, but at a later period was changed to Director General.

The Department was in a very backward condition till Mr. Hankin took charge of it. He constructed General Jails at the Headquarters of each Subha, and District Jails at the Headquarter of every District. He re-organised the Department and he compiled a Jail Manual which gave detailed instructions regarding the administration of jails. In 1338 F., the Central jail, Nizamabad was reduced to the status of a District Jail, and two years later the General Jail at Aurangabad suffered the same fate was restored to its original Status in 1348 F. Most of our Central and District Jails

XVII.—JAILS.

provide married quarters for officers and men of the staff, and quarters are gradually being provided in Districts where members of the Jail staff are still without official quarters.

4. *Reforms*.—A good many reforms have been introduced in the Jail Department during recent years. Regular hours are now set apart for games and a parole system is in force under which convicts of good character are allowed to leave jails for few hours in the week in their own clothes. A Prisoner's Aid Society has been established in every District and prisoners are looked after on their release from Jail. The aim of the Society is to provide prisoners with work and prevent them from lapsing in crime. Religious and secular instructions are given in all jails and revision system has also been introduced in our Central Jails.

5. *Industries*.—Jail Industries are run on Commercial lines, and prisoners are taught weaving, dyeing, furniture making, carpet and durrie making, tent making and leather work. In Hyderabad Central Jail a Tailoring factory has been established and enlarged in order to meet the heavy requirements of the Supply Department of the Government of India; formerly only the dresses of convicts and those of the Police and Barqandaz force were tailored. Thus, many prisoners learn useful industries while in jail and consequently earn their livelihood by honest means after their release.

6. *Control*.—The Director General is the Head of the Jail Department and he is assisted by a Assistant Director General. There are 16 Superintendents and two Assistant Superintendents in the Department. The Civil Surgeon of each District is the Superintendent of the local jails and he administers the jail under the control of the Director General.

1. Mr. J. A. Anderson, O.E. I.P. took charge of the Directorate General of jails, from Mr. F.H.G. Taylor, on 12-7-1854 F.

2. From 10th Thir 1854 F. an increment in the payment of officers and staffs was sanctioned. The post of Assistant Director has been removed and in its place a post of Sub-Assistant Director was established.

SECTION XVIII.

Military

(Omitted being secret on account of war.)

SECTION XIX.
Revenue and Expenditure

XIX.—REVENUE AND EXPENDITURE.

The Revenue of the State in 1954 F. amounted to Rs. 18,68.05 lakhs as against 16,47.64 Lakhs, Rs. 12,83.53 Lakhs and Rs. 10,16.78 Lakhs in '53, '52, and '51 F. respectively, and recorded an increase of Rs. 6,78.75 Lakhs over the preceding quinquennial average. The increase was contributed largely by the Land Revenue, Forest, Excise, "Interest" and Excess Profits Tax.

The total amount of Expenditure amounted to Rs. 14 04.29 Lakhs in 1954 F. as compared with Rs 11,13.98 Lakhs, Rs. 11,97.53 Lakhs and Rs. 10,52.85 Lakhs in '53, '52 and '51 F. respectively. The increase occurred principally under Excise, Interest and Debt redemption, Post, General administration, Political Charges, Pensions, Medical, Buildings and Communication, Industrial Reserve, War Expenses Dearness allowance and Excess Profits Tax. The expenditure on Education and Medical increased by Rs. 14.51 Lakhs and Rs. 36.42 Lakhs respectively in 1954 F. compared to previous year. Other Nation Building Departments such as Municipalities and Public Health, Agriculture, Veterinary and Co-operative also showed a slight increase in 1954 F compared with the previous years.

1345 to 1354 F. (1936 to 1945)

LAKHS OF RS:

XIX.—REVENUE AND EXPENDITURE

No. 4.—*Brief History of the Finance Department.*

1. Year established: Separately constituted in 1294 F.

2. Heads of Department and period of their tenure.

1. Sir George Casson Walker, Kt., C.I.E. I.C.S.,
21-8-1811 F. to 24-9-1830 F.
2. Sir Reginald Glancy, C.I.E., I.C.S. 25-9-1820 F. to 29-9-1830 F.
3. Right Hon'ble Sir Akbar Hydari Kt., P.C. (Nawab Hyder
Nawaz Jung Bahadur) 30-9-1830 F. to 8-6-1846 F.
4. Nawab Fakhr Yar Jung Bahadur, 9-6-1846 F. to 30-3-1849 F.
5. Nawab Sir Mehdi Yar Jung Bdr., Kt (Officiated)
8-8-1848 F. to 18-8 1851 F.
6. Ghulam Mohammed Esqr., C.I.E. 19-8-1851 F. to 14-6-1854 F.
7. Nawab Liakat Jung Bahadur 15-6-1854 F. to 11-12-1854 F.
8. Zahid Hussain Esqr., C.I.E. 12-12-1854 F. (continuing)

3. *History.*

Under the Qanuncha Mubarak of 1310 H. (1302 F.) the Prime Minister had under his immediate control and personal management the Finance Department with a Treasury and Accounts Branch and Mansab and Pension Department. The Prime Minister was assisted in the Finance Department by a Financial Secretary, Controller General of Accounts and Accountant General. The Office of the Accountant General and Central Treasury came into existence in 1290 F. It was under the Qanuncha Mubarak of 1316 H. (1307 F.) that the Finance Department was for the first time separately constituted under an Assistant Minister for Finance (Moin-ul-Maham) and the following Offices were placed under his control:—

Financial Office

Accountant General's Office

Central Treasury

Mines

The Daftar-e-Diwani

Stamps

Mint

The Govt. Audit Office of Railways and Mines

XIX.—REVENUE AND EXPENDITURE

In the revised constitution of 1338 A. (1329 Fasli.), the Cabinet Council was replaced by the Executive Council and the Assistant Minister of Finance (Moin-ul-Maham) by the Finance Member (Sadar-ul-Maham).

A few changes in the Department under the Finance Member took place from time to time and at present the Finance Portfolio consists of the following Departments :—

Finance,
Accounts and Audit,
Treasuries,
Mint and Stamps Manufacture,
Mines and Geological Survey,
E.P.T.,
Electricity,
Stationery Depot,
Hyderabad State Bank and Daftar-e-Diwani,
Mal and Mulki.

4. *Chief Functions of the Finance Department.*

The economical and efficient management of the Finance of the State.

The preparation of the Annual Budget.

Control over Treasuries and Reserves.

Floation of Government Loans and giving Loans under specific rules.

Control and Administration of the Departments entrusted to it.

Giving advice and opinion to other Departments on all financial matters.

5. *Achievement of the Finance Department.*

1. Establishment of Family Pension Fund in 1316 F.
2. State Life Insurance Fund in 1322 F.
3. Paper Currency in 1323 F.
4. Purchase of Nizam's State Railway in 1339 F.
5. Institution of State Bank in 1351 F.
6. Family Pension Scheme in 1353 F.
7. Small Savings Scheme in 1353 F.
8. Hyderabad Stock Exchange in 1353 F.
9. Compulsory Savings Scheme in 1354 F.
10. Purchase of Singareni Collieries in 1354 F.

XIX.—REVENUE AND EXPENDITURE

Control.

This Department is under a Secretary assisted by an Additional Financial Secretary, a Deputy Secretary and 5 assistants with a personal Assistant to the Hon'ble the Finance Member.

SECTION XX.

No. 12.—*Brief History of the Settlement and Land Records Department.*

1. Name of the Department : Settlement and Land Records.
2. Established in 17th Century (exact year not traceable) during the year of Malik Ambar.
- 3 Heads of the Department and period of their tenure:—

1. Mr. Mahdi Ali Khan (Mohsin-ul-Mulk)	...	1285 F.
2. Mr. Nazeer Ahmad	...	1286 F.
3. „ Hassan Bin Abdulla	...	1291 F.
4. „ A. J. Dunlop	...	1294 F.
5. „ Syed Hasan Bilgrami	...	1303-1310 F.
6. „ Syed Hussain	...	1318 F.
7. „ Syed Asadullah Razvi, H C.S.	...	1324 F.
8. „ Darabji Chenoy (Darab Jung Bdr)	...	1326 F.
9. „ Mohd. Ali (Mohd. Nawaz Jung)	...	1329 F.
10. „ Abdur Raheem (Suptd.)	...	1330 F.
11. „ Gulam Mustafa Quraishi	...	1337 F.
12. „ J. B. Mehta (Offg.)	...	1343 F.
13. „ Gulam Mustafa Quraishi	...	1343-1345 F.
14. „ J. B. Mehta	...	1346-1353 F.
15. „ Ghouse Mohiuddin, H.C.S.	...	1353-1354 F.
16. „ Fakruddin Masood, H.C.S.	1354 F. (continuing)	

4. *History*:—Land Settlement system was first introduced in India by Raja Todar Mal, during the reign of the third Mughal Emperor, Jalauddin Akbar (1555-1605). Later it was adopted in the Deccan by the able General Malik Ambar during the first quarter of the 17th Century.

Introduction of Settlement System: In the Dominions of H E.H. the Nizam this system on the basis of Ryotwari, was introduced by Nawab Mukhtar-ul-Mulk Sir Salar Jung I, and the Settlement Department was established in the year 1285 F. (1876 A. D.) dividing the Dominions into four Circles each under a Superintendent. After the completion of initial survey of all the Dewani districts two circles

XX.—LAND REVENUE.

were retained, *viz.* Maratwara and Telingana under two Superintendents having their headquarters at Hyderabad and Warangal respectively.

Introduction of Land Records: In 1828 F. the Land Records system was introduced on the lines of British India, for attending to the changes taking place from time to time and for keeping the records up-to-date.

In the year 1840 F. the Settlement Divisions of Hyderabad and Warangal were amalgamated under a single Commissioner, with Hyderabad as his headquarter assisted by two Deputies, one for Survey and Settlement and the other for Land Records.

Bifurcation of Settlement & Land Records: In the beginning of 1847 F. Govt. realising the full significance of district Survey offices, brought about the bifurcation of the Settlement and Land Records Sections, each under a Commissioner, which resulted in the organisation of Land Records in all the districts of the Dominions with sufficient staff to carry out the work systematically under the directions of the Commissioner. Record of Rights was started by Mr Barucha, Additional Revenue Secretary in 1845 F. which was ultimately transferred to the Land Records Department. Three separate establishments were created for carrying out detailed work. Four Survey Parties for Hissa Survey were created in 1852 F. to measure Hissas and compile the concerned registers and maps.

Amalgamation of Settlement & Land Records: The reorganisation of the Land Records and the Record of Rights having been completed, the two Departments were amalgamated in 1854 F.

5. *Chief Functions*.—The Chief functions of the Settlement Section of the Department is to carry out the surveys of the Khalsa and Non-khalsa villages and attend to the Revisions at the termination of the sanctioned periods of Settlement. The Land Records Section under the district officers is responsible for the maintenance of ryotwari records in an up-to-date condition and attending to the change brought about on the field from time to time. The Record of Rights section compiles registers showing particulars of rights over the lands, in order to prevent litigation and simplify transactions of lands.

6. *Control*.—The Department is under the control of a Commissioner and 6 Assistants.

18.	Mr. Mohammad Abdus Sattar	25-10-1354 F. (cont.)	

XX.—LAND REVENUE.

4. *History*:—Atiyat is that conditional or unconditional inam or gift in the shape of either land bestowed upon by the king or their ruling authority on deserving persons in recognition of their distinguished services instead of a monthly salary or for the maintenance of the grantee and his family. This system of Jagirs and Mansab dates to the days of the Mughal Emperors.

The first gift made by the Asaf Jah is dated 1135 F. (1198 H) and the last 1299 F. (1807 H).

5. *Chief Functions*:—To settle disputes as between the parties and also to enquire into the validity of a grant.

6. *Achievements*:—A Commission consisting of J. Sutherland and I. Sutherland was appointed to investigate the claims of parties. They worked between 1231 and 1242 F. Later, the Commission was comprised of two members, one representing the Nizam and the other the East India Company, in accordance with the Article 10 of the Treaty dated 1822 A. D. Mr. Chidambar Rao was made the Nizam's representative while Mr. Ellis represented the Company. This Commission investigated about the deeds of gift granted by the Peshwas of Poona from 1266 H (1850 A. D.) till September 1851 A. D. For the investigation and resettlement of boundary disputes a Commission was formed in which Capt. Taylor represented British East India Company while Mr. Chidambar Rao was the Nizam's representative. The Commission besides the above noted work, also investigated the Jagirs and Inams of the District (Naldurg,) now district Osmanabad.

Sir Salar Jung, the great statesman, established a department for the investigation of the rights of jagirs and inams, under the Revenue Secretary, Mr. Saaduddin. The enquiry regarding Crown grant maash was conducted by Taluqdars and Sadar Taluqdars between 1276 and 1285 F.

In 1285 F. a separate department 'Dariaft Inamat' was created and Mr. Charles was made the Superintendent. Dastrual-Amal-Inam was enforced the same year. In 1299 H. owing to the increase of work, the office of the Superintendent was expanded to a Majlis Dariaft Inam, the members being Mr. Charles, Mr. Zainulabuddin and Mr. Syed Asadullah. A Commission under Raja Shiv Rao also did similar work from 1299 to 1306 H.

XX.—LAND REVENUE.

Forged documents claiming rights over properties came to the notice of Government, hence the above Commission was brought to a close and a new Commission was appointed under Mr. Dunlop in 1294 F. After this, Mr. Dunlop was made the Inam Commissioner with Syed Siraj-ul-Hasan and Rui Murlidhar (later Fateh Nawaz Want Bdr.) as Dy. Commissioner in 1298 F. More Duputies were appointed, *i. e.*, Messrs. Iqbal Yar Jung, Siraj-ul-Hasan (Amir Yar Jung), Vishnu Pestonji, Bashiruddin Ahmed, and Gulam Ali Qurieshi. The posts of the Dy: Secretaries looked after this work.—

- | | |
|------------------------------------|--------------|
| 1. Syed Ghulam Rasool Sahab | 1812–1818 F. |
| 2. Abdul Rahim Sahab | 1818–1819 F. |
| 3. Saadat Khan Sahab (Saadat Jung) | 1819–1830 F. |

From 1814 F. onwards cash income (Naqdi Maash) was made a concern of the Finance Department and charges were brought about in the Inam procedure through Circular No. 3 of 1812 F. elucidating the powers of Inam officers.

After the establishment of the Council in 1831 F. the question of inheritance of the jagirdars was taken up by the Revenue Secretariat. Through a F. M. dated 28th Moharrum 1839 H. a separate Department was established and Nawab Rafat Yar Jung was made the Nazim. Through the same F. M. a Committee consisting of two members of the Executive Council was established as Atiyat Appeals Committee and appeals were referred to it. The Revenue Member and Nawab Aqeel Jung Bdr. were for a long time on the Committee.

Abdulla Yousuf Ali, Raja Fateh Nawaz Want Bdr., Nawab Tilawat Jung Bdr. and Col. Trench served one after another on the Committee. While Col. Trench was attending the Round Table Conference, Nawab Mirza Yar Jung Bdr. officiated.

The post of additional Nazim was created in 1831 F. by a F. M. dated 25th Bahman 1340 F. in which the initial was entrusted to the Additional Nazim and appeals were heard by the Commissioner.

On the recommendation by Executive Council, a F. M. of H.E.H. the Nizam's dated 10th Raja 1341 H. placed the administration of Atiyat under the Revenue Secretariat.

6. Control :—This department is under a Nazim assisted by the Assistant.

3. *History* :—The Department of Court of Wards was established in 1261 under the Judicial and Police Secretariat. The Department was placed under Revenue Secretariat in 1292 F. A Superintendent of Court of Wards was appointed in 1299 F. and his designation changed to Nazim in 1325 F. The Court of Wards Act V was passed in 1307 F. and revised in 1319 F. Estate Managers who had more than one estate under them were styled Naib Nazims or Divisional Officers. In 1335 F. Telingana and Marathwara had one Divisional Officers each. The Court of Wards Department was re-organised in 1339 F. It was decided in 1340 F. that “Inam, Virasat and Tibiniah” cases pertaining to estates directly in charge of the 1st Taluqdar should be settled by them, and the Nazim, Court of Wards was to decide cases pertaining to estates directly under him. A new Court of Wards Bill was submitted to Government and assent to this Act was secured on 27th Thir 1350 F.

4. *Chief Functions* :—The chief functions of the Department are to educate wards and members of wards and families to liquidate debts, to regularise estate accounts, to improve Jagir villages and the income of estates, and to invest surplus cash in gilt edged Securities. The Department administers minor's estates and frees financially cumbered estates from all financial embarrassments.

5. *Achievements* ;—Agricultural Co-operative Societies have been set up with a Central Bank at Wanaparthy head quarters. The C.W. Department has kept a fixed deposit of Rs. 10,000 to enable the bank to start its operations. Special attention is also paid to Paloncha samasthan and protection is offered to the aboriginals of the place. Paloncha was developed into a head-quarter and the town declared open by late Sir Akbar Hydari. A touring dispensary scheme was also sanctioned.

A sum of Rs. 6,91,300 was invested in Government securities in 1933 F. The estates under Court of Wards contributed to the Hurricane and other war purposes fund.

XX.—LAND REVENUE.

Levy grain weighing 15,000 Mds. was collected in 1355 F. Educational expenses of wards so far paid to ward's families, came to be paid to Head Masters and Principals who were also instructed to submit monthly progress reports of wards.

In 1354 F. collectors were appointed to look after the estates of Yasin Ali Khan and Paloncha Samasthan that required special attention.

6. *Control*:—The Department is under a Nazim (Director) with two assistants.

SECTION XXI.

Forests

XXI.—FORESTS.

1354 FASLI.

Forests cover 60 lakhs of acres or 11.4 per-cent of the total area of the Dominion and are divided into thirteen divisions for administrative purposes. Adilabad is the most densely wooded district followed by Warangal and Mahbubnagar.

Reserve, protected and unclassified forest occupy 24 lakhs, 32 lakhs and 4 lakhs acres respectively.

Revenue is derived by the sale of forest produce as timber, bamboos, barks and grass etc. The net income in 1354 Fasli amounted to Rs. 114 lakhs, an increase of nearly Rs. 50 lakhs as compared to previous year.

The forests provide a large area of pasturage for cattle. The number of animals grazed on payment during the year was 14.6 lakhs.

The cost of administration and other charges amounted to Rs. 25.5 lakhs representing 22.3 per cent of the total forest revenue in 1354 Fasli.

XXI.—FORESTS

No. 5—*Brief History of the Forest Department.*

It was through the foresight of the great administrator Sir Salar Jung Bahadur that the Forest Department was created on the 1st of Shahrewar 1277 Fasli (16th July, 1867 A.D.). Since then the Department has been under the control of the following Inspectors General, the period of their office is as follows :—

Inspectors General of Forests.

1.	Mr. Behramji Maneckji	...	1-10-1277 to	5-11-1280 F.
2.	„ Burzorji Manikji	...	6-11-1280 to	27-7-1282 F.
3.	„ Palmer	...	28-7-1282 to	30-7-1289 F.
4.	„ R. S. Dobbs	...	31-7-1289 to	31-5-1296 F.
5.	Capt. Catenia	...	1-6-1296 to	22-10-1296 F.
6.	Mr. J. Ballantine	...	23-10-1296 to	1-9-1302 F.
7.	„ William Fraser Biscoe	...	2-9-1302 to	28-6-1314 F.
8.	„ Sohrabji	...	29-6-1314 to	18-10-1322 F.
9.	„ F. A. Lodge	...	6-6-1323 to	13-5-1330 F.
10.	Nawab Hamid Yar Jung Bdr.	...	1-6-1330 to	20-4-1347 F.
11.	Mr. Mirza Mohd. Ali Baig	...	21-4-1347 to	31-6-1352 F.
12.	„ S. A. Vahid B. A. (Oxon)			
	B. Sc., I.F.S.	...	16-7-1352 continuing.	

The department continued to be under non-technical men till 1323 Fasli (1912 A.D.). During first two decades of this period, some of the valuable species found in the forests were declared as “Reserved trees” and the work of the Department was confined to protecting these species, while the rest of the forest species as well as their produce remained under the control of the Revenue authorities. In this manner the Department was suffering under a dual control and the effect of this was that areas covered with flourishing big timber forests were excised for the expansion of cultivation.

In 1299 Fasli, the Government realising that some sort of definite policy was necessary for Forest Conservancy, an area of 3,490 square miles in the Districts of Warangal, Karimnagar and Mahbubnagar was notified as protected forests. The rest of forest areas

XXI.—FORESTS.

remained un-notified. In 1309 Fasli (1900 A. D.) a Forest Act was legislated with the main object of developing the most thickly forested but backward district of Adilabad. During this, General Forest Policy was as termed below.

“The future policy of the Government will aim at avoiding premature dis-forestation and at reserving as quickly as possible all forest areas suitable for conservancy”.

The importance of forests in national economy is fully recognised by the Government and to carry out the forest policy of the Government, services of an officer of the Indian Forest Service were borrowed in 1352 Fasli.

The most urgent needs of the Department are :—

- (i) Completion of reservation proceedings.
- (ii) Preparation of Working Plans.
- (iii) Introduction of systematic protection and improvement of forests.
- (iv) Afforestation in Mahratwada and Karnatak Districts
- (v) Re-organisation of working of the Department,

The work done so far during the year is summarised below ;—

(i) *Completion of reservation proceedings*

Everything is being done to expedite reservation proceedings. The details of forest areas under different categories are compared below :—

Nature of Forest	1353 F.	1354 F.
	Area in Sq. miles	Area in sq. miles
a. Reserved forest	2,158.21	3,726.84
b. Protected „	6,478.18	4,987.17
c. Unclassed „	707.18	705.68
Total	9,343.57	9,419.69

The area of Reserved Forests is 39.56% of the total forest area under the control of the Forest Department.

XXI — FORESTS.

(ii) *Preparation of Working Plans.*

Preparation of Working Plans according to recent advances in tropical forestry has been started. The Working plan of Nizamabad Divn. was submitted for Government Sanction. But an experienced officer to look after the work is urgently needed. Proposals for the creation of a Working Plan Circle are pending with the Government.

(iii) *Introduction of systematic protection, Land improvement of forests.*

The present Forest Act was found to be inadequate for the control of the forest; a draft new forest act was prepared and submitted to the Government.

Reclassification of timber in accordance with the recent ideas about utility of various timbers was brought into force. Separate schedule of rates for different zones were fixed and brought into force.

Rules regarding the restriction of free grants were prepared and submitted to the Government.

Proposals for the prohibition of grazing by sheep and enhancement of grazing rates were submitted to the Government and sanction obtained.

General instruction with regard to demarcation, forest offence cases, auction sales and fire protection were issued.

(iv) *Afforestation in Mahrattwada and Karnatik Districts.*

The Dominions possess a very inadequate and badly distributed area of forest, a large proportion of which is un-productive and the remaining is considerably impoverished. Desert conditions are being created in Marathwada and Karnatik Districts with alarming rapidity and are gradually spreading eastwards. A cursory glance at the figures will show that total forest area of the Dominions is only little while it is the accepted and declared policy of the Government of India applicable to the States as well, that the proportion of forest to agriculture should be 20 to 25 To make up this deficiency the department will have to include the private forest and take up such uncultivable waste as possibly be acquired under protective measures against erosion and denudation and to re-afforest them.

XXI.—FORESTS.

As a preliminary effect modest action has already been taken and works started in areas under the Forest Department and it is hoped that in course of time this modest beginning yield its fecundity.

(v) *Re-organisation of the Working of the Department.*

In order to re-organise the working of the Department a large number of Circulars have been issued.

Financial Results.

Revenue during the year was Rs. 11,405,876/- and expenditure Rs. 2,548,766/- leaving a surplus of Rs. 8,857,110/-.

SECTION XXII.

Customs

XXII.—CUSTOMS.

Notwithstanding the restrictions placed upon the movement of trade on account of war during the period 1951 to 1954 F. the aggregate value of trade of Hyderabad increased continuously. In terms of value, the total trade which represented Rs. 34.33 crores in 1951 F., rose to the unprecedented level of Rs. 69.83 crores in 1953 F. and lugged down to Rs. 66.07 crores in 1954 F. showing a decrease of Rs. 3.76 crores compared to 1953 F.

Value of imports of dutiable merchandise rose from Rs. 13.42 crores in 1951 F. to Rs. 24.22 crores in 1954 F. the highest figure of Rs. 26.75 crores being recorded in 1953 F. The duty free merchandise and articles imported duty exempted increased every year during the period under survey and stood at Rs. 2.47 crores and Rs. 4.25 crores respectively in 1954 F. Similarly, under exports, value of dutiable merchandise advanced from Rs. 11.67 crores in 1951 F. to Rs. 31.18 crores in 1954 F. Value of duty free and duty exempted exports stood at Rs. 3.09 crores and Rs. 0.85 crores respectively in 1954 F. as against Rs. 3.28 crores and Rs. 0.44 crores in 1953 F.

The total income from customs in 1954 F. amounted to Rs. 2.78 crores, of which Rs. 1.24 crores was derived from imports, Rs. 1.53 crores from exports and Rs. 75 thousands miscellaneous as against Rs. 1.30 crores, Rs. 1.62 crores and Rs. 81 thousands in 1953 F. respectively. The total expenditure of the Customs Department amounted to Rs. 27.24 lakhs for 1954 F. as against Rs. 26.03 lakhs, for 1953 F.

3. *History* —Prior to the year 1270 F. (1861 A. D.), there was no collection of duties on merchandise with a specific plan or policy and there was no Customs Department in the State. The miscellaneous duties levied both by Government and by Jagirdars had not conformed to any rules. Each Jagir and even each Diwani taluk and village had its various intricate demands on trade in the shape of imports derived from Customs, transit and Excise duties and multiplied under various names, such as rahdari, haqdari, sayar, etc. Besides these imposts levied in the mufassil, all the adjoining Canton-

XXII.—CUSTOMS.

ment area had to pay a separate local duty known as Chungi or Octroi. It was estimated that imposts though trifling in themselves cost the trade about 15% on the value of articles by the time they arrived at their destination. Transit duties levied throughout the State yielded a nominal revenue of barely 4 Lakhs of rupees. To this irregularity may be added the defects of the farming system. The collections were made through farmers and contractors who were seldom interfered within their proceedings, so long as the Government demands were satisfied punctually and in full. The prevailing unorganised system of taxation was most injurious to internal and external trade.

The commercial treaty for improvement and security of trade and commerce concluded with the East India Company in 1802 A. D. (1211 F.), forbade the levying of rahdari or transit duties collected by individual renters or zamindar on goods passing to and from the territories of the contracting parties. It provided for the free transit of commerce between the British and Hyderabad territories, abolished transit duty and limited import and export duties to 5 per cent. *ad valorem* to be levied by kurroraahs; and also restored to Hyderabad an outlet to sea at the port of Masulipatam, which has, however, remained dead letter.

It was during the ministry of Sir Salar Jung I. i. e., in 1264 F. (1855 A. D.) that a supplementary treaty with the Hon'ble East India Co., was made by which all impediments to trade were removed, and only export and import duties not exceeding 5% *ad valorem* on goods passing the Frontier and the Octroi duty levied in the Octroi area, were retained.

In 1271-72 F. (1862-63 A. D.) a Central Customs Office under the control of the Govt. was established but till 1285 F. (1871 A. D.) the Govt. Customs Department did not function to collect the duties which were left in the hand of unofficial agencies or 'Khurroraah', and the system of farming the right to collect duty for Government continued. In that year, Customs Nakas were established on the frontier extending over 3,200 miles and at important military stations and it was laid down that duties were to be collected only by Customs officials according to a definite tariff fixed by Government.

4. *Chief Functions*:—(1) Collection of import and export duty on all dutiable articles not exceeding 5 per cent *ad valorem*.

XXII.—CUSTOMS.

2. *a.* Collection of import duty on edible salt at the rate of Rs. 2/- per palla, as per exception to Article 4 of the Dastoor-ul-Amal Sayer, which was approved by the Govt. of India.

b. Collection of radhari or transit duty on salt at the rate of Rs. 2/- per palla.

In addition to its normal duties, the Custom's Dept. also collects Excise duty on matches and assists the Government in keeping a watch on essential food grains, metals, silver and gold currency, bullion etc., the export of which is restricted under the Hyderabad Defence Rules.

5. *Achievements:—*(1) *Legislation (a)* In 1864 A.D. Hyderabad Govt. in consultation with the Hon'ble the Resident, drew up rules to regulate the collection of the Customs duties admissible under the Treaty of 1802. The schedules attached to the rules also contained a list of such articles as were to be taxed by weight at certain fixed rates representing 5 per cent, *ad valorem* and liable to increase or reduction from time to time. These rules known as Dastur-ul-Amal Sayer were approved by the Government of India and were enforced in 1865 A. D. (1274 F).

b. The first Customs Tariff fixed in 1274 F. (1865 A. D.) on a basis of 5 per cent, *ad valorem* duty on imports and exports underwent a modification by the Hyderabad Customs Act. In 1322 F. (1913 A.D.) which consolidated the dutiable and non-dutiable articles and detailed schedule of import and export tariffs was prepared. The Dastur-ul-Amal Sayer was thus replaced by the Customs Act of 1322 F.

c. In exercise of the power conferred by the Indian (Foreign) Jurisdiction Order in Council, 1902, the Governor - General - in - Council was pleased to issue the Hyderabad Residency Customs Rules to better provision for the collection of Customs duties by H.E.H. the Nizam's Government in the Administered Areas. These rules came into force in 1931.

d. The Government of India issued Notifications No. 331 I. B. and 332 I. B., dated the 2nd September 1943, prohibiting the taking or sending out of the Hyderabad Administered areas of any gold, silver, copper, nickel, bronze or zinc, either in the form of the Hyderabad State coins or bullion or ingots, except with written permission of the District Magistrate, Secunderabad.

XXII.—CUSTOMS.

2. *Re-Organisation of the Department*:—The Dept. was re-organised in 1888 F. and the progressive scale of pay which was restricted to gazetted officers and the staff of the Customs Commissioners office and the Jawans in 1880 F. was extended to such non-gazetted officials as were on consolidated pay.

3. *Departmental Examination*:—(a) The Departmental Examination was prescribed for Executive Officers in 1818 F.

b. A similar examination was made compulsory for the whole of the ministerial ranks in 1888 F. except for clerks the lowest grade (Rs. 20-30). In 1846 F. Departmental Examination was prescribed for clerks in the lowest grade also.

c. The examination is also prescribed for illiterate jawans considered fit for clerical posts.

4. *Training School*.—A training School for training raw candidates and officials of all classes was established in 1846 F.

5. *Appraising Branches*:—(a) In 1825 F. two appraisers and in 1888 F. nine appraisers were appointed at important railway centres where imports requiring technical examination are large.

b. A Chief Appraiser was appointed in 1888 F. to inspect the work of appraisers and to submit from time to time for circulation to all offices, price-lists of articles of all descriptions.

c. An Appraising Branch was set up in 1845 F. under the supervision of the Chief Appraiser for training Naib-Amins (Sub-Inspectors,)

6. *Anti Smuggling Measures*:—(a) Anti-smuggling measures have been adopted since 1847 F. for which preventive officers have been stationed at important centres.

b. A Secret Service with an expenditure of Rs. 7,000/- was established in 1845 F.

c. The Customs Flying Squad consisting of one Amin, three Naib-Amins and several Jawans operated over important areas in the frontier districts.

d. The Preventive Scheme, enforced as an experimental measure on the 1st Khurdad 1848 F. was made permanent in 1850 F.

XXII.—CUSTOMS.

e. Under the Frontier Scheme, Naib Amins' Circles were reduced in size in Thir 1348 F. in order to enable Naib-Amins, to pay frequent visits to the Customs Centres in their charge every month. This scheme was made permanent in 1350 F.

f. In connection with the restrictions imposed under the Defence of Hyderabad Rules on the export of food-grains, silver and gold coins, ingots, etc., attention was paid to proper Customs and Supply Liason and to the tightening of the frontier arrangements. Military guards were posted to the Aurangabad, Bir and Osmanabad frontiers to assist the Customs Dept. in the anti-smuggling drive.

7. *Tariffs*:—(a) In 1345 F. the definition of the term 'Value' was brought in conformity with that obtaining in British India, but for administrative reasons, Government has restricted the scope of their order to the inclusion of Railway and motor freight in valuing commodities, and the inclusion of all incidental charges in valuing articles imported direct from overseas.

b. In 1340 F. *rasbandi* or fixed scale of duty according to weight as applying to a large number of miscellaneous articles under old orders was altered to an *ad valorem* duty at 5 P. C.

c. All articles manufactured by machinery or otherwise in the State were brought on free list in 1340 F.

d. The abolition of duty on raw materials imported for local industries was ordered by Government with a view to developing local industries.

8. *Abolition of Octroi*:—On administrative and public grounds, Octroi was abolished in 1340 F.

9. *Suspension of collection of duty*:—In the Madhira Dist. the collection of duty at one Chowki and six Nakas which formed a distant enclave in British India called the Partial Circle was, for administrative reasons, suspended until further orders, with effect from 1340 F.

10. *Buildings*:—(a) The type designs of Customs buildings were revised by the P.W.D. in 1341 F. and these designs appreciably reduced the cost of buildings. Housing difficulties were overcome by the construction of temporary buildings.

XXII.—CUSTOMS.

11. *Audit of receipts*:—In 1340 F. a scheme for the audit of receipts of the Department by a staff consisting of an Examiner, 3 Inspectors and 42 auditors was introduced as an experimental measure for 3 years. The audit establishment was made permanent in 1346 F.

The control and administration of the audit establishment was for administrative reasons, entrusted to the Controller General of Accounts, with effect from 1-12-53 F. in pursuance of the Audit Policy of Government.

12. *Classification of Merchandise*:—The classification of merchandise was totally revised and amplified in 1340 F.

13. *Schedules*:—In 1343 F. the two schedules of imports and exports were substituted for the existing four schedules under the Customs Act of 1322 F.

14. *Excise Duty on matches*:—As in British India, Excise duty on matches was introduced with effect from the 28th Ardibehist 1343 F. and its administration has been entrusted to the Customs Department. The State gets its share in the pool on population basis. The share in the pool of the Hyderabad state during 1943-42 was Rs. 14,59,861/—.

6. *Control*:—The Department is controlled by a Commissioner assisted by three Deputy Commissioners, one Chief Appraiser, and two Assistant Commissioners, a Government pleader, a Preventive Officer and an Assistant Superintendent in charge of the Training school. There are eleven Customs Districts (Mahsoolkhanas) in charge of Superintendents. These Mahsoolkhanas are divided into 29 pethas (circles) each being placed in charge of an Inspector (Amin). These Pethas are again divided into smaller units (Halkas) placed in charge of Sub-Inspectors.

7. *Expenditure of the Department*:—The total expenditure of the Department in 1354 F. amounted to Rs. 27,24,389/— or 9.3 per cent to the estimated income, the main items of expenditure being,

1. Pay and allowances, Rs. 23,71,739/—
2. Tour charges, Rs. 1,01,680/—
3. Contingencies and special charges, Rs. 2,50,962/—.

XXII.—CUSTOMS.

8. *Income* :—The revenue of the year 1354 F. amounted to Rs. 276,88,243/- against Rs. 2,93,06,498/- in the preceding year. the decrease being Rs. 16,18,255/- or 5.5 per cent. The average revenue of the 5 years ending 1353 F. was Rs 1,80,73,565/- and the revenue of the year under report exceeded this average by Rs. 96,14,678/- or by 53.2 per cent. The fall in the revenue compared with the previous year, was principally due to restriction on the export of Groundnuts which amounted to Rs. 22,00,000/- as no permits for this commodity were issued by the Supply Department.

SECTION XXIII.

Excise

XXIII.—EXCISE.

The total number of Country liquor shops in 1354 F. was 3,005 as compared with 2,858 in the preceding year, and Opium sale in 1354 F. was 9,921 Srs. as against 9,284 Srs. last year.

The revenue from all services amounted to Rs. 686.28 lakhs of which Rs. 677.55 lakhs were realised from current demand and Rs. 91 thousands from outstanding arrears.

The incidence of taxation per head of population works out at Rs. 4-4-0 as compared with Rs. 2-13-0 in the previous year.

The administration of the Department cost Rs. 14.87 lakhs or 2.4 per cent of revenue realised.

XXIII.—EXCISE.

No. 7.—*Brief History of the Excise Department. (Abkari.)*

(Compiled on the basis of information supplied by the Excise Dept.)

Name of the Department.—Excise (Abkari) Department.

1. Established in 1323 F. (1914 A. D.)
2. Heads of the Department and period of their tenure:—

- | | | |
|----|------------------------------------|-------------------------------|
| 1. | Mr. Abdul Lateef Khan | |
| | (Nawab Lateef Yar Jung Bdr.) | 5-6-1923 to 29-3-1936 F. |
| 2. | „ S. Mohammed Taqi | ... 30-3-1936 to 30-1-1939 F. |
| 3. | „ S. M. Bharucha, B. A. | ... 1-2-1939 to 30-1-1945 F. |
| 4. | „ Ghulam Muhamood Quraishy H.C.S. | 1-2-1945 to 7-8-1949 F. |
| 5. | „ Kazi Mohamad Zainulabudin H.C.S. | 11-9-1949 to 22-8-1953 F. |
| 6. | „ Mahboob Ali Khan H.C.S. | ... 23-8-1953 F. (continuing) |

2. *History*:—The Excise Revenue like the Customs was in a chaotic state up to 1915 F. (1906 A. D.) The Revenues were collected on the hereditary principle by the jagirdars, Paigas and Sarf-i-Khas. With the sanction of His Late Highness the control of the Sarf-i-Khas Excise was transferred to the Government in 1915 F. and subsequently the other non-Government agencies had to fall in with the proposals of the Government to hand over their excise rights. Then the Government introduced several reforms, the Madras Contract Distillery System being the main. The maximum retail sale rate at which liquor should be supplied to the Public was also fixed and steam distilleries from where contractors would get liquor were opened in centres like Hyderabad City, Mahbubnagar and Paibhani.

1923 F.—An Excise Commissioner and 12 Abkari Superintendents were appointed for distilleries at Narayanguda and in the districts. Districtwar contracts for retail sale of country liquor were given on the minimum guarantee system. Rasbandi liquor shops and senilhi outside the old 'Chowkies' of Balda were auctioned individually.

1924 F.—The duty on Gulmohwa was transferred to liquor and was named "Thalbharti" duty. Contracts for collecting and bringing gulmohwas to distilleries was given for the first time.

XXIII.—EXCISE.

1328 F.—Abkari Department was put under the Commerce and Industries Secretariat. Five more Superintendents were appointed.

1329 F.—Four Offices of the Abkari Taluqdars were established for each of the four Revenue Subas.

1331 F.—Abkari Department was transferred to Revenue Secretariat. A Deputy Commissioner was also appointed.

1338 F.—District contract for sale of opium was given on commission basis with maximum retail sale price.

1340 F.—Opium was obtained from the Government of India Opium Factory at Ghazipur and the system of giving contracts for the supply of opium was stopped. All the opium and ganja shops of the Dominions were auctioned on shopwar auction system for the first time. Liquor shops of Parbhani district also were auctioned individually. Pot bhatties of Karimnagar were closed and liquor was ordered to be supplied from distillery. Offices of three Abkari Taluqdars were amalgamated in Excise Commissioner's office and these Taluqdars were put in charge of 3 divisions of Telingana, Marathwada and Karn. tic. A Deputy Commissioner was placed in charge of supply branch, which was newly created. A Flying Squad Officer was appointed to prevent excise crime.

1341 F.—Shopwar auction system was introduced in the Districts of Medak, Atrai-i-Balda and in the Bhongir taluqa and parts of the Nizamabad district. All liquor shops of Karimnagar district were auctioned individually.

1342 F.—The new system was extended to Mahbubnagar. Supply Branch was abolished and the Deputy Commissioner was put in charge of Balda division. Small parties of Flying Squads were stationed in districts.

1343 F.—The new system was extended to Karimnagar and Parbhani districts. A charas shop was auctioned for Balda.

1344 F.—New system was extended to the districts of Osmanabad, Adilabad, Bir and Bidar.

Duty of B.G. Rs. 5 per proof gallon was levied on 20 per cent, or spirit contained in medicinal and toilet preparations manufactured in India. New system was extended to the districts of Aurangabad, Nander, Nizamabad, Gulbarga, Raichur, Warangal and Nalgonda.

XXIII.—EXCISE.

1845 F.—The tree-tax and the shopwari auction system which for the first time was introduced in 1840 F. was gradually made to work in nine districts before 1845 F. The long term contracts of the remaining seven districts were expiring at the end of 1845 F. Government decided to introduce the new system in all these districts with effect from 1st Azar 1846 F. The Abkari administration of Jagir was taken over by the Government in 1845 F.

1846 F.—The new system of tree-tax and shopwari auction was introduced in jagir areas also from 1-1-1846 F.

1847 F.—The liquor shops and pot-stills which enjoyed hereditary rights for guarantees were closed in the year 1847 F. after paying compensations to their owners.

The sendhi shops were also closed from the same date after paying a suitable compensation.

The Alcohol Factory, Kamareddi which was lying idle, was taken from the Commerce and Industries Department for the manufacture of potable spirits.

The private distilleries which were carrying on trade without proper licenses and who claimed vested interest were made to obtain proper licenses.

A Central Temperance Committee at Hyderabad and Sub Committees in the districts were established at the instance and under the patronage of Government in order to educate the public and inculcate habits of temperance.

3. *Chief Functions*:—Control and regulation of the traffic in all sorts of intoxicants by arranging for the levy and collection of duties and licences, fees and by putting restrictions on their sale, possession, import, export and transport with a view to discourage their use.

4. *Control*:—The Department is under a Commissioner assisted by a Deputy and two Assistants, a personal Assistant, three Divisional officers (or Taluqdars of Abkari) together with 22 Excise Superintendents and 16 Assistant Superintendents, a Distillery Officer, a Government Pleader and three Special Excise Officers.

SECTION XXIV.

Registration and Stamps

XXIV.—REGISTRATION & STAMPS.

For the registration of documents relating to Sale, transfer, etc. of property, movable and immovable, wills and other deeds, there are 198 Offices distributed over 114 Government and 84 Non-Government areas in the Dominions.

The total number of documents dealt within 1954 F. was 46,946 for an aggregate value of Rs. 454.92 lakhs of which Rs. 481.18 lakhs represented the value of immovable property, Rs. 17.94 lakhs that of movable property and Rs. 5.30 lakhs that of wills etc.

The amount of income by way of Registration fee realised was Rs. 6.28 lakhs as compared with Rs. 5.34 in 1953 F. Expenditure amounted to Rs. 2.78 lakhs or 42.25 per cent of income. The value of stamped papers, labels, etc. issued from mint amounted to Rs. 70.79 lakhs.

By sale of stamps of all kinds and denominations and other charges the Department realised Rs. 26.82 lakhs in 1954 F. as against Rs. 28.01 lakhs for the preceding year.

(continuing).

3. *History :—*

The verification of documents (Kubalas) was in vogue in H.E.H. the Nizam's Dominions for a very long time and carried out by the Department of Darul Qaza and Ifta, and with regard to the City this work was being done by the Kacheri Manazil va mukimi. In 1872 A. D. (1282 F.), a code was framed according to which no document was to be considered valid in Government Department without bearing the Seal of Municipality in so far as the City of Hyderabad and its Suburbs were concerned.

The Department of Registration was created after the Act of Registration was passed in 1888 A. D. (1298 F.) and was placed under the control of the High Court. From 11-1888 A. D. (2-1298 F.) the documents were verified in the City by the Registrar, Balda and by certain officers in the districts.

XXIV.—REGISTRATION AND STAMPS.

In 1896 A. D. (1306 F.) the work of Registration was separated from Judicial Officers, and placed under Dr. George Nandy—a whole time officer—as Inspector-General of Registration. In 1898 A.D. (1308 F.) Sub-Registrars and Registrars were appointed for the districts. The Salaries' Commission had ruled that, when in any Taluqa where the Munsif works as a Sub-Registrar, and is paid out of the Fees, and the three years average revenue amounts to Rs. 2,500 a separate Sub-Registrar should be appointed and paid by the Government. The existing number of the paid Sub-Registrars, is 73.

In 1299 F. the Department of Registration was amalgamated with that of Stamp Department.

The Stamp act was enforced throughout the Dominions from 11-11-1872 A. D. (1-2-1283 F.)

The oldest stamp in the Album of the Department is of the year 1286 F. (1876 A. D.). According to the Government resolution, the Department was placed under the charge of Nawab Imad Jung Bdr., Customs Commissioner.

In 1924 F. the Judicial and the Documentary Stamps were separated and Court fee Stamps valuing from One Anna to Rs. 9, were issued, also the Receipt Stamps were abolished and a combined Stamp of Revenue and Postage was introduced. In 1925 F. the distinctive separate stamp paper for Sarf-i-Khas Mubarak was abolished and in its place the ordinary stamp enforced.

Since then this Department has been providing H. E. H. the Nizam's Govt. with necessary postal stamps, tickets and stamps for courts. It has also been supplying stamps of the last two categories to the Paighas and Jagirs on moderate terms and of Residency stamps to the British Administered Area.

On the promulgation of the Act No. 5 of Document and Deeds, 1818 F. the duties of Notary Public were entrusted to the Officers of the Judicial Department, but in 1845 F. (1936) the same work was given to the Inspector-General, Registration of Stamps. Soon after this, in order to meet the requirements of the districts, the Sub-Registrar Offices of Aurangabad, Jalna, Sailu, Latur and Warangal were given the rights of Notary Public in 1849 F. (1941).

XXIV.—REGISTRATION AND STAMPS.

4. *Chief Functions* :—Registration and record of the registered deeds, and to prevent fraud in the execution of deeds by the use of stamps papers, as the stamp papers when sold have the date of sale and the name of purchaser noted on them. To inspect all offices, where stamps are used, and to detect flaws of procedure, to detect cases of omission and avoidance of payment of duty, to levy penalties and to ensure that the stamp registrations are being adhered.

5. *Achievements* :—Besides achieving the above noted objects the Department has become a source of revenue to the Government. The Department has been self-supporting for the last fifty years. Income from Registration in 1354 F. amounted to Rs. 6.31 lakhs and from Stamps, Rs. 33.10 lakhs, showing thereby an increase of Rs. 42 thousands in the former and of Rs. 2,83,819 in the latter.

6. *Control* :—The department is under an Inspector-General assisted by an Assistant, two Inspecting Officers and City Registrar.

SECTION XXV.

Finance (Public Debt).

XXV.—FINANCE. (PUBLIC DEBT.)

The amount of public debt to be liquidated by the State in 1354 F. was Rs. 19,36.73 lakhs of which Rs. 6.36 lakhs do not bear interest. The other amounts represent the loans bearing interest issued in 1344 F. 1350 F. 1353 F. and 1354 F. as well as old Railway shares. The sinking fund for the redemption of rupee loans stood at Rs. 4,78.39 lakhs for 1354 F. as against Rs. 4,03.57 lakhs, Rs. 3,96.12 lakhs and 3,75.86 lakhs respectively for 1353, 1352 and 1351 F.

Government have advanced loans on interest to Jagirdars, to cultivators in the forms of Taccavi, to industrialists for equipment, to students for studies, to traders for expansion of business, to officers for the purchase of motor cars and to others for miscellaneous purposes. The total amount of such advances was Rs. 7,08.68 lakhs, for 1354 F. Advances made by Government without charging interest amounted to Rs. 3,86.91 lakhs for 1354 F. as against Rs. 2,31.65 lakhs, Rs. 2,83.44 lakhs and Rs. 87.52 lakhs for 1353, 1352 and 1351 F. respectively. They were for Taccavi to Agricultural Department, for Criminal Settlement and for personal and other purposes. Thus a sum of Rs. 10,95.59 lakhs was realisable to the credit of Government at the end of Aban 1354 F.

The cash balances held by Government at the Government Treasuries stood at Rs. 667 lakhs, Rs. 475 lakhs, Rs. 201 lakhs and Rs. 170 lakhs at the end of each year for 1354, 1353, 1352 and 1351 F. respectively.

The total amount, contributed by H. E. H. the Nizam's Government towards payment of pensions and mansabs at the end of each year, stood at Rs. 85.98 lakhs, Rs. 80.11 lakhs, Rs. 90.19 lakhs 82.39 lakhs for the years 1354 to 1351 F., respectively

24. Zahiruddin Ahmed Sahib, M.A., H.C.S. 26-4-1353 F.—22-7-1353 F.

Controller General of Accounts and Audit.

25. Nawab Liakat Jung Bahadur, H.C.S. 23-7-1353 F.—14-6-1354 F.
26. Zahiruddin Ahmed Sahib, M.A., H.C.S. 15-6-1354 F.—(Continuing).

4. *History*:—1. Prior to 1250 F. there was no organised system of Audit and Accounts. Nawab Sir Salar Jung I soon after assuming charge as Prime Minister created the posts of Accountant and Treasurer in 1263 F. The Accounts Office was then known as “Munshi Khana”. In 1294 F. the functions of audit were entrusted to a separate office known as “Daftar-e-Tanaqi”.

2. During these days, the accounts were written on loose pieces of papers known as ‘Bandat’ and ‘Afrad’. In 1288 F. the old method was substituted by regular registers of Audit and Accounts.

3. Munshi Khana and Daftar-e-Tanaqi were amalgamated and Accountant General’s Office was established in 1286 F. Regular Audit Registers were introduced and system of payment by Ijazat-nama was adopted in 1288 F. and the system of compiling accounts was enforced in 1290 F. and at the same time a fully classified budget was also adopted.

4. With a view to further improving the audit system Mr. Crawley’s services were borrowed from British India in 1902 F. as Controller General. He systematised the method of maintenance of accounts by introducing various account forms. The chief improvements effected were:—

(a) Introduction of system of daily accounts for Tahsil Treasuries.

(b) Compilation of General Accounts from audited figures.

(c) Codification of Hidayat Hisabi and a Manual for the working of District Audit Branch.

The Deposits and Advances Branch which dealt with special audit, loans and resource work was re-organised.

XXV.—FINANCE. (PUBLIC DEBT.)

5. In 1814 F. the services of the late Mr. Mohamed Akbar Nazar Ali Hydari (Nawab Sir Hyder Nawaz Jung) were obtained from British India as Accountant General. He was responsible for laying the foundations of the Audit and the Accounts Department on modern lines.

6. Sir A. Hydari also created an outside audit branch in 1816 F. The introduction of the Family Pension Fund in 1816 F. was another important measure initiated in his regime, which was replaced by the present State Life Insurance Fund. In 1850 F. Family Pension Fund was again introduced for the benefit of inferior servants who do not contribute anything to it but the Government gives contribution on their behalf.

7. In 1821 F. a department for the audit of accounts of revenue receipts was created with the late Mr. Habibuddin as Examiner. When Mr. Habibuddin became Accountant General in Khurdad 1822 F. this post was abolished and the establishment was transferred partly to the Revenue Secretariat and partly to the Touring Audit Branch of the Accountant General's Office.

8. Mr. Fakhruddin Ahmed Khan (Nawab Fakhr Yar Jung Bahadur) was responsible for the compilation of Hyderabad Civil Service Regulations in 1828 F. and for the introduction of audit by Major Heads, which was subsequently changed to audit by District Treasuries as the former did not suit the local conditions then existing.

9. In 1831 F. (1921) Rt. Hon'ble Sir Akbar Hydari assumed charge of the Finance port-folio and introduced various reforms of far reaching consequences. The major and minor heads of accounts were re-classified and the system of Departmentalisation of Budget was introduced in 1832 F. Under this system grants of each Department were fixed on a 3 year contractual basis with a view to encouraging economy on the part of spending Departments. Unspent allotments at the end of the financial year were not lapsed to Government but were made fully available during the first 2 years of the triennial contract and only moiety of savings was lapsed to General Revenues at the end of the third year. The accumulated savings were made available to the Departments for furtherance of expansion in their activities.

XXV.—FINANCE (PUBLIC DEBT).

10. Simultaneously with this reform the following reserves were also established :—

1. Famine Reserve.
2. Railway Purchase Reserve.
3. O. S. Stabilisation Reserve.
4. Deposits and General Reserve.
5. Debt Redemption Reserve.

11. The Accounts and Audit functions which were entrusted to the Revenue Officials were separated and brought under the charge of the Treasury Officers in 1881 F. who are wholly responsible for accounts and audit and the treasury business as well. Another far reaching reform was the opening of the currency chests in the District Treasuries in 1887 F. which rendered easy movement of cash balances between treasury and chests and also from one place to another.

12. Another change that was effected during the regime of Rt. Hon'ble Sir Akbar Hydari in 1846 F. was the decentralization of the Accounts Departments. Two independent Examiners of Accounts were appointed for the audit of expenditure *i. e.* (1) Civil and Military Accounts, (2) Public Works and Commercial Accounts, under the general control of the Accountant General, who remained directly in charge of certain branches like the Insurance Branch and Cash Atiyat Branch.

13. In 1942 when Mr. Ghulam Mohamed assumed charge as Finance Member, he instituted an enquiry into the working of the Departmentalisation system of finances. This investigation brought to light certain glaring deficiencies in the system. Contrary to the intention of the author of the plan the Departments were found to be incurring wasteful expenditure in certain directions, just because they could find funds from their accumulated savings. Moreover, the system did not sufficiently provide for the growing needs of the Nation Building Departments. It was also conducive to over-budgeting. In view of these and many other shortcomings, which were noticed, the system was discarded. The budgets were again brought on an annual basis providing for non-lapsable grants for Departments like Education Medical, Agriculture, etc. Thus the new system introduced by Mr. Ghulam Mohamed provided for not only the immediate requirements of the Departments through their standing budgets, but also for the implementation of their long range policies through non-lapsa-

XXV.—FINANCE (PUBLIC DEBT)

ble grants on a basis of 3, 5 and 7 years. For the first time in the history of the Finance Department the system of budgeting for new items of expenditure was also introduced. Non-official public opinion was also given away in the matter of the budget proposals through its representatives in the Financial Advisory Committee. The Committee was formed on a statutory basis as an integral part of the Reforms Scheme. It has been given the power to examine and scrutinize the details of expenditure incurred during the year by the Departments from the allotments given at the beginning of the year. For this purpose, the Controller General of Accounts was asked to prepare the Finance Accounts and the Audit Report of the Government.

The report brings out in details the system of accounts followed in respect of transactions of the Government under the Service and the Debt Heads. It also details the irregularities on the part of the Departments noticed in audit in the incurrence of expenditure. The report serves a two fold purpose. It is on the one hand, a presentation to the Government of the facts relating to the finances and on the other, a report to the tax-payer as to how the amounts were spent. The first report was published in 1853 F.

14. A system of control over expenditure by the Departments was introduced through the Finance Dept's Circular No. 40 dated 21-12-1852 F. on the lines of British India. This enables the Controlling Officers of Departments to watch their expenditure against Budget allotments which helps them in framing correct budget estimates, surrounding superfluous allotments and asking for additional funds in time. To implement this reform, audit by Major Heads was again introduced in the beginning of 1853 F. Balda and District Audit Branches were re-constituted into separate branches dealing with particular Major Heads.

15. The decentralisation of Audit Office which had remained in force from 1846 F. was also reviewed in 1853 F. and the post of Accountant General was replaced by the creation of post of Controller General of Accounts and Audit, ranking as senior in the status and pay to the Secretaries to Government. The posts of Examiners of Accounts and Government Auditor of Railway, were done away with and 3 posts of Deputy Controllers General were established. The post of Examiner of Customs Accounts was abolished, and the establishment was transferred from the office of Customs Commissioner to that of the Controller General of Accounts and Audit to

XXV.—FINANCE. (PUBLIC DEBT).

whom the functions of Audit of receipts has been entrusted. This measure of reform was adopted with a view to give the Controller General of Accounts and Audit necessary independence and effective control over public receipts and expenditure.

16 In order to improve the tone and the effectiveness of the Audit Department it was deemed necessary to improve methods of recruitment to the subordinate posts. In 1353 F. the Subordinate Accounts Service was formed. Recruitment to this service is made through a method of selection cum competition. The minimum qualification required of the candidates, desirous of joining the service is a B. A. Degree of a recognised University. After final selection the candidates are required to undergo training under a Training Superintendent for full one year. They are expected to pass the necessary examinations before confirmation. The scale of pay fixed for the S.A.A. consists of junior and senior scale. Another step taken in the direction of improving the efficiency of the staff was the institution of a Refresher Class in 1353 F. Lectures were arranged for the non-gazetted staff of the Departments in selected subjects. After the completion of the course, the members of the class were made to undergo a rigid test.

17. The Hyderabad State Bank was opened for business in Khurda 1351 F. and which under a special agreement with Government manage the currency, the treasury and the public debt sections on behalf of Government. The Bank has been gradually expanding and several Branches have been established so far at important District Centres.

18. The reforms and re-organisation effected in 1352-1353 F. are being worked out and keenly watched. Every effort is being made to raise standard of efficiency in the Department by recruiting fresh and able hands both in the gazetted and non-gazetted staff and also by deputing some of them to British Indian Provinces to get themselves acquainted with the accounting procedure.

SECTION XXVI.
Currency (Mint).

XXVI.—CURRENCY (MINT.)

Currency.

In 1954 F. gold valued at Rs. 1,08,279 was imported for coinage. The Mint turned out 1,388 gold coins of Ashrafi denominations 65 of $\frac{1}{2}$ Ashrafi, 489 of $\frac{1}{4}$ Ashrafi and 1,870 of $\frac{1}{8}$ Ashrafi. The value of these coins has been unstable due to fluctuations in the rates of gold during the period. Import of silver for purposes of coinage amounted to Rs. 108.37 lakhs. Silver coins minted were valued at Rs. 204 lakhs. As many as 89.2 lakhs of one anna coins, and 76.6 lakhs of 2 pie copper coins were minted and were valued at Rs. 5.6 lakhs and Rs. 0.80 lakhs respectively.

The establishment charges of the Mint Department in 1954 F. amounted to Rs 72.85 lakhs as against Rs. 11.83 lakhs in the preceding year.

The value of Currency notes of all denominations issued during the year 1954 F. stood at 1,185.0 lakhs as against Rs. 1,269.8 lakhs in 1953 F. while the total value of notes in circulation rose from Rs. 3,545.20 lakhs in 1953 to Rs. 3,956.70 lakhs in 1954 F.

The Papar Currency Department's income by way of interest on securities etc., amounted to Rs. 94.8 lakhs and the expenditure in the year was Rs. 4.97 lakhs, leaving a net profit of Rs. 89.91 lakhs in 1954 Fasli.

3. *History*:—H.E.H. the Nizam's Mint Department was founded during the time of Nawab Sir Salar Jung I. in the year 1265 F. It was first established in Sultan Shahi and was later moved to Darushafa with the Stamp Department, and finally the Mint and Stamps Departments were moved to their present site in Kharat-abad in 1313 Fasli.

The old system of making coins by hand was continued until 1302 F. In 1303 F. a new machine-made coin called 'Charkhi' was introduced. The weight of the coin remained the same as that of the hand made coin (172.5 grains). The size and shape of the Charkhi coin was exactly like the present Osmania Sikka. The inscription on the obverse of this coin was 'Nizam-ul-Mulk Asaf Jah Bahadur' together with the date of its mintage; and on the reverse 'Zarb Farkhunda Banyad Hyderabad Julius Maimanat Manuse' and a

XXVI.—CURRENCY (MINT.)

numerical figure above the word 'Julus' denoting the number of years of reign of the ruler in whose reign the coin was minted.

In 1818 F. when the Mint was moved from Darushafā to its present site in Khairatabad, a new coin with the inscription of the historical building Charminar on its obverse side was introduced; the working remained the same as that of the 'Charkhi' coin but was rearranged to produce a more artistic effect. The first letter of the name of the then ruler of the State (Meem) was inscribed in the centre of main arch of the Charminar inscription on the coin. The coin was named 'Hali Sicca' meaning the present day currency. The letter (Meem) was changed to (Ain) at the time of present Nizam's accession to the throne.

The round one anna nickel coin was introduced in 1829 F. and this was changed to a square shape in 1846 F. as some difficulty was experienced by the public in distinguishing the round one anna piece from the silver four anna piece in the dark.

In 1851 F. the rising price of silver made it necessary to reduce the silver content of the Rupee, as had already been done in British India. Accordingly the Quarternary Silver Coinage was introduced in that year. As an additional safeguard against counterfeit the rupee was given a recessed edge, known as "Security Edging". The demand for the Rupee and for small coin became so great in that for the Mint was put to work for 24 hours daily in order to produce the required output. In the year 1852 Fasli, the rising price of metal resulted in the replacement of the cupro-nickel anna with a Bronze coin of the same weight, shape and design.

The Paper Currency was introduced by the Government in 1827 Fasli. The notes were printed in English until 1848 F. In 1847 F., the Government decided to get these notes printed in India. Arrangements were made through the Government of India to have the currency notes printed in Nasik at the Security Printing Press. The main features of the old notes were retained in the new ones, but the new notes were reduced considerably in size and a more complicated colour scheme was added as safeguard against forgery. The Printing of dates on the notes was discarded. The numbering of the new notes was continued in the serial order of the old notes.

The first consignment of the new notes was received in 1848 F. Notes of Rs. 5/- and Rs. 10/- denominations were first issued in Dai

XXVI.—CURRENCY (MINT).

1849 F. and Rs. 100/- denomination were issued in Bahman 1349. F. and notes Rs. 1000/- denomination were issued in Aban 1351 F. Notes of one-rupee were issued in Bahman 1352 F. These were printed in the Central Press, Hyderabad and were cut and numbered in the Stamps Department's authority. Under Government orders, the old notes will be gradually withdrawn as the new ones are introduced in circulation.

The Stamp Paper Office was established in 1271 F., and was placed under the Inspector General of Registration and Stamps in 1306 F. The printing of stamps was carried out in Darushafa Building (now occupied by the Municipal Corporation) under the management of a Government Officer known as the Superintendent of the Stamp Department. In 1313 F. when the Department was moved to its present site in Khairatabad, the Mint Master was also made the Superintendent of Stamps, thus in the interest of efficiency and economy the minting of the State's coinage and the printing of stamps were brought under one officer.

All the Judicial and Non-judicial stamps of the Government, Paigahs, Jagirs, and of Hyderabad Residency are printed in the Stamps Department. Postage stamps, Post-cards, Stamped envelopes, Cheques, Excise Passes, Forest permits etc., are also printed there.

4. *Chief functions*:—The Department meets the full requirements of the Dominions in the matter of coinage and stamps, and also acts as an Issue Branch of the Paper Currency Department.

5. *Achievements*:—Counterfeit coinage, which was very common in olden days, is almost totally stopped; and the public has full faith in the money value of the coinage and stamps produced by the Mint. Until the heavy coinage work was taken up in 1351 F., the Mint was doing a very large quantity of war work for the arsenals of India.

6. *Control*:—The Department is under the control of the Mint Master and Superintendent of Stamps who is assisted by a Bullion Superintendent, four Engineers, and two other Assistant officers,

XXIX.—JOINT STOCK COMPANIES.

No. 6.—*Brief History of the Registration of Joint Stock Companies till the end of 1354 F.*

1. Established on 1-7-1321 Fasli (1912)
2. Heads of the Department and the period of their tenure :—

Inspector-General of Registration

1. Dr. George Nundy	...	1321 to 1328 F.
2. Mr. Fazl-ur-Rahman	...	1328 to 1335 F.
3. Mr. Mohd. Yousuf (officiated)	...	1335 to 1336 F.
4. Nawab Bashir Yar Jung Bhdr.	...	1336 to 1337 F.

Registrar, Joint Stock Companies. (D. C. & I.)

1. Mr. G. A. Mohammadi, B.A., F.C.S.	1337 to 1344 F.
2. Dr. Khawaja Habib Hasan (officiated)	1344 to 1345 F.
	23-4-1344 to 16-10-1344 F.
	5-4-1345 to 4-10-1345 F.
	11-8-1345 to 29-8-1345 F.
3. Mr. Mohammadi, B.A., F.C.S.	... 1345 to 1347 F.
4. Mr. Ahmed Mohiuddin, B.A.,	1-1-1348 to 12-12-1352 F.
5. Mr. Habib-ur-Rahman,	
B.Sc., (Hons.) London	13-12-1352 (continuing)

3. *History.*—The Hyderabad Companies Act No. IV of 1320 F. came into force on 1st of Khurdad 1321 F. The said Act was administered by the Inspector General of Registration as an Ex-Officio Registrar of Companies from the year 1321 to 1337 F. During this period 29 companies were incorporated.

The Department of Registration of Joint Stock Companies was transferred to the Director, Industries and Commerce in 1337 F. During 1337 to 1354 F. 208 companies, including Associations (not for profit) and Societies were incorporated under the Hyderabad Companies Act and the Hyderabad Societies Act respectively. The Registrar of Companies of Hyderabad is also the Ex-Officio Registrar for the British Administered Areas of H. E. H. the Nizam's Dominions.

XXIX.—JOINT STOCK COMPANIES.

4. *Chief functions.*—Registration and administration of the Hyderabad Companies Act No. IV of 1920 F., the Hyderabad Societies Act No. I of 1950 F. and the Hyderabad Partnership Act No. XIII of 1951 F.

5. *Achievements.*—The Department prepared the Hyderabad Arbitration Bill, Hyderabad Insurance Bill, and the Hyderabad Patent and Design Bill, on the lines of corresponding Act in British India. These Bills are under the consideration of the Government.

Amendments to the Companies Act have also been submitted to the Government quite analogous to that of the Indian Companies Act which is as yet under consideration.

6. *Control.*—The Department is under the control of the Director of Commerce and Industries, who acts as Ex-Officio Registrar of Joint Stock Companies also.

Under the Defence of Hyderabad Regulation 1948 F. Rule 880 was added to control the Issue of Capital, Public offer of Securities etc. and a Committee was formed consisting of:—1. A representative of the Finance Department, The D. C. & I. and Mr. R. S. Paitan.

7. During the year 1954 F. Mr. Habib-ur-Rahman was acting as Registrar, Joint Stock Companies, and in his absence, when he had been on tour to America and Europe, Moulvi Asadullah Saheb was acting from 8th Tir 1954 F. to 20th Aban 1954 F.

During 1953 F. 14 Limited Companies, 3 Companies limited by guarantee and 10 Associations not for profit were registered. In the year 1954 F. 10 limited Companies, 1 Company limited by guarantee, 19 Associations not for profit and 14 others were registered.

In the year 1954 F. the total number of companies at work were 130 as against 119 in 1953 F. The number of Companies limited by guarantee or Associations not for profit registered under clause 26 of the Hyderabad Companies Act during 1954 F. remained the same as in 1953 F. They numbered 6.

The amount collected for yearly bonds, registration and stamps etc. during the year 1954 F. was Rs. 7,612 as against O. S. Rs. 11,828 in 1953 Fasli.

SECTION XXX.
Co-operative Societies

XXX.—CO-OPERATIVE SOCIETIES.

This section deals with the Statistics of the Agricultural and Non-Agricultural Co-operative Credit Societies and of Co-operative Banks working in these Dominions for the period 1951 F. to 1954 F. The number of Agricultural Societies increased from 3,565 in 1951 F. to 5,549 in 1954 F., and the number of members stood at 1,14,964 in 1954 F. as against 89,068 in 1951 F. In 1954 F. the largest number of Societies 460 was in Nalgonda; the smallest number 12 being in Baghat. The average membership strength of a society which stood at 25 in 1951 F. declined to 21 in 1954 F. The total working capital of the societies increased from Rs. 79.93 lakhs in 1951 F., to Rs. 112.85 lakhs in 1954 F.

The amount of loans issued to members and societies rose from Rs. 14.07 lakhs in 1951 to Rs. 28.43 lakhs in 1954 F.

The number of Non-Agricultural societies and their members rose from 717 and 91,113 respectively in 1951 F. to 738 and 92,483 in 1952 F. In 1953 F., however, their growth received a slight set back when the number of societies and their members stood at 730 and 86,839 respectively. There was a definite improvement in 1954 F. with 851 societies with a membership of 1,49,765. The working capital of the Non-Agricultural societies (composed of loans and deposits from banks & societies, share capital, deposits from individuals and other sources, loans and deposits held by Government and reserve and other funds) stood at Rs. 2.07 crores in 1954 F. as against Rs. 1.06 crores in 1951 F. The amount of loans advanced to members and societies increased from Rs. 54.77 lakhs in 1951 F. to Rs. 75.87 lakhs in 1954 F.

There were 47 banks in the Dominions in 1954 F. to finance the above Agricultural and non-Agricultural Societies. Their assets amounted to Rs. 175.30 lakhs while their liabilities stood at Rs. 136.41 lakhs. The total advances made by banks to societies and individuals amounted to Rs. 80.46 lakhs in 1954 F. as against Rs. 70.48 lakhs in 1954 F.

XXX.—CO-OPERATIVE SOCIETIES.

No. 5.—*Brief History of the Department of Co-operative Societies (Imdad Bahami) for 1954 F.*

1. Established in 1922 F. (1919).

2. Heads of the Department and the period of their tenure:—

1. Mr. John Kenny	...	20- 6-1922 to 15- 8-1924 F.
2. Mr. Vijaya Raghavachari	...	16- 8-1924 to 29- 5-1925 F.
3. (Post vacant.) R. C. S.	...	30- 5-1925 to 6- 8-1925 F.
4. Mr. Shanker Pershad	...	7- 8-1925 to 29-10-1925 F.
5. Mr. Khan Abdul Majid	...	30-10-1925 to 28- 8-1931 F.
6. Abdul Basit Khan	...	29- 8-1931 to 31- 9-1937 F.
7. Nawab Mehdi Nawaz Jung Bdr., Permanent R. C. S.		
8. Nawab Fazal Nawaz Jung Bdr.,...	1-10-1937 to 31- 9-1952 F.	
9. Mr. Raziuddin Ahmed H. C. S. ...	1-10-1952 to 30-12-1952 F.	
10. Mr. Syed Jamil Husain, M.A., Dip. Rural Econ. (Oxford) H.C.S.	1- 1-1954 to 25- 9-1955 F.	
11. Mr. Mohamed Abdul Hameed ...	26- 9-1955 (continuing.)	

3. *History.*—When the Department was first organised in 1925 F. on an experimental basis, it was entrusted to the charge of Mr. John Kenny, the then Director General of the Agriculture Department. In 1924 F. the post was separated and a wholetime officer was appointed. In 1928 F. the Co-operative Act No. 2 came into force and societies under the Ruff isan system were organised with a Central Bank in Hyderabad. The movement has steadily progressed since then; but during five years from 1939 F. to 1943 F. the effects of the economic depression told upon the movement. The distress was aggravated by defective rainfall in 1940 F. and monsoon outbursts in 1942 F. which seriously affected the capacity of members to repay their loans and enormously increased the dues of societies and banks. The Department concentrated its attention on the rectification of the societies and the movement then spread all over the Dominions.

XXX.—CO-OPERATIVE SOCIETIES.

4. *Chief Functions.*—The function of the Department is to promote better agriculture, better business and better living. With these ideas in view, loans are granted to societies for the purchase of cattle, fodder, seeds, etc., and special measures are undertaken by the department to assist in business and industries. The most important part of the movement is to relieve the cultivator from the burden of indebtedness by providing facilities for cheap credit. In 1854 F. an unprecedented step in the activities of the movement was taken by the creation of the Taluqa Development Unions, one for each Taluqa, whose present objective is the purchase, supply and storage of food grains and the collection of levy grain.

5. *Achievements.*—There are at present 6 326 Credit societies, Central banks, and Grain banks. The last is the smallest unit in the Co-operative supply system with the Taluqa Development Union as the Taluqa apex and the Hyderabad Commercial Organisation to be ultimately organised as the Dominion apex. The working capital of the societies at the end of 1854 F. was 42,25,063 and the total membership was 2,66,252.

6. *Control.*—The Registrar is at the head of the Department and there is one joint Registrar and seven Assistant Registrars and six Deputy Assistant Registrars to help him.

SECTION XXXI.

Life Insurance

XXXI.—LIFE INSURANCE.

This section contains statistics of Insurance under two different heads; one relating to State Life Insurance and the other Non-Government Life Insurance Companies doing business in Hyderabad State.

In the case of the State Life Insurance all policies are issued on endowment system. The sum assured amounted to Rs. 18 16 Lakhs in 1354 F. as against Rs. 14.33 Lakhs in 1353 F.

Settlement of claims by death and by survivance (including Bonus) amounted to Rs. 2.41 Lakhs and Rs 5.31 Lakhs respectively in 1354 F. as against Rs. 2.29 Lakhs and Rs. 5.31 Lakhs respectively in the preceding year.

Prior to 1353 F. data regarding Non-Government Life Insurance Companies was not available. Of the 23 Companies working in the Dominions only five reported in 1353 F. and 13 reported in 1354 F. The rest failed to supply the required information. The premiums amounted to Rs. 9.36 Lakhs and Rs. 32.39 Lakhs respectively in 1353 F. and 1354 F. The total claims for the two years aggregated to Rs. 1.63 Lakhs and Rs. 12.17 Lakhs respectively. The amounts of Endowment Assurance for the year 1353 F. and 1354 F. were estimated at Rs. 62.19 Lakhs and Rs. 131.12 Lakhs respectively.

XXXI.—LIFE INSURANCE

No. 5.—*Brief History of the Hyderabad State Life Insurance Fund for 1354 F.*

1. Established in 1322 Fasli (1913 A. D.)
2. Head of the Department and the period his tenure :

Mr. C. Damodar Reddy B.A. (Hons) A.S.A.A. from 19th Bahman 1352 F.

3. *History.*—The History of the Hyderabad State Life Insurance Fund goes as far back as 1st Khurdad 1316 F. (5th April 1907) when it was started originally under the name of the Family Pension Fund with a view to alleviate the distress of the surviving members of the deceased Government servants' families. Owing to the severity of the Family Pension Fund Rules and the limited scope of the benefit derived therefrom to the subscribers' families, the Fund was unpopular and therefore in its place the Life Insurance Fund was established on 1-4-1322 F. (Insurance is compulsory to the extent of 2% of the salaries of the permanent employees of H. E. H. the Nizam's Government.)

Three valuations of the Insurance Fund were conducted prior to 1341 Fasli but as the results of these valuations did not disclose the true financial position of the Fund, a fresh valuation for the years 1322 to 1344 was taken up in 1345 F. and the Fund was found to be in a very sound position. The surplus disclosed by the valuation enabled the Government to declare a simple Reversionary Bonus at the rate of 2% per annum. A second valuation of the Fund was taken up in 1348 F. for the period 1345-1347 F. and the consulting Actuary once again recommended a bonus at the same rate as declared for the period of the valuation 1322 to 1344 F. The Government was pleased to sanction the above recommendation. The third valuation of the Fund for the triennium 1348 to 1350 F. was completed in 1352 F. In view of the present day conditions, on the the recommendation of the Managing Committee, the Government while according sanction to the postponement of declaration of bonus on current policies until after the results of the fourth valuation are out, has also been pleased to sanction payment of a simple reversionary bonus at the the rate of 1% (in respect of the period 1348 to 1350 F.) on policies that go off the books

XXXI.—LIFE INSURANCE.

during the triennium 1351 F. to 1353 F. and also an interim bonus at the same rate on policies that go off the books by way of maturity or death during the above triennium.

During the year 1354 F., 160 proposals were accepted as compared to 1946 of the preceding year. The face value of the policies issued in the year 1354 F. was Rs. 13,16,088/- as against Rs. 17,07,283/- of the preceding year.

Family Pension Fund.—In the Family Pension Fund Scheme restricted to Government employees in inferior service, 179 policies of the face value of Rs 61,579/- were issued in 1354 F.

In the course of the year under report, 176 death claims were received and 77 pensions payment orders were issued to the survivors. Pension Payments amounted to Rs. 1,622-4-9 to end of 1354 F.

No. 11.—*Brief History of the Nizamiah Observatory* (*Rasadgah Nizamiah*)

1. Established in 1317 Fasli (1908)
2. Heads of the Department and the period of their tenure:—

Directors

- | | | |
|---|-----|-----------------|
| 1. Mr. A.B. Chatwood, B.Sc., F.R.A.S. | ... | 1917-1923 F. |
| 2. Mr. R.J. Pocock, B.A., B.Sc., F.R.A.S. | ... | 1923-1928 F. |
| 3. Mr. T.P. Bhaskaran, M.A., F.R.A.S., F.N.I. | | 1928-1953 F. |
| 4. Dr. Adbar Ali, M.A., B.Sc. (Hons), Ph. D. (London) | | 1953 F. (Cont.) |

3. *History*.—Please refer to previous publications.

4. *Work of the Department*:—The work of the department is divided in the following three sections.

1. Astronomical.
2. Meteorological and
3. Seismological.

Astronomical Work:—In addition to the usual routine work like determination of time by means of transit instrument, visual observation of the sun by means of Spectroheliometer and preparation of the official calendar. Two new programmes of stellar work have been recently started, (1) photographic determinations of stellar proper motions (2) measurement of double stars mainly in the southern hemisphere. It is expected that these two programmes will at least take ten years for completion.

Meteorological Work:—Regular observations of the Upper Wind conditions are being carried on by means of pilot balloon flights twice in a day at 9 hrs. and 16 hrs. and once during the night at 3 hrs. The night flight at 3 hrs. has been in operation since July 1945.

In addition to the above, the usual surface weather observations were carried out during the year according to the prescribed schedule in cooperation with the Meteorological Department of the Government of India.

XXXII. (a)—RAINFALL AND TEMPERATURE.

Seismological Work:—The two Milne-Shaw Seismographs have been in continuous operation throughout the year except for occasional interruptions.

5. *Publications*—Copies of Vol. XIII part I of the publications of the Nizamiah Observatory have been received recently for distribution. Vol. XII of the series is still in the hands of the printers in England. It is expected that it will be released for distribution shortly.

Monthly reports of the Dominion Rainfall Statements have been published and distributed to the various departments.

6. *Control*:—The Department is under the control of a Director.

SECTION XXXII.

Meteorology

(b) Season and Crop Condition

XXXII. (b)—SEASON AND CROP CONDITION.

A Review of the Season and Agriculture for Agricultural year ending 15th Thir 1354 F. (20th May 1945)

This review deals with the rainfall, crops, live stock and market conditions during the period 16th Thir 1353 F. to 15th Thir 1354 Fasli.

Seasonal Rains.—Pre-monsoon showers were recorded in Nizamabad, Medak, Nalgonda, Warangal, Karimnagar and Bidar in the 2nd half of Thir (May). Sugarcane was the only crop standing at that time. These showers helped the preparation of lands for the next season. But more rain was needed for the above said purposes. The average rainfall for the period was 0.35" i.e., 0.44" below the normal.

South-West Monsoon.—The South-West Monsoon set in at the proper time i.e., Amardad (June). There were widespread showers in almost all the Districts. It was, however, below normal excepting Baghat, Mahbubnagar, Bir, Gulbarga and Raichur, where it was a little above the normal. The average rainfall was 5.46" i.e., 0.53" below the normal. Kharif sowing was taken up in the 2nd week of Amardad (June) in some parts of Medak, Nalgonda and Adilabad. Abi sowing was also started towards the close of the month in some areas.

In the month of Shahrewar (July) too the average rainfall could not reach the normal. There were, however, widespread showers in all the Districts excepting Baghat and Raichur. Marathwara had more rain than Telangana. Sowing and weeding of kharif and sowing, transplantation and weeding of Abi was attended and continued in some parts of the Dominions, but some tracts of Medak, Nalgonda, Karimnagar, Gulbarga, Raichur and Warangal required more rain for sowing purposes. The monthly average rainfall was 6.12" as against 6.67" normal.

The month of Mehri (August) had uneven and insufficient showers throughout the Dominions. More rain was needed for the Kharif Crop in some areas of Medak, Aurangabad, Bir and Raichur. Deficiency in moisture greatly affected some places in the Nalgonda District.

XXXII. (b)—SEASON AND CROP CONDITION.

Withering was also noticed in some sectors of Mahbubnagar, Adilabad, Gulbarga and Osmanabad, but conditions improved later in almost all the places except Osmanabad. Sowing of Abi was over. Crop was transplanted, weeded and irrigated in some places. It, however, stood in need of more rain in some tracts of Medak and Warangal. The rainfall for the month recorded an average of 5.08" against 5.78" normal.

In Aban (September) the last month of the South West Monsoon, rainfall was general and widespread but did not suffice for the kharif crop in certain parts of Adilabad and Medak, which suffered in these areas. In many districts harvesting was commenced for minor Kharif crops. Abi crop continued to be weeded and irrigated and was fair in all the districts excepting some areas of Medak wherein it was damaged due to want of rain. Some areas were prepared and sown for Rabi Crop. The average rainfall for that month was 5.66" against 6.42" normal i.e.,—07.6".

The South-West Monsoon, the main source of moisture to the soil and crops in these Dominions filled up all the tanks and replenished other sources of water supply. The average rainfall for the whole of the South-West Monsoon season recorded an average of 22.32" against 24.81" normal. The variation expressed in terms of percentage of deviations from normal are as follows :—

1. *Subah Medak*

1. Nizamabad	—	89
2. Medak	—	75
3. Baghat	+	127
4. Mahbubnagar	—	96
5. Nalgonda	—	89

2. *Subah Warangal*

1. Warangal	—	75
2. Karimnagar	—	94
3. Adilabad	—	93

3. *Subah Aurangabad*

1. Aurangabad	—	90
2. Parbhani	—	84
3. Nanded	—	88
4. Bir	—	90

XXXII. (b)—SEASON AND CROP CONDITION.

4. *Subah Gulbarga*

1. Gulbarga	—	92
2. Raichur	+	122
3. Osmanabad	—	86
4. Bidar	—	77
Average for the State	—	90

North-East Monsoon.—The North-East Monsoon commenced in Azur (October). The rainfall though fairly well distributed and above the normal was insufficient in some areas for the month. The second half of Azur (October) witnessed heavier but uneven rains. Telingana had more rain than Marathwara. Rain of the last week of the month proved harmful to the Kharif crop in almost all the districts, except Osmanabad. Insect attack to the crops was reported from some tracts of Parbhani and Raichur. Harvesting Kharif was in progress. Abi crop was also affected due to excessive rain in certain parts of Nizamabad, Medak, Baghat, Mahbubnagar, Nalgonda, Karimnagar and Adilabad. Reaping of rice commenced, wherever the crop was sown early and was ready. Rabi sowing was started, but it was deferred in some areas of Gulbarga and Raichur due to lack of rain. The condition of the early sown crop of Rabi was fair whereas the late sown crop was affected in some areas of Nizamabad, Medak, Warangal, Karimnagar, Adilabad, Bidar and Nanded. The average rainfall for the month was 5.41" against 2.06" normal i.e., more than double the normal.

There was practically no rain in the month of Dai (November). Harvesting of Kharif approached completion. Abi was being reaped but was damaged in some places of Karimnagar by disease. Rabi sowing came to an end. In some areas, Rabi suffered due to cold, lack of moisture in the soil and from insects.

Thus in the North-East Monsoon, Azur (October) had good rains and Dai (November) was practically dry. The average rainfall for the North-East Monsoon was 5.41" against 2.80" normal i.e., exactly the double amount.

Inter Period.—By the end of Dai (November), the North-East Monsoon ceased. The rest of the Agricultural year had some uneven showers in many places. Bahman (December) was completely dry. Istandar (January) had some light showers in stray places. Farwardi (February) and Ardibehisht (March) had practically no rains.

XXXII. (b)—SEASON AND CROP CONDITION.

Khurdad (April) had fairly good rainfall in its last three weeks, and the 1st half of Thir (May) had scanty rains. The average rainfall recorded for that period was 0.98" against 5.55" normal.

The total rainfall for the Agricultural year ending 15th Thir 1354 F. (20th May 1945) recorded an average of 29.06" against 33.95" normal. The districtwise variation as compared to normal are given below.

1. Baghat	+	4.24
2. Raichur	+	2.34
3. Nalgonda	+	0.03
4. Parbhani	+	10.45
5. Aurangabad	—	9.02
6. Bidar	—	8.67
7. Nanded	—	7.93
8. Medak	—	7.57
9. Nizamabad	—	7.16
10. Warangal	—	6.95
11. Adilabad	—	6.92
12. Osmanabad	—	6.70
13. Bir	—	5.35
14. Mahbubnagar	—	2.63
15. Gulbarga	—	2.34
16. Karimnagar	—	2.12

Crops:—According to the Agricultural Census taken in the year 1353-54 F., the gross area brought under cultivation was 26,785 thousand acres, when compared to last year's area, which was 28,507 thousand acres, showing a decrease of 1,722 thousand acres. Areas under Rice, Bajra, Groundnut, Rape and Mustard, Miscellaneous oil seeds and Sesamum however increased, whereas the areas under other crops decreased.

Kharif:—Sowing of Kharif was taken up in the first week of Amardad (June) in some parts of Medak, Nalgonda and Adilabad, whereas rain was awaited in other places. Sprouting was satisfactory in the sown areas. In the 2nd week, sowing was taken on hand in general but deferred in some sectors of Baghat and Nalgonda due to absence of rain. In the 3rd week sowing continued. In some parts sown fields were weeded. The crop suffered in some tracts of Adilabad due to continuous rain and was spoilt in some areas of Raichur owing

XXXII. (b)—SEASON AND CROP CONDITION.

to insects and rats. In some cases it was actually re-sown. Sowing and weeding of plants were continued during the last week of the month but more rain was required for its growth in some tracts of Medak, Nalgonda, Karimnagar, Gulbarga and Raichur.

In the first half of Mehir (August) a few areas of Adilabad and Aurangabad were attacked by insects and had, therefore, to be resown. Kharif sowing was completed in the 2nd half of the month. The crop in some areas of Aurangabad suffered due to excessive rains, while it withered due to lack of moisture in some places of Mahbubnagar, Adilabad and Osmanabad. Insects also attacked the crop in some fields of Aurangabad and Adilabad. More rain was required for the growth of the crop in certain tracts of Medak, Mahbubnagar, Nalgonda, Warangal, Karimnagar, Parbhani, Nanded, Bir, Raichur and Bidar.

In Aban (September), the crop was on the whole fair, affected slightly in certain areas. In a sector of Aurangabad, it was damaged due to excessive rain and had to be resown. In some parts of Medak, Nalgonda, Aurangabad, Nanded, Bir, Gulbarga, Raichur, Osmanabad and Bidar, it stood in need of rain. Harvesting of minor Kharif crops was commenced in certain areas at the close of Aban (September)

Karimnagar had plentiful rain in the 2nd week of Azar (October) which proved harmful to the crop in some areas. In Bidar and Raichur, however, crop stood in dire need of rain. There was heavy rain in the fourth week of the month which slightly affected the crop in almost all the areas excepting Osmanabad. In some places of Parbhani and Raichur, the crop was slightly attacked by the insects. Kharif harvesting was generally in progress in Bahman and was concluded in the first week of Isfandar (January).

Abi:—Sowing of Abi crop was started in the 4th week of Amaradad (June). Its transplantation was taken up in the 2nd week of Shahrewar (July) and in the fourth week, weeding also commenced. But more rain was required for its growth in certain areas of Medak, Karimnagar, Nalgonda, Gulbarga and Raichur. Some areas of Raichur were damaged by insects and rats and had to be resown. In some sectors of Nalgonda, Warangal and Karimnagar, sowing could not be effected before Mehir (August) due to the absence of rain.

Sowing came to an end in the month of Mehir (August). Transplantation and weeding was continued in the early sown areas. Some

XXXII. (b)—SEASON AND CROP CONDITION.

areas were also irrigated. The crop of certain sectors of Mahbubnagar and Medak showed signs of withering due to lack of timely rain and insufficiency of water in tanks and was partially damaged. Some areas in Warangal and Karimnagar yielded poor crop due to disease at the end of Azur (October). Reaping commenced in the Dominions in the 2nd week of Azur (October) and concluded in the 1st week of Isfandar (January.)

Rabi.—Rabi crop sowing commenced in the middle of Aban (September) and concluded at the end of Dai (November). The delay in sowing in some areas, was due to absence of timely rain. Some tracts of Mahbubnagar, Adilabad, Parbhani and Raichur were the last to effect sowing.

The excessive rains at the close of Azur (October) proved harmful to the crop in a few places of Karimnagar, Gulbarga, Nizamabad, Medak, Warangal, Adilabad and Bidar. Reports of insect attacks on the crop in some fields of Karimnagar, Aurangabad and Raichur were received towards the close of Dai (November). Lack of moisture also affected the crop in some regions of Bir, Aurangabad and Parbhani. Disease was prevalent in some parts of Aurangabad, Bir, Gulbarga in the month of Isfandar (January). Harvesting of the crop was concluded in the 1st week of Khurda (April).

Tabi :—Preparation of lands for the Tabi crop commenced in the middle of Bahman (December) and sowing started at the close of the month, which continued till the 1st week of Isfandar (January). The transplantation and weeding of the crop was commenced in the early sown areas in Isfandar (January) and concluded in Ardibehisht (March). Insects were reported to have attacked the crop in some sectors of Warangal, at the close of Ardibehisht (March). Damage was done to the crop by disease or lack of water in a few areas of Karimnagar, Warangal, Nalgonda, Nizamabad and Adilabad. Hails and untimely rains also damaged the standing crop in the middle of Khurda (April), in some parts of Medak, Mahbubnagar, Nalgonda, Warangal, Karimnagar and Adilabad. Reaping was started at the end of Ardibehisht and finally ended in Thir (May).

Sugarcane.—Sugarcane crop was fair. Its cutting was started in the 3rd week of Azur (October) and completed in Ardibehisht (March). Plantation of the crop was done during the same period. The progress of the crop was fairly satisfactory throughout the period.

XXXII. (b)—SEASON AND CROP CONDITION.

Water Supply:—In the second half of Thir (May), water for drinking purposes was generally available in the Dominions except in some parts of Parbhani and Warangal. Sufficient water was reported to be available in all the places in the 1st week of Amardad (June), but in the 2nd week some shortage was experienced in certain parts of Nalgonda, Adilabad and Parbhani. Thereafter water was sufficiently available throughout the Dominions.

Fodder Supply:—Scarcity of fodder supply was felt in some areas of Parbhani and Aurangabad during the 2nd half of Thir (May). In the month of Amardad (June) fodder supply was very poor in a few regions of Parbhani, Aurangabad, Warangal, Bidar, Karimnagar, Adilabad and Medak. Some tracts of Medak and Aurangabad had meagre fodder in Shahrewar (July). In Mehir (August) a few areas of Gulbarga also suffered from fodder scarcity. In the remaining period of the year fodder was generally available, but Medak suffered from fodder shortage throughout the year, in some part or the other.

Live-stock:—Cattle disease was prevalent in some parts of Warangal and Nizamabad during the year under review. In Amardad (June) some areas of Mahbubnagar, Nanded, Gulbarga, Nalgonda and Aurangabad reported cattle disease. Some tracts of Karimnagar, Medak, Bidar, Adilabad, Raichur and Osmanabad were also slightly stricken with cattle disease during the remaining year which was promptly brought under control by the Veterinary Department. The prices of cattle continued to be abnormal due to war.

Grain Market:—There were slight fluctuations in the retail prices of wheat, rice and white jawar. But the price of yellow jawar was subject to sudden fluctuation at short intervals. Variations in the average retail prices during the period under review were briefly as follows :—

Wheat was quoted at $2\frac{1}{2}$ seers per rupee from Thir (May) to Shahrewar (July) and thereafter the rate remained stationary at $2\frac{1}{2}$ seers per rupee.

Rice was sold at $3\frac{1}{4}$ seers per rupee during Thir (May) and Amardad (June). During the remaining period it was quoted at 3 seers except in the 1st week of Ardibehisht (March) when it was sold at $2\frac{3}{4}$ seers.

XXXII. (b)—SEASON AND CROP CONDITION.

White Jawar fluctuated between $4\frac{3}{4}$ and 6 seers. In the 3rd week of Thir (May) it was sold at the rate of $5\frac{1}{4}$ seers, while in the fourth week it was available at 6 seers per rupee. In the 1st three weeks of Amardad (June) the rate fell down to $5\frac{3}{4}$ seers and in the fourth week it further declined by a quarter seer and remained at that rate throughout Shahrewar (July). During Mehir (August), Aban (September) and Azur (October) it was sold at $5\frac{1}{4}$ seers. From Dai onwards it was quoted at 5 seers, excepting the last week of Isfandar (January) and Khurdad (April) when it was sold at $4\frac{3}{4}$ seers and $5\frac{1}{4}$ seers respectively.

Yellow Jawar witnessed fluctuations ranging between $5\frac{3}{4}$ and $6\frac{3}{4}$ seers. In the 3rd week of Thir (May) it was quoted at $6\frac{3}{4}$ seers and fell down to $6\frac{1}{2}$ seers in the fourth week. It further declined by a quarter seer in the 2nd week of Amardad (June). At the end of Shahrewar (July) the price fell to 6 seers and remained at that rate during Mehir (August). In Aban (September) it rose by a quarter seer for about a month. Thereafter, it fell down to 6 seers in the 2nd week of Azur (October) but in the fourth week it had again gone upto $6\frac{1}{4}$ seers. In the beginning of Dai (November) the rate was 6 seers per rupee which steadily rose upto $6\frac{3}{4}$ seers by the middle of Bahman (December) and remained at that rate till close of the month. The quotation was $6\frac{1}{2}$ seers in Isfandar (January) and $6\frac{1}{4}$ seers in Farwardi (February). In Ardibehisht and Khurdad it was quoted at 6 seers and thereafter at $5\frac{3}{4}$ seers till 15th Thir (May).

Price Control:—The price of many a commodity was controlled by the Supply Department, created in the beginning of the year 1353 F. The floor and the ceiling prices of some commodities were fixed by that Department.

Rationing:—Scarcity of food in certain areas and abundance in the other regions necessitated control over the supply of certain commodities. The Supply Department introduced rationing in the City of Hyderabad in 1353 F. which was extended to Warangal, Gulbarga, Yadgir, Raichur and other important towns.

XXXII. (b)—SEASON AND CROP CONDITION.

Condition of Agricultural Population :—Owing to the fixation of prices of certain commodities, insect diseases, deficient or excessive rains, the Agriculturists were not satisfied yet. When compared to their last year's condition, they were in a better position.

Scarcity Relief.—Some areas excessive and some had deficient rains. This coupled with the untimely rains created some distress in a few areas. Revenue collection in those areas had therefore to be suspended or remitted as will be seen from the statement sent by the Revenue Secretariat.

No. 20 (XXXIII (a).-4.)

PROPORTION OF AREA UNDER VARIOUS CROPS

Total gross area sown	267.8-100 %
Area under Food Crops	187.9-70.2 %
Area under Non-Food Crops	79.9-29.8 %

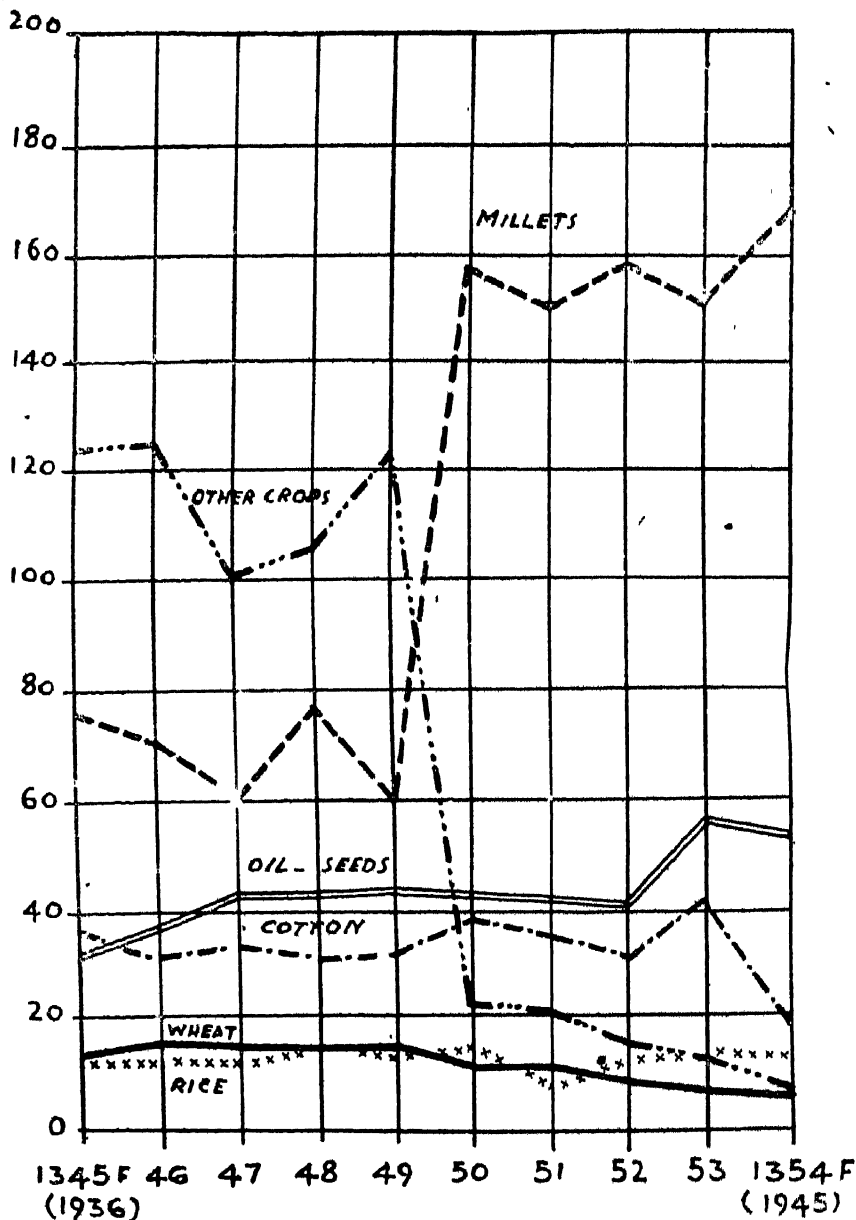

(Figures in Lakhs of Acres).

Note:—Other food crops are Minor Food Grains, Condiments and Miscellaneous food crops. Other Non-food crops are Oil-seeds other than above, Fibres other than Cotton, Dyes Drugs, Narcotics and Miscellaneous non-food crops.

XXXIII.—AGRICULTURE—(a) GENERAL.

No. 12.—*A Brief History of the Department of Agriculture (Ziarat)*

1. Year Established—1322 Fasli (1913)
2. Heads of the Department and the period of their tenure:—

Directors.

1. Mr. John Kenny 1- 2-1922 to 14- 3-1928 F.
2. Mr. Mazhar Husain M.A., B.Sc., 15- 3-1928 to 22- 4-1939 F.
3. Dr. Harold H. Mann, D.Sc., 22- 4-1939 to 11- 6-1939 F.
4. Mr. Nizamuddin Hyder 12- 6-1939 to 18-11-1950 F.
5. Rai Bahadur Kalidas Sawhney 19-11-1950 F. (Research),
appointed Director of Agriculture on 4-11-1956 F.
6. Rai Mahendra Bahadur M. S. 19-11-1950 F. (Propaganda)
7. Mr. A.R.H. Khoorshid, B.A., (Bombay)
M.S., (Wisconsin, U.S.A.) 10-8-1954 F. to 2-12-1954 F. (Acting)

3. *History*:—The Agricultural Department was established in 1322 Fasli with the main object of saving the indigenous, long staple "Georani" cotton from deterioration and displacement by the imported short staple "Bharat" cotton. Arrangements were made for supply of pure seed to the cultivators. During the period from 1322 to 1337 Fasli the work of the Agricultural Department was extended with the establishment of experimental farms at Aler, Kumaroddi, Sangureddi, Mahbubnagar, Parbhani and Himayet Sagar. An Engineering Section was also set up during the same period for the introduction of improved agricultural implements and for assisting the public in the boring of tube-wells and installing oil-engines and pumps. An oil-engine class was also started to train engine drivers. The Department was further expanded in 1337 Fasli by the establishment of additional experimental farms in different parts of the State. A cattle breeding farm was started in 1339 Fasli. In 1340 Fasli, a poultry breeding section was added to the Government Main Farm, Himayet Sagar, and an Agricultural Experimental Farm was established at Rudrur in Nizamabad District. A main Agricultural Experimental Farm for the Karnatic Division at Raichur was sanctioned and organised a year later. In 1342 Fasli, the Horticultural work of the Department was entrusted to a properly organised Horticultural section. In the same year a

XXXIII.—AGRICULTURE—(a) GENERAL.

Main Farm was established in Warangal. In 1349 F. a Fruit Research Farm was established in Aurangabad and a Cotton Research Station at Nander. In 1352 F. work was started for the establishment of Research Stations at Dhariesugur in Raichur District and Yedpalli in Nizamabad District for the study of irrigation problems in the respective tracts. Similarly, three farms were organised in the perennial area under the Nizamsagar project for the investigation of the economy of mixed farming. A Research Sub-Station was established at Kandakur under the Dindi Project in 1353 Fasli. A Tobacco Research Station has been established at Madhira to investigate into special problems pertaining to tobacco. The establishment of a Research Station at Charkupally was in progress during 1353 F.

The Cattle Breeding Farm was transferred to the Veterinary Department in 1347 Fasli and the Rural Development Centre at Patancheru to the Department of Co-operative Credit Societies in 1350 Fasli. The Boring Section transferred to the Local Fund Department in 1347 Fasli, was retransferred to the Agricultural Department in Khurdad 1353 Fasli as its services were required in connection with the production and supply of vegetables and potatoes to the Army. In Mehir 1350 F., the Department of Agriculture was bifurcated into the two Departments of Research and Propaganda. The Departments were amalgamated into a single Department in Isfandar 1354 F. with Rai Bahadur Kalidas Sawhney, M.Sc., as Director of Agriculture.

4. *Chief Functions*.—The functions of the Department are (a) organisation of research and experiments for the improvement of agriculture in all its branches and (b) demonstration and propaganda for introducing the improvements in the country. The research and experimental work is carried out at well-equipped experimental farms, which have been established as indicated above.

5. *Achievements*.—The Department has been successful in the introduction of improved varieties of sugarcane, cotton, castor, wheat, *kharif* and *rabi* jowar, groundnut and rice. As a result of the extension of the area under improved varieties of sugarcane like Co. 213, Co. 290, Co. 419 and P.O.J. 2878, a large Sugar Factory came into existence in the Nizamabad District in the year 1346 Fasli for the manufacture of white sugar. The area under groundnut in the Telangana Division was negligible a few years ago. With the introduction

XXXIII.—AGRICULTURE—(a) GENERAL.

of the improved variety, Spanish Peanut 5, by the Department, it has expanded considerably in recent years. Two high yieldings and long staple varieties of cotton, namely, Georani 6 and Parbhani-American 1, have also been produced and are being grown on lakhs of acres in the Marathwada. Similarly, 9 improved and remunerative varieties of rice, namely, H.S. 1, H.S. 8, H.S. 12, H.S. 19, H.S. 21, H.S. 22, H.S. 35, H.S. 38, and H.S. 47, of varying durations and grain quality, 2 of *kharif jowar* viz. P.B. 1-K and P.B. 4-K, 3 of wheat viz. P.B. 1, P.B. 5, and P.B. 12 and 2 of *rabi jowar*, namely, P.B. 1-R, and P.B. 4-R, have been evolved and released for general cultivation. A high yielding and a oil variety of castor, H.S. 1 has also been released. The area under all these improved varieties of crops in 1954 F. amounted to about 8,86,400 acres. Other improvements such as manures, implements and cultivation methods, have also been introduced to a considerable extent. Great success has been achieved in the eradication of the prickly-pear bushes by the introduction of the Cochineal insect. The bush has disappeared almost completely, leaving a large area of good land for cultivation and other developmental purposes.

Irrigation facilities:—Irrigation facilities offered for the cultivation of paddy under the recently completed Dindi Project were taken advantage of for the first time. Nearly 2,000 acres were planted in the *tabi* season (summer) and 4,800 acres in the *abi* (monsoon) season. Similarly, about 55,000 acres were irrigated and sown to paddy under 810 tanks, that had been repaired in the previous year. Some 750 acres were planted to wheat as a lightly irrigated crop in Kotgir area in the District of Nizamabad. Similarly, 500 acres were sown to *rabi jowar* under light irrigation. The additional production of food grains resulting from the distribution of manures and from irrigation is estimated at 20,600 tons of paddy, 180 tons of wheat and 170 tons of jowar.

Cultivation of waste lands:—Under Fateh Nagar alone, an area of 1,800 acres of culturable waste in the commanded area was taken up for cultivation for the first time. Besides this, fairly large area has been brought under cultivation.

6. *Cotton*:—Three improved varieties of cotton have been recommended and released by the Department for the different parts of the Dominions and large quantities of pure seed are distributed

XXXIII.—AGRICULTURE—(a) GENERAL.

annually. Georani 6 is recommended for Nanded District and parts of the Georani protected area of Parbhani District covering about 3,61,191 acres.

Parbhani-American No. 1 had covered about 7,600 acres in the ghats of Aurangabad District and 20,060 acres in Adilabad District. The variety *Jarilla* was sown in about 1,04,532 acres mostly in Aurangabad and Bir Districts.

Jaiwant cotton seed to the extent of 97,740 lbs. sufficient for 5,484 acres was distributed in the year under review in Raichur District.

Thus, the total area under improved varieties of cotton in the State during the year under reference was 4,98,867 acres.

7. *Control*:—Till Mehri 1350 Fasli the Department had a single Director assisted by four Deputy Directors and other Technical Experts. Thereafter the Department was split up into two independent Departments called the Department of Agricultural Research and Department of Agricultural Propaganda.

But, from Azur 1354 F. the two Departments were again merged into one, and as before, the control of the Department of Agriculture was entrusted to one Director assisted by a Senior Deputy-Director of Agriculture, 3 Assistant Directors of Agriculture, an Agricultural Chemist, an Economic Botanist, an Entomologist, a Plant Pathologist, an Agriculturist, a Cotton Research Botanist, an Horticulturist, a Machinery Superintendent, a Boring Superintendent, and a set of Farm Superintendents, Agricultural Assistants and Subordinate Agricultural Officers.

XXXIII.—AGRICULTURE—(a) GENERAL.

No. 13.—Agricultural Indebtedness.

Mr. S.M. Bharucha, B.A., Additional Revenue Secretary, by orders of Government took a survey in 1345 and 1346 F. of the agricultural indebtedness in these Dominions.

Chapter I.

He selected 312 villages in 104 dewani tohsils and collected from village records statistics referring to cultivated land and its revenue, number of pattedars and shikmidars paying assessment, the number of tenants or gowldars in each village and that of farm servants and labourers, with a view to estimating the number of landless people and that of those dispossessed of land. He also obtained information about the area of land that passed into the hands of money-lenders (agricultural and non-agricultural) and of village officers and their families. Mr. Bharucha also gathered particulars about secured and unsecured debt of each individual among the pattedars and the average value per acre of dry and wet land.

Chapter II.

The results of his enquiry are published in a report and the following points are note-worthy :—

1. Out of the total population of the State (14,436,148), 8,000,000 live on agriculture.
2. Pattedars or owners of land number 1,800,000.
3. Non-cultivating owners 600,000.
4. Cultivating owners 1,200,000.
5. Most of the land is divided into small holdings and is in the hands of cultivating owners or tenants.
6. Little outside labour is employed on fields except for transplantation and harvesting.

XXXIII.—AGRICULTURE—(a) GENERAL.

7. Tenants at will or qowldars in the Dominions are estimated at 575,000.

8. The pattedar and qowldar share equally in produce, Government Revenue and expenses of cultivation, or in case of inferior land, the qowldar gives half the produce to the pattedar who pays the land revenue and cost of cultivation in full; or the qowldar, besides giving half the crop to the land-lords, bears all expenses of cultivation and the land-lord pays the assessment.

9. Cash-rents are largely in vogue in the vicinity of cities and towns where garden cultivation is predominant.

10. The crop share or batai system makes for bad agriculture as it deprives the tenant of incentive to introduce improvements on land.

Chapter III.

11. In the 312 select villages the total debt (of pattedars, shikmidars and hissedars numbering 55,027) was estimated Rs. 10,318,777 or an average of Rs. 187-8-0 per pattedar and his family or Rs. 10-0-8 per acre.

12. The debt per head, of agricultural family is about Rs. 30 as compared with Rs. 38 in Madras Presidency.

13. The total occupied area in 312 villages is 1,027,675 acres.

14. Every acre of land has a burden (debt) representing six times the assessment.

15. The interest due on the total debt of the 312 villages (para 11) amounts to Rs. 19½ lakhs.

16. The land revenue in 312 villages is Rs. 18½ lakhs.

17. Out of 1,027,675 acres in 312 villages 94,817 acres passed into the hands of money-lenders and 11,637 acres into those of village officials between 1831 and 1844 F; the aggregate representing 10 per cent of total area. The total area entered on the names of these people till now in the village registers out of 1,027,675 acres, was 290,012 acres.

XXXIII.—AGRICULTURE—(a) GENERAL.

Chapter IV.

18. The annual income of an average family (2 adults and 2 children) is Rs. 160 and the minimum expenditure is Rs. 142-8-0.

19. Total value of 1,027,675 acres in 312 villages (calculated on the current values of crops: dry, wet and garden) is Rs. 4.85 lakhs, which is five times the total aggregate debt (Rs. 103 lakhs), which itself is $5\frac{1}{2}$ times the total revenue of the 312 villages. The total value of land is estimated at 26 times the land revenue.

20. *Conclusion:* Although the land value has gone down by 30 per cent since the depression began, the cultivator can well meet all the liabilities. As the land is worth 26 times the land revenue, the cultivator is solvent in spite of the debt.

Chapter V.

Estimate of agricultural indebtedness for the Dominions.

Dewani villages in the Dominions:—

1st class	...	1,794
2nd class	...	4,856
3rd class	...	8,604
		— — —
Total	...	15,254
		— — —

21. The total debt calculated on the basis of 312 villages in the 104 dewani and Sarf-i-Khas taluks is Rs. 10.60 lakhs for a rural population of 95 lakhs and Rs. 21.04 lakhs in the rest of jagir ilaqas totalling Rs. 64.64 lakhs.

Chapter VI.

22. Except in the periods of continuous bad harvests or low prices of agricultural produce for a number of years, the causes of the agricultural indebtedness were to be found elsewhere than in the land revenue

XXXIII.—AGRICULTURE—(a) GENERAL.

assessment. This is corroborated from the record of the Registration Department which shows that in 5 years, out of a total debt of nearly 54½ lakhs in 258 villages from which documents were executed, the amount of debt mentioned in registered documents was having been contracted for payment to Government. Land revenue assessment totalled only Rs.48,846.

Chapter VII.

Causes of Indebtedness:—

- (a) Fragmentation of holding to an uneconomic size
- (b) Recurring loss of cattle
- (c) Insecurity of crop
- (d) Extravagant expenditure on marriage and social functions
- (e) Litigation
- (f) Money-lenders' systems
- (g) Laoni and Lagwad systems
- (h) Vishwad Kharidi or conditional sales.

Chapter VIII.

Remedies Suggested:—

- (a) Debt conciliation, reduction of debt by agreement or arbitration;
- (b) Widespread Co-operative Societies for seasonal demands of agriculturists;
- (c) Land Mortgage Banks for long-term loans;
- (d) Co-operative marketing and warehousing;
- (e) Restriction of land alienation;

XXXIII.—AGRICULTURE—(a) GENERAL.

- (f) Record of Rights in land ;
- (g) Licensing of money-lenders and submission of accounts ;
- (h) Regulation of weights and measures ;
- (i) Expansion of cottage industries and village panchayats ;
- (j) Consolidation of fragmented lands ;
- (k) Co-operative Societies for labourers and depressed classes.

XXXIII.—AGRICULTURE—(b) IRRIGATED.

No. 2.—*Fifth or final memorandum on the cultivation of Cotton crop in H. E. H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1941-42 the area under cotton crop in these Dominions represents 14.8 percent of the total area in India.)

This forecast deals with the area under cotton Kharif and Rabi, and its probable outturn harvested or expected to be harvested.

The area according to Agricultural Census (kharif & rabi) totals is estimated at 1,957,130 acres as against 4,104,973 acres (the final Agricultural Census, Kharif & Rabi figures) of last year, showing a decrease of 3,147,843 acres or about 52.3%

The decrease is due to fall in prices and also to Government orders for restricting area under cash crops.

The estimated provisional outturn for the Dominions is about 253,129 bales as compared with 564,886 bales of last year, a decrease of 311,757 bales or about 55.2%.

The average outturn for the Dominions works out at 66.6% of the varying normal as compared with 69% reported last year.

Statements showing details by districts and trade classification are appended.

XXXIII.—AGRICULTURE—(b) ~~IRRIGATED.~~

No. 3.—*Fifth or final memorandum on the cultivation of Wheat crop in H. E. H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1941-42 the area under wheat crop in these Dominions represents 3.3% of the total area in India.)

The total area according to the Agricultural Census returns is estimated at 654,493 acres, as compared with 693,037 acres of last year, showing a decrease of 41,631 acres or about 5.98 per cent.

The outturn is estimated at 71,528 tons, as against 77,095 tons of last year, showing a decrease of 5,567 tons or about 7.2 per cent.

The average outturn for the Dominions is now estimated at 63% of the varying normal as compared with 64% reported last year.

The reasons for the decrease of area and yield were as follows :—

1. (a) The untimely rains particularly in the Marathwara tracts.

(b) What is sown in Utra Karthi, and this year Utra Karthi was inadequate in many places.

2. Sprouts withered in many tracts and were replaced by rabi pulses.

3. Absence of winter rains.

The usual statement showing the district details is appended.

No. 4.—*Fourth of final memorandum on the cultivation of Rice crop in H.E.H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1941-42 as stated by the Government of India the area under Rice crop in these Dominions represents 1.5 per cent of the total area in India.)

This forecast deals with the area sown as abi and tabi and the quantitative outturn harvested in abi and expected to be harvested in tabi.

The total area according to Agricultural Census Returns is estimated at 1,298,869 acres, as compared with 1,402,775 acres last year, a decrease of 103,906 acres or 7.4%. The decrease in area is due to less rain during the year under report. The rainfall during the year amounted to 29.42" against 36.65" for the corresponding period last year.

The outturn is estimated at 447,921 tons as against 436,140 tons of last year, an increase of 11,781 tons or about 2.7 per cent due to better conditions for abi crop.

The average outturn for the Dominions is now estimated at 71 per cent of the varying normal as compared with 64 per cent reported last year.

The statement showing districts' details is appended.

XXXIII.—AGRICULTURE—(b) IRRIGATED.

No. 5.—*Fourth or final memorandum on the cultivation of Jawar crop in H. E. H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1940-41 the area under jawar crop in these Dominions represents 26.22 per cent of the total area in India.)

This is the final forecast which deals with the area under kharif and rabi jawar and its estimated outturn harvested or expected to be harvested.

The total area according to Agricultural Census Returns is estimated at 9,134,277 acres as compared with 9,281,216 acres, (revised) figures of forecast of the last year, showing a decrease of 146,939 acres or about 1.6 per cent.

The outturn is estimated at 1,220,945 tons against 1,238,259 tons in the same period of last year, showing a decrease of 17,314 tons or about 1.4 per cent. The decrease in acreage and outturn is more due to unfavourable seasonal conditions and inadequate rainfall. The rainfall during the year amounted to 28.56" against 35.44" for the corresponding period last year.

The average outturn for the Dominions is now estimated at 59.8 per cent of the varying normal, being same as last year. The outturn figures are provisional subject to revision after the results of the crop cutting experiments conducted on extensive scale by the District Revenue Officers.

Statement showing details by districts is appended.

No. 6.—*Third or final memorandum on the cultivation of Sesamum crop in H. E. H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1941-42 the area under Sesamum Crop in these Dominions represent 10.3 per cent of the total area in India).

This forecast deals with the area under Sesamum and quantitative outturn harvested or expected to be harvested.

The area according to Agricultural Census returns is estimated at 622,581 acres against 655,338 acres, the last Agricultural Census figures, showing a decrease of 32,757 acres or about 5.0 per cent.

The outturn is estimated at 40,579 tons against 42,983 tons during the corresponding period last year, a decrease of 2,357 tons or about 5.5 per cent.

The acreage outturn works out at 58.6 per cent of the varying normal as compared with 58.7 per cent reported last year.

XXXIII.—AGRICULTURE—(b) ~~IRRIGATED~~.

No. 9.—*Third or final memorandum on the cultivation of
Groundnut crop in H.E.H. the Nizams Dominions
for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1941-42 the area under Groundnut Crop in these Dominions represents 19.9 per cent of the total area in India.)

This memorandum deals with the estimated area under groundnut crop and the quantitative outturn harvested or expected to be harvested

The area according to Agricultural Census returns is estimated at 2,604,212 acres against 3,106,803 acres, the last year Agricultural Census figures, showing a decrease of 502,591 acres or about 16.2 per cent.

The decrease is due to fall in prices as well as Government orders for restricting area under cash crops

The outturn is estimated at 761,257 tons compared with 1,075,127 tons for the corresponding period of last year, showing a decrease of 313,870 tons or about 29.2 per cent.

The average outturn for the Dominions is now estimated at 65 per cent of the normal as compared with 77 per cent reported last year.

The usual statement showing the District details is appended.

XXXIII.—AGRICULTURE—(b) IRRIGATED.

No. 10 & 11.—*Memorandum on the cultivation of Castor & Misc. Oil seeds crop in H.E.H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1941-42 the area under castor crop in these Dominions represents 53.4 per cent of the total area under this crop in India).

This forecast deals with the area occupied by the castor and miscellaneous oil seeds crop and the quantitative outturn harvested or expected to be harvested.

Crops	AREA IN ACRES		OUTTURN IN TONS		P. C. VARIATION	
	Current year	Previous year	Current year	Previous year	Current year	Previous year
Castor ...	746,742	881,615	54,405	65,447	—10.2	—16.8
Misc. oilseeds	1,027,161	679,810	69,747	44,342	+50.1	+57.3
Total...	1,773,903	1,511,425	124,252	109,789	+17.3	+13.1

The total area under castor and miscellaneous oil seeds according to Agricultural Census returns is estimated at 1,773,903 acres against 1,511,425 acres, the last Agricultural Census figures showing an increase of 262,478 acres or about 17.3 per cent.

The outturn is estimated at 124,252 tons as against 109,789 tons last year, showing an increase of 14,463 tons or about 13.1 per cent.

The average outturn of the castor crop is estimated at 58 per cent of the varying normal as against 70 per cent reported last year.

Districtwari figures for each castor and miscellaneous oil seeds crop are given in separate statements.

No. 18.—*Memorandum on the cultivation of Tobacco crop in H.E.H. the Nizam's Dominions for the year 1944-45 (1353-54 F.)*

(On an average of five years ending 1939—40 the area under tobacco crop in these Dominions represents 4.5 per cent of the total area in India).

This forecast deals with the area under tobacco and gives the outturn harvested or expected to be harvested.

According to Agri. Census the area is estimated at 29,665 acres as compared with 65,428 acres of last year forecast figures, a decrease of 35,763 acres or about 54.7 per cent.

The outturn is estimated at 6,924 tons as against 14,751 tons during the corresponding period last year, showing a decrease of 7,827 tons or about 53 per cent. The imposition of tobacco tax is one of the main reasons for the decrease in acreage.

The years harvest is 64.5 per cent of the varying normal as against 64.1 percent reported last year.

The statement showing details by district is appended.

SECTION XXXIII.

Agriculture

(c) Cotton Crop Report.

XXXIII.--AGRICULTURE—(c) COTTON CROP REPORT.

COTTON CROP OF 1853-54 F.

Weather and crop condition :—The South-West monsoon set in proper time. Rainfall was moderate throughout the Dominions except in parts of Aurangabad, Bir and Raichur districts.

Excessive rains, fell at the close of the monsoon which proved harmful to the crop in few areas of Gulbarga, Adilabad and Bidar. Lack of moisture, however, was noticeable in parts of Aurangabad, Bir and Parbhani, where cotton was in indifferent condition.

The total rainfall during the agricultural year 1854 F. was 29.06" as against 33.95" normal.

Picking of kharif cotton began in Azur and that of rabi concluded in Khurdad 1854 F.

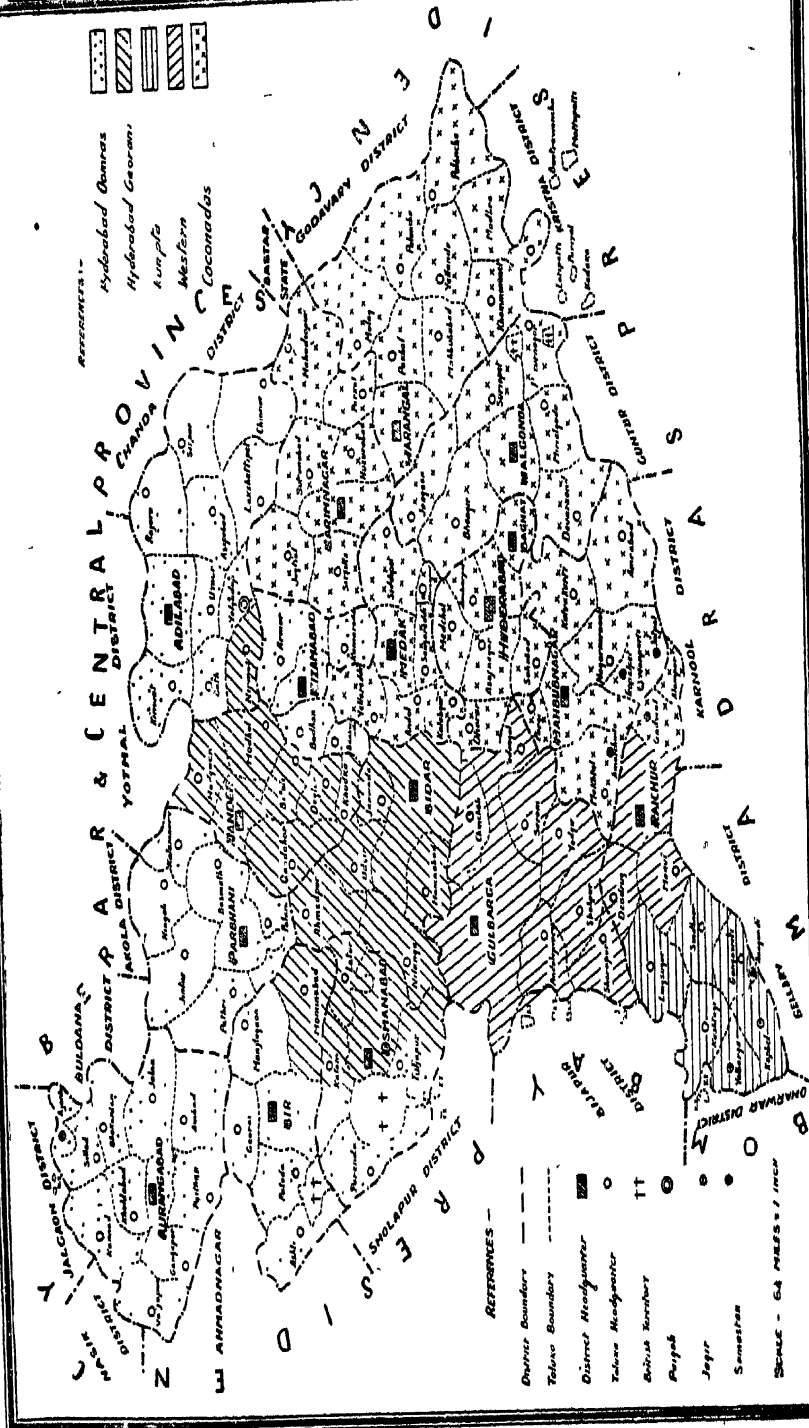

Area, annawari and yield:—The area under kharif and rabi cotton according to Agricultural Census returns was 1,957,180 acres as compared with 4,104,978 acres of last year, showing a decrease of 2,147,848 acres or about 52.3 per cent.

The decrease was particularly due to fall in prices and also to Government orders for restricting area under cash crops.

The yield was estimated at 253,129 bales as against 564,886 bales in the preceding year, a decrease of 311,757 bales or about 55.2 per cent.

The average outturn was estimated at 66.6 per cent of the normal as compared with 69 per cent reported last year.

SECTION XXXIV.

Scarcity and Famine Relief

XXXIV.— SCARCITY AND FAMINE RELIEF.

During the year 1854 Fasli the famine board held two meetings and disposed off 24 cases. One was decided by circulation.

Rainfall :—Though the average for the season was 31.42" the rainfall was irregular and untimely. As a consequence 'Kharif' crop failed in parts of Bir, Raichur, Osmanabad and Aurangabad districts. 'Rabi' was also effected in parts of Nizamabad, Medak, Mahbubnagar, Warangal, Karimnagar, Adilabad, Aurangabad, Nanded, and Osmanabad.

In some parts of Nalgonda, Parbhani, Bir, Gulbarga, Raichur and Bidar, Districts. 'Rabi' crop suffered due to hail storms.

Government declared scarcity conditions in the taluqs of Ashti, Patoda and Bir in Bir Districts; Kushtagi Sindhnur and Manvi of Raichur District; and Parenda taluq of Osmanabad district.

A total sum of Rs. 23.50 lakhs was sanctioned for relief works in the District of Bir, Raichur and Osmanabad.

The number of wells sunk during the year was 163; the average cost per well being Rs. 3,016/-

14.	" C. J. W. Lillie, I.C.S. (D.G.R.)	1851 F. continuing.

3. *History*: The usual cause of famine and scarcity are (1) Devastations by armies or wholesale evacuation, (2) Earth becoming man-heavy, and (3) Partial or total failure of crops due to insufficient and unseasonal rainfall or both.

Occasionally great damage is locally caused to standing crops by floods, hails, frosts, locusts, rats, insect pests, diseases, etc. but the injury done thereby has never been known to be so serious as to cause a great famine.

A very large proportion of the population of Hyderabad State are being dependent on agriculture for their livelihood, the effects of the failure of crops are widely felt. In the case of labouring classes usually employed in the fields, the pressure of bad seasons is enhanced by the fact that the same cause greatly increases the cost of food while it decreases the prospects of employment.

No particular part of the Dominions can be said to be immune from periodical visitation of famine and scarcity. The western portion of the Dominions comprising parts of Aurangabad, Bir, Osmanabad, Gulbarga and Raichur are however more susceptible to crop failure due to rain than other parts of the Dominions and have been recognised as 'Famine Zone'.

XXXIV.—SCARCITY AND FAMINE RELIEF.

Accounts of famine and scarcities exist from the 14th century. Many of these famines were the results of drought, many were brought about by war and political disturbances.

The earliest famine on record was in 1396 F. It was called the *Durga Devi Kal*. It occurred in the reign of the Bahmanic sultan Feroz Shah. It lasted for 12 years in the Deccan and North India. In 1472, according to Historian Farishtah, 'The towns became almost depopulated, many of the inhabitants died of famine and numbers emigrated for food outside the Dominions. In Telingana, Marathwara and throughout the Bahmani Dominions, no grain was sown for 2 years and in the 3rd, when Almighty showered His Mercy upon the earth, scarcely any farmer remained in the country to cultivate the land'.

In the days of Mahmood Gawan, one of the ablest Minister of the Bahmani Dynasty, another famine spread over the whole of the Deccan.

Due to drought there was a great famine in 1680 which devastated Doulatabad and the surrounding country, Abdul Hamid, the author of Badshahnama says, 'Life was offered for a leaf, but none would buy; nor was sold for cake, but none cared for it. For a long time dog's flesh was sold for goat's flesh and the pounted bones of the dead were mixed with flour and sold. Men deserted their wives and children. Women sold themselves as slaves. Mothers sold their children, and some families took poison, others threw themselves into the rivers. Destitution at last reached such a pitch that men began to devour each other and the flesh of a son was preferred to his love. In the streets and still more on the road journeys, man ran great danger of being murdered and eaten'.

Twenty years later, another famine occurred which was caused both by drought and the Maratha and Pindari wars.

In 1659, due to drought, there was a famine throughout India and the territory now comprising the Nizam's Dominions had to bear its full share in the calamity. Again in 1681, the central portion of the country was affected by famine due both to a state of war and to a season of drought, both of which accompanied the downfall of Kutub Shahi Dynasty.

1685 was famine year due to drought. 1702 was famine due to excessive rain. The kharif crop was destroyed and the Rabi crop yield was reduced to one tenth of the normal; and 1718 was famine due to drought.

The following statement shows dates of recorded famine during the Asafia Dynasty's Rule, the areas affected, the approximate amount of money spent by Government for the relief of districts, etc. is noted:—

...	...	A famine year due to drought.	2
...	...	A serious famine in Aurangabad and adjoining districts.	3
...	...	Famine due to drought.	4
...	...	A severe famine much affecting Telingana. It is known as the <i>Dour Barra</i> or the skull famine owing to the appalling number of human beings that perished. Agricultural operations were entirely suspended and the country looked barren and desolate.	5
...	...	This tract of the Deccan suffered a big catastiophe. People migrated to Bombay Presidency.	6
...	...	Intense distress was experienced due to drought and Holkar raid. Kharif failed entirely. There was great scarcity of drinking water and caused a great toll of human life. Thousands perished in Parbhani, Bir and Raichur. Bhils plundered the villages. No detail records of famine relief measures available.	7
...	...	There was insufficient rains and over and above it, locusts swarms appeared and caused famine. Gulbarga suffered most.	8
...	...	Excessive rains and cholera. Carrots were grown extensively in lands under wells. Hence famine is remembered as the <i>Gajara Kul</i> or carrot famine. The poor received cooked food and better classes received one seer of Jawar and two dubs per head per day. Charity houses were opened.	9

...	...	Rains failed. Thousands perished. Great many (30,000) immigrated. Parents sold their children. People lived on leaves of trees. To add to this calamity cholera broke out. Government opened poor houses. 10,000 were relieved. Export of grain was stopped. Prices were fixed by local authorities.	13
...	...	Rains failed. Cattle died in great numbers and fowls in many places disappeared completely.	14
...	...	Famine due to drought. Kharif failed. A few relief works were undertaken in worst centres. Col. Meadows Taylor has given account of this famine in his book 'The story of my life'	15
...	...	Failure of rains. Severity in Hyderabad City, grains had to be imported from as far away as Calcutta worth Rs. 11.5 lakhs.	16
...	4 lakhs	Failure of rains. Severity in Hyderabad City. Salaries of those who draw small pay were increased. Cooked food was distributed in the City for several months. No detail records of famine relief available.	17
...	...	Rains failed. Land Revenue amounting to Rs. 1.5 lakhs was remitted in Aurangabad alone. Rs. 20,000 were spent on relief work.	18
...	...	A widespread famine of great intensity, throughout Southern India due to failure of rains. Both crops failed; in 1875 Raichur had 10 inches and in 1877 it had only 2.41 inches. Distress began from October 1876 and continued till July 1878. Relief works and organised charity prevented enormous loss of life both human and cattle. Gold was sold at the rate of Rs. 6 to 7 per tola. At the instance of the Earl of Northbrook, H.H. the Nizam's Government was offered a part of the funds which the charitable generosity of the people of England had subscribed for the relief. Sir Salar Jung Bahadur has recorded this with the expression of gratitude. A central relief committee was appointed and special commissioners were nominated. The main principle laid down by Government in dealing with the situation was that there should be no interference with private trade. The arrangements made by Government were so perfect that Sir Richard Temple who had been	19

		to Southern India as a Famine Delegate, visiting Hyderabad said, "the arrangements made to meet the distress and the diagnosis of the coming trouble were creditable to the prudence and foresight of His Highness the Nizam's Government." The revenue remissions totalled 321 lakhs. In spite of such measures there was considerable loss of life, the estimated number of deaths being 71,658 persons and 432,926 cattle. Details of amount spent are: Public works 5.78 lakhs; relief works 8.38 lakhs; poor houses 2.44 lakhs; decrease in land assessment 32.59 lakhs. The Karnatic area was much affected and the Telingana districts were much safer. Daily wages given were 0-2-2.	
...	...	Rat plague appeared in severity and spoiled the crops of Rabi and reduced the crops to 6 annas in some parts.	20
...	...		21
...	...		22
...	...	This great famine was caused by irregular rainfall. The tracts dependant for the most part on the Kharif crops received abundant rainfall till the middle of August. But beyond a few scattered showers there was practically no rain in September and October to bring the Kharif crop to maturity and to sow the Rabi crops. The sudden and general rise in prices of foodgrains pressed heavily on persons who had no savings. Government opened cheap grain shops for 2.5 months of Jawar imported from Calcutta, Rangoon and Bombay costing Rs 5.53 lakhs. Rs. 20,000 were sanctioned for each Subah for distribution of grain to the poor and disabled. Free clothings were given to Furdah women. Poor houses were opened.	23
...	7.76 lakhs		
2,754,613	...	This great famine of 1900 or 1309 F. was of unprecedented severity and badly affected one third of the Dominions. The period was from 5th November 1899 to 1st December 1900. The rainfall in 1899 was meagre in parts and failed completely in Aurangabad and Gulbarga districts. The famine and scarcity conditions prevailed throughout Dominions. This famine affected the census of 1901 due to the heavy toll of lives. Cattle mortality was terrible due	24

XXXIV.—SCARCITY AND FAMINE RELIEF.

No. 7.—*Brief History of the Well Sinking Department.*

1. Established in Khurdad 1337 F. (May 1928.)
2. Heads of the Department and the period of their tenure:—

1. Capt. Leonard Munn, O.B.E.,	...	1937–1945 F.
2. Mr. D. V. Rao, B.Sc., (London) F.R.S.A., (London)		
M.I.E. (India)	...	1945–1946 F.
3. Mr. Ahmad Mirza C.E.	...	1946–1947 F.
4. „ Samiullah Shah, B.Sc.	...	1947–1948 F.
5. „ C.C. Paul, O.B.E., M.I.C.E.	...	1948–1951 F.
6. „ Samiullah Shah, B.Sc.	...	1951–1954 F.
7. „ D. V. Rao, B.Sc., F.R.S.A., M.I.E.		1954 F. (continuing.)

3. *History*:—This unique experiment, the first of its kind in India, intended to provide unfailing supply of pure drinking water in every village of the Famine Zone, was started in Thir 1338 F. under the sanction accorded by the Command of H.E.H. the Nizam in Khurdad 1337 F.

In the parts where the average rainfall is less than 25", water supply besides being poor is infested with guinea-worm and other agents of water-borne diseases. The areas coming under the jurisdiction of the Well Sinking Department are the whole of Raichur District, the three Sarf-i-Khas talukas of Shorapur, Shahpur and Andola and the Diwani talukas of Yadgir and Gulbarga of the Gulbarga districts; Parenda and Tuljapur of Osmanabad district; Ashti, Patoda and Georai talukas of Bir district; Paithan and Ambar, Vaijapur and Gangapur, Kannar, Khuldabad and Sillod taluka of Aurangabad district; Nilanga and Bidar district; Mukthal, Malibubnagar, Nagarkarnul, Malwakurthi, Amrabad talukas and Vanaparthi Samasthan of Mahbubnagar district; and Devarkonda, Bhongir and Miryalguda, Nalgonda, Suryapet and Huzurnagar talukas of Nalgonda district; besides the Bhoom Jagir and the Afzalpur Pwiga of the Osmanabad district, and the Gulbarga district respectively.

The policy of restricting the activities of the Department, to the area of an average of 25" or less rainfall demarcating to be lying in the

XXXIV.--SCARCITY AND FAMINE RELIEF.

Famine Zone, was considered by the Hon'ble Members of the Famine Board and observed that it was difficult to draw a line of demarcation between Famine and Non-famine Zones of the Dominions in view of the irregular distribution and situation of the rain gauges. The rainfall records cannot be taken as correct standards and reliable data for the purpose. As it is seen in many cases the so-called Non-Famine Zone areas were equally bad, as regards water supply. Moreover the object of creating Well Sinking Department in 1887 F. was to provide unfailing protected drinking water to the villagers. So in order to provide these facilities to the villagers of the so-called Non Famine Zone area, the well sinking operations have been extended as a post-war scheme in order to provide every village with dependable source of drinking water which is a boon to the villager. With these plans, 12,757 Khalsa villages and 7,110 Non-Khalsa villages will be provided with an average of two wells for General Public and Harijans of each village at an approximate cost of Rs. 7,89,05,240/-. A period of 80 years to complete the scheme will be required with an annual budget of Rs. 24,00,000/-. Thus it was resolved in the Famine Board Meeting dated 27-6-54 F. that at present the following districts as a whole should be included for the purposes of the well sinking operations and the Famine Zone map to be revised:—

Aurangabad, Bir, Osmanabad, Bidar, Gulbarga, Raichur, Mahbubnagar, and Nalgonda.

4. *Chief Functions*:—In order to accelerate the progress of work, a scheme for the creation of three Divisions at an annual expenditure of Rs. 24 lakhs has been approved by the Hon'ble Revenue Member and the Finance Department, and the same is under the sanction of the Government.

In the Famine Zone of Marathwada where the rainfall is 25" or less there is a constant fear of crop failure. In order to supplement deficient rainfall and thus to increase cultivable area it was considered essential that in valleys where the water table is high and the land fertile a number of irrigation wells should be excavated. A scheme of work was drawn up by the Special Officer. To implement this scheme a small establishment costing Rs. 2,864/- was sanctioned for 2 months for collecting preliminary data. The work will be taken up when the Director of Agriculture deputes an Agricultural Officer to accompany the Geologist of the Department for selecting sites.

XXXIV.—SCARCITY AND FAMINE RELIEF.

To provide pure drinking water and to eradicate guinea-worm and other water-borne diseases, no wells are sunk and where it is practicable and economical old step or draw-wells are converted into standardised draw wells.

Such of the old step-wells which cannot be economically converted into draw-wells but are the sources of guinea-worm infection and the cause of other water-borne diseases are blocked, sterilised or filled up.

5. *Achievements*:—The incidence of guinea-worm infections and other water-borne diseases have been controlled and the migration of villagers to the adjacent British Dominions in search of food and water, was stopped.

To end of 1954 F., 2,745 new wells have been constructed, 694 old wells remodelled into draw-wells, 736 old step-wells which were infected with water-borne diseases have been blocked, sterilised or filled up in Raichur, Gulbarga, Osmanabad and Bir districts. The total cost so far incurred amounts to Rs. 80,72,141 which is inclusive of supervision and all other charges. The average out-lay on each work on the total of 4,175 works out to Rs. 1,938.

During 1954 F. 168 wells were completed (139 new, 20 remodelled and 4 minor) at an average cost of Rs. 8,016, Rs. 2,658 and Rs. 118 respectively. The average depth of a new well was 46.28' and that of remodelled well 48.70'. The average height of steining was 30.41'. The total expenditure during the year was Rs. 4,32,404 against a grant of Rs. 8,00,000. The percentage of supervision charges incurred was 22.90. (The Audit Contribution for 1954 F. is still awaited from the Controller General).

Due to the abnormal increase in the prices of materials and wages of labour on account of war conditions and the concomitant difficulties in the transshipment of materials and above all owing to the delay caused in the communication of sanction to the increase of rates, most of the works were at a standstill. In spite of such adverse circumstances, the Department was able to book an expenditure of Rs. 4,32,404 during the year under report against a Budget of Rs. 8 lakhs. This is gratifying.

XXXIV.—SCARCITY AND FAMINE RELIEF.

There was one minor accident during the year 1354 F. The only injured man is now progressing well.

6. *Control* :—

The Department is controlled by the Superintending Engineer, assisted by a Special Officer under the ægis of the Famine Board.

SECTION XXXV.

Live-Stock

XXXV.—LIVE-STOCK.

The sixth quinquennial live-stock census was held in these Dominions between 15th and 31st January 1945 (28rd to 29th Isfandar 1354 F). The total cattle of the ovine type were 8,675,269 in the Dominions, out of which only 2.2 per cent were found in urban and the remaining 97.2 per cent in rural areas. The total cattle of the buffalo type were 2,649,790 out of which only 4.4 per cent were enumerated in urban and the remaining 95.6 per cent in the rural areas.

The total number of cattle of all ages and description enumerated in Hyderabad State was 11,925,059 as compared with 12,559,908 in 1940 (1349F), a decrease of 10 per cent. Telingana supports a heavier cattle population than Marathwara. Her share of the live-stock represents 56.3 per cent. Marathwara claims 43.7 per cent. The Density of cattle is 54.1 as compared with 55.7 per cent in the previous quinquennium. Cattle per sq. mile was 186.9 in Telingana and 120.1 in Marathwara. The average number of cattle per 100 of human population was 69.3 and the average number of working animals per cultivator was 1.7.

Among the cattle as many as 141,464 or 1.3 per cent were unserviceable as compared to 326,029 or 3.9 per cent in 1940 (1349 F.).

The total number of serviceable bulls in relation to breeding cows according to the present census is 31,537 or one bull for 80 cows. The total number of oxen male were 3,551,211; 2,654,560 were oxen-females and 1,469,498 were total young stock of oxen.

Similarly there were 336,281 buffaloes male; 1,208,671 buffaloes female and 1,054,838 young stock of buffaloes.

The population of sheep and goats as censused in these Dominions was 5,308,745 and 3,928,311 respectively, the ratio being 7 to 5. As compared to 1940, the total population of sheep & goats declined by 3.6% in 1945. There were 99,019 horses, 539 mules, 67,101 donkeys, 1,522 camels and 190,565 pigs in 1945. Poultry was also enumerated. Of the total Poultry which numbered 4,744,526, 4,704,232 were fowls and the remaining 40,294 were ducks.

XXXV.—LIVE-STOCK.

The number of groundnut decorticators (power and hand driven) hay mowers, cutters, hay presses, rahats, cream separators, dairy establishments, oil presses (power, bullock and hand driven) smithy and carpentry workshops and potters also enumerated in the census of 1945.

The estimated daily yield of cows milk is 900,785 seers, and that of buffaloes 1,810,976 seers, the per capita daily consumption being 0.66 oz. of the former and 2.87 oz. of the latter.

XXXV.—LIVE-STOCK

No. 12.—*A Brief History of the Veterinary Department.*

1. Established 1321 Fasli (1912 A. D.)
2. Heads of the Department and the period of their tenure

Period.

- | | |
|---|----------------------------|
| 1. Mr. Ali Bin Abdullah, Superintendent | 1287-1811 F. |
| 2. „ Hugh Gough, Director. | 24-4-1821 to 18-11-1827 F. |
| 3. Captain Nawab Rais Jung Bhdr. | 17-12-1827 to 28-6-1842 F. |
| 4. Rao Bahadur B. K. Badami | 29-6-1842 to 1-10-1852 F. |
| 5. Dr. Mohd. Aziz Hasan. | 7-10-1852 to 20-8-1854 F. |
| 6. Dr. M. Mahmoodullah, B.Sc., MRCVS. | 1-4-1854 F. & continuing. |

3. *History*:—The Veterinary Department originally started as the Stud Department in the year 1287 F. with object of breeding Horses of good type in the country and to provide remounts for the State Forces. Mr. Ali Bin Abdullah was the first Superintendent. During this period one qualified veterinarian was attached to the Stallion depot at Sangareddi where a few brood mares and pedigree Stallions were maintained for breeding purposes. There were also Salutaries one in charge of each District paid from the Local Fund to control outbreaks of contagious diseases among cattle and to carry on routine treatment. The Stallions raised from this depot were posted in districts at various tehsils. These were first under the charge of the Police Department and were later transferred to the Revenue Department under the supervision of the Tahsildars. With the exception of the stallions now stationed at Aurangabad, Gulbarga and Mominabad the rest are still under the same supervision. A qualified veterinarian was employed in the year 1314 F. to deal with diseases of cattle in Raichur District when there was famine in this area.

Four qualified veterinary surgeons were entertained in the year 1909 (1318 F.) for the 4 Revenue Administrative Divisions of the State.

Sangareddi was the only place where a Stud was maintained till 1818 F. when a few mares were sent to Hingoli on an experimental basis for breeding purpose and after a few years this place turned to be the Chief Horses and Cattle Breeding centres.

XXXV.—LIVE-STOCK.

In 1311 F. the department was placed under the direct supervision of Finance Department till the appointment of Mr. H. Gough as the Head in 1321 F. It was during his time that the department assumed the name of Civil Veterinary and Stud Department.

The Veterinary and Stud Department was made permanent in the year 1324 F. (1945 A. D.) During the year 1324 F., 1025 mares were purchased and distributed among ryots on Taccavi System to encourage horse breeding in the State.

The stud Farm at Sangareddi was made permanent in the year 1326 F. as it was found unsuitable for breeding horses. Schemes pertaining to the expansion and reorganization of the Department were sanctioned by the Government from time to time.

There are now in all 19 veterinary hospitals at all the district headquarters including the city of Hyderabad and one at Jalna. Beside these, there are 70 itinerary veterinary dispensaries in almost all taluqas of the Dominions. Some of the veterinary hospitals are housed in Government buildings and provision for the remaining hospitals now housed in rented buildings. The cattle breeding farm and Dairy Himayetsagar was transferred from the Agriculture Department in the year 1347 F.

4. *Chief functions of the Department are:—*

I. To control outbreaks of contagious diseases as these are mainly responsible for heavy mortality among live-stock especially the agricultural and milch cattle.

II. To treat animals affected with diseases of contagious or non-contagious nature.

III. To advise owners regarding the feeding and management of their live-stock.

IV. To improve the livestock of the State. This is brought about by:—

1. Posting of Stallions at different Tahsils of the horse breeding areas to be given to mares owned by private breeders in order to develop this industry. A Stud Farm is functioning at Hingoli where a number of breed mares and a few stallions of T. B. and Arab strains are maintained to grade up the equine stock for the purpose of providing remounts to the Army and for providing stallions for the districts.

XXXV.—LIVE-STOCK.

2. Posting the best bulls of indigenous breeds at various centres or distributing them to private breeders at concession rates. Dooni type of cattle are bred at the Hingoli Cattle Farm. The Malvi and the Krishna Valley types of cattle are being bred at the Himayetsagar Cattle Breeding Farm and Dairy which also supplies the surplus milk after pasteurisation to the city of Hyderabad.

3. Horse and Cattle shows are organised at various places and valuable prizes are awarded to the best exhibits in order to give impetus to live-stock owners for taking up systematic and scientific breeding. The department exhibited Deoni, Malvi and Krishna Valley types of cattle at the All-India Cattle Show, Delhi, and the Regional Show at Bangalore.

4. Sheep Breeding is also receiving attention—a flock of Bikaner sheep is maintained at Hingoli.

5. *Achievements*:—In the year 1948 F. cattle mortality registers were introduced in the villages and with the co-operation of the Police and Revenue Department a regular agency for reporting outbreaks of contagious diseases and cattle mortality was established. Exchange of direct reports of outbreaks of contagious diseases between the officers of the State and those in the bordering provinces of British India has been arranged.

A Scheme for propaganda in veterinary and live-stock work was sanctioned in the year 1947 F. another unit was added to it.

Virus required for the immunisation of cattle against Rinderpest is now prepared locally at the Virus Station attached to the Director's Office. The Veterinary Investigation Officer appointed carries on investigation of most of the important diseases in collaboration with the Imperial Veterinary Research Institute. Scheme for the investigation of Poultry Diseases is also running concurrently with the Veterinary Investigation from the year 1951 F. The Officer appointed under this scheme conducted survey of the Poultry Diseases existing in the State and carries on investigation of the important diseases. Anti Liver-Fluke Scheme for the Nizamsagar area was sanctioned in the year 1951 F. and this is now being worked on a long term basis. The Registration of Herds was taken up—silage making was introduced and Ghee Breeding Societies were organised on co-operative basis in the above areas.

XXXV.—LIVE-STOCK.

Post-graduate training is given to officials of the Department to maintain Professional efficiency and some of the officers were deputed to the Imperial Agricultural Research Institute and Imperial Veterinary Research Institute to undergo training in Advanced Course in Animal Husbandry.

A number of candidates were awarded scholarships of Rs. 50/- each per mensem for Diploma Course in Veterinary Science at various veterinary colleges in British India. Seven such scholarships were sanctioned by the Government in 1954 F. and selected candidates were sent to different colleges.

A scheme for the uplift of the Chenchoos residing in the Amarabad taluq of Mahbubnagar District was brought into force in the year 1953 F. Two veterinary Assistants from this department were appointed under this scheme to afford every possible help in veterinary and animal husbandry matters.

A veterinary and animal Husbandry College affiliated to the Osmania University has now been established which will award a degree of B. V. Sc. to the successful candidates.

6. *Control*.—The Department is under a Director, assisted by 2 deputies, 6 Assistants, 1 Special Officer Liver-Fluke, 10 Veterinary Inspectors, 47 Assistant Veterinary Surgeons and 70 Veterinary Assistants.

XXXV.—LIVE-STOCK.

No. 15.—*Brief history of Fisheries Department.*

It was established on a temporary basis in the year 1350 F. with Dr. M. Rahimullah, D.Sc., as the Fisheries Officer. Some staff was provided for carrying on the survey and collection of data on which future plans for the development of Fisheries may be based.

Uptil now 95 species of fishes have been collected out of which 80 species are good for stocking and breeding purposes. Some smaller varieties are useful for the control of Malaria and Guinea-worm disease. The plans for the future development of the Fisheries have been submitted to the Government and it is hoped that the breeding of fishes and stocking of the tanks may bring enough fish to the markets on cheap rates.

The Deparment has been publishing its survey reports and other scientific matters in scientific journals.

A Biochemist has been appointed to find the food value of fishes, prepare body and liver-oils of fishes and other by-products from fish-waste. This work has also been done on a small scale. A small museum and an aquarium have been set up for the interest of the public.

XXXVI.—MINES, QUARRIES AND MINERALS.

MINES & GEOLOGICAL SURVEY.

Three Mining Companies registered under the Hyderabad Mines Act 1820 F. continued to function. At present only three coalfields are being worked at Kothagudium, Tandur and Sasti. The total output of coal in 1854 F. was 1,023,442 tons and the Royalty paid on it amounted to Rs. 226,282.

During the year, 2,580,000 sq. feet of shahabad stone was quarried and 168,427 tons of cement were produced. The estimated value of coal and shahabad stones amounted to B. G. Rs. 139.24 lakhs and B. G. Rs. 1.08 lakhs respectively.

The total amount of Royalty paid to Government in 1854 F. on Coal, Shahabad stone & Cement was O. S. Rs 3.84 lakhs as compared with O. S. Rs. 3.77 lakhs in 1853 F.

The average number of persons employed daily in the production of coal in 1854 F. was 17,228 as compared with 11,909 in 1853 Fasli.

Geological Survey is also under the direction of the Director of Mines and the cost of that branch of work was about Rs. 61,801.

XXXVI.—MINES, QUARRIES & MINERALS.

No.—5. Brief History of the Mines Department (Madanyat)

- 1 Mines Department was established in 1296 F. (1887 A.D.)
2. Heads of the Department and the period of their tenure:—

Directors

1. Mr. Syed Ali Bilgrami, B.A., A.R.S.M.,
(Director General of Mines) ... 29-6-1296 to 1-5-1302 F
2. Mr. Mirza Mahdi Khan, A.R.S.M.,
(Director-General of Mines) ... 1306 F
3. Captain Leonard Munn,
(Mining Engineer) ... 24-3-1318 to Dai 1329 F
4. Mr. Khurshed Mirza B.Sc., C.E., M.I.M.E., (Mining Engineer
& Director of Mines and Geological Survey. 2- 1329 to
... 30-11-1353 F
5. Dr. A.M. Haroon D.Sc., (Edin.) F.C.S., F.R.S.E.,
1-12-1353 to end of Moher 1354 F
6. Mr. Syed Kazim, B.Sc. (Alig.) B. Sc. (Durham) 1-12-1354—

3. *History*:—The Hyderabad Mines Act was passed in 1320 F (1911) and the framing of the rules under Article 19 there-under was an important step taken in this direction. Sanitary rules have been framed under Articles 19 & 20 for the construction and maintenance of water works and other sanitary provisions for the labour employed at the Mines. Rules for the use of explosives and shot firing were also introduced for the safety of the workmen at the collieries.

The Geological Department was inaugurated in 1331 F. During the last 20 years the Department has completed the Geological survey and mapping of Adilabad, Raichur and a great part of Atraf-i-Balda. Nalgonda, Mahbubnagr, Gulbarga, Osmanabad and Warangal Districts. In addition, a rapid reconnaissance survey of Aurangabad District was also conducted.

Systematic Geological survey of parts of Warangal District was carried out in continuation of the work done previously. About 750 sq.

XXXVI.—MINES, QUARRIES & MINERALS.

miles of country was geologically examined and mapped and its mineral possibilities ascertained. A part of the Nanded District was also geologically examined in addition to the above.

Coal:—During the year three coal fields viz. Sasti, Tandur and Kothagudium were working in the Dominions. A new incline was commenced to be sunk at Kothagudium.

Royalty & Dead Rent:—Besides the three coal fields, named above, there are 10 other coal areas where no mining was conducted but for which dead rent was paid. They are as follows:—

- (1) Chinnur
- (2) Allapalli
- (3) Sivawaram and Madawaram
- (4) Sarangupalli Tekmalta
- (5) Wardha Valley
- (6) Paloncha
- (7) Konala
- (8) North Godavari
- (9) South Godavari
- (10) Asifabad

Purchase of the Singareni Collieries Company by the Government:—During the past 45 years, since, the Singareni Collieries came into existence, the extraction of coal from the mines in the Dominions was only about 33 million tons. Considering the estimated resources of 1,000 million tons, in the Dominions, the quantity extracted during 45 years was very inadequate. Hence H.E.H. the Nizam's Government rew up on Agreement for the purchase of the Company and in accordance with this Agreement the Shares, Debentures and other rights and concession etc. were finally acquired on the 14th November 1944 against the payment of the amount of B.G. Rs. 1,10,08,173 to the vendors.

Diamonds:—The prospecting license granted to Messrs. Mugrem was extended for a further term of one year in Raichur. No prospecting work was done by the Company as they could not get the services of an expert from South Africa.

XXXVI.—MINES, QUARRIES & MINERALS.

Gold:—Prospecting of gold was commenced in the Raichur District in 1877 (1296 F.) and mining was commenced at Wandalli, Hutti and other areas for some years. Hutti Gold Mines were closed down in 1920 after having been worked very successfully for 20 years. During 1945, the operation at Hutti mines were confined to keeping the mines in good condition.

Mica:—The license granted to mica in Kallur and Gokawaram villages was revived for another year. During the term of prospecting there was an output of 16,618 lbs.

Marble:—Marble was discovered in certain parts of Warangal District. The marble is of good quality and is obtainable in several pleasing colours. The quarries are being worked by modern machinery and the marble slabs are exported to Bombay besides commanding local markets. Production was started in 1936. The Deccan Marble and Mining Company's operation at their Munditag marble quarries remain suspended through the year 1954 F.

Cement:—Prospecting work was carried out till 1922. The Shahabad Cement Co. started manufacturing of cement in 1925 which has now been amalgamated with the Associated Cement Cos., Ltd. During 1945, the cement works at Shahabad manufactured 1,68,427 tons, and paid a royalty of B. G. Rs. 1,22,570/-

Other Activities:—At the instance of the Sub-Committee of the Ad Hoc Committee, Godavery Valley Development, surface mapping and prospecting by pitting to the last of Ramgundam near the South Godavery coal field was undertaken with a view to indicating a site for the proposed thermal station.

Museum and Library:—The Geological Museum was kept open for the public and samples received from outside were indentified and reported. The Chemical Laboratory was enlarged and adequately equipped to meet the needs of the Depot.

Publications:—Volume IV, Part 2 of the Journal, Hyderabad Geological Survey, as well as the Annual Report of the Mines & Geological Survey for 1952 F. were published during the year.

Chief functions of the Department are as enumerated below:—

1. Grant of prospecting and quarrying Licenses and Mining Leases.

XXXVI.—MINES, QUARRIES & MINERALS.

2. Inspection of Mines and Quarries (Surface and underground)
3. Collection of Rents and Royalties.
4. Enquiry into accidents at the Mines and Quarries.
5. Looking after the labour settlements at all the leased premises with regard to their health and sanitation.
6. Formulating Rules and Regulations whenever necessary with regard to the efficient and safe working of the Mines and Quarries, skilful handling of explosives, prevention of epidemics and supervising enforcement of the same.

Cost:—The expenditure of the Mines & Geological Survey Department including Quarries Section amounted to O. S. Rs. 1,44,226/-as against O. S. Rs. 98,868/-in the previous year.

Control:—The Department is under the control of a Director assisted by seven Assistants and Geologists.

SECTION XXXVII.

Industries

XXXVII.—INDUSTRIES.

The total number of factories registered under the Hyderabad Factory Act stood at 674 in 1854 as against 668 in 1853 F. Of the total registered factories as many as 613 were classed as Large Industrial Establishments i.e., those employing on an average not less than 20 persons a day. The average number of persons employed daily in all the registered factories was 55,088.

In all 738 accidents were reported during the year, out of which 4 proved to be fatal, 37 were serious and 697 were minor.

2,71,510 bales of cotton were pressed by the Pressing Factories in 1854 Fasli as compared with the quinquennial average of 3,74,516 bales

The quantity of cotton consumed by all the mills working in the Dominions amounted to 71,681 bales as compared with 75,858 bales, the average for preceding five years. The mills spun 241,54,907 lbs. of yarn of different counts while manufacture of cotton goods, amounted to 61,060,161 yards and 17,481,028 lbs. valued at Rs. 268.24 lakhs during 1854 Fasli.

XXXVII.—INDUSTRIES.

No. 20.—Brief History of the Department of Commerce and Industries. (Sanat-o-Tijarat).

(Compiled on the basis of information supplied by the Commerce & Industries Department.)

1. Established on 29-8-1927 Fasli (1918).
2. Heads of the Department and the periods of their tenure.

Directors.

1. Mr. C. R. Palairott ... 1927 to 1929 F.
2. Mr. Gulam Ali Mohamadi B.A., A.C.S. ... 1936 to 1947 F.
3. Mr. Ahmed Mohiuddin B.A. (Cantab.) 1-1-1948 to 25-11-52 F.
4. Mr. Habib-ur-Rahman B.Sc. Hons.
(London) ... 12-12-1952 to

3. *History*.—Till 1926 Fasli the Revenue Department was dealing with the cases pertaining to Commerce and Industries as well. In 1926 Fasli an Advisory Board consisting of four officials and five non-officials was constituted to advise the Government on all matters relating to Industrial Development in the State. With the growing importance of Industries and Commerce the Government established on 1st January 1918 (1927 F.) a separate department with a Director assisted by two Assistants.

In 1930 Fasli (1921) however, when the development department was formed, the Commerce and Industries Directorate was absorbed into the Commerce and Industries Secretariat and the Director's post was converted into that of the Deputy Secretary, Commerce and Industries. Again the Department was recognised in 1936 Fasli (1927) when the posts of Director General and Secretary, Commerce and Industries and Director, Commerce and Industries were created; the Director General's Post having been subsequently abolished in 1942 Fasli. (1938).

4. *Chief Functions*.—The Functions of the Department are carried out by the following main sections:—

- (a) The Industrial Engineering section.

XXXVII.—INDUSTRIES.

- (b) The Textile section.
- (c) Tanning section.
- (d) The Registration of Joint Stock Companies and the Administration of Partnership Act.
- (e) Excise Duty on Sugar and Cigarettes.
- (a) *Industrial Engineering Section*:—Broadly speaking its functions are:

1. To give general guidance to industrialists and render Assistance in construction of factories and installation of machinery.

2. To advise industrialists as regards locations of sites for factories and their lay-out etc. with a view to the availability of raw material and other necessary facilities.

3. To recommend to Secretary, Industrial Trust Fund loans to small scale indigenous industries.

4. To advise on applications for grant of Patents Right.

5. To scrutinize requirements of local industries for a large number of controlled commodities and to arrange for their supply.

6. To administer Control Orders placed directly under the control of the Director, Commerce and Industries and to carry on amendments keeping them on a level with those enforced in British India. Control Orders administered by the Secretary, Commerce and Industries and the Adviser to Hon'ble Member, Commerce and Industries are also drafted and amended in this section.

7. The work of administering the War Risks Insurance Section is also dealt with in this section.

(b) *Textile Section*:—This section is entrusted with the following functions :

1. To impart training, theoretical as well as practical, to the artisans in the following cottage industries at the Government Village Industries Training Centre, Mushirabad.

- 1. Weaving.
- 2. Dyeing, Printing and Bleaching.
- 3. Hosiery Manufacture.
- 4. Woolen Spinning and Blanket Weaving.

XXXVII.—INDUSTRIES

5. Rattan Work.
6. Lacquer Work.
7. Embroidery and Kamdani.

2. To advise the Cottage Workers through the medium of the District Demonstration Parties regarding the advisability of using improved equipment technique of manufacture and designs.

3. To supervise the manufacture of cotton, silk and woolen factories on hand-loom on a commercial basis at the Government Production Centres and to arrange for their sale. This system was introduced to give relief to the hand-loom weavers who were adversely affected by the conditions created by war.

4. To manufacture carpets of superior quality at the Government Experimental Carpet Factory, Warangal and to supervise the production of medium and inferior quality carpets in the homes of carpet weavers.

5. To manufacture sari borders etc. through the medium of Government Weaving Institute, Paithan, in order to revive and keep alive the once celebrated industry of Paithan.

6. To advise Government on applications relating to the expansion and establishments of textile mills and factories.

7. To advise the Textile Commissioner on matters relating to distribution of yarn to hand-loom weavers and power-loom factories.

8. To render necessary technical advice to the small scale power-loom factories.

(c) *New Model Tanneries* have been opened to improve the quality of tanned leather, and increase the general output.

(d) *Joint Stock Companies' Section* :—Joint Stock Companies and Partnerships are registered by the Director in his capacity as a Registrar.

(e) *Excise duty for Sugar and Cigarettes* :—The Department is entrusted with the collection of Excise duty on Sugar and Cigarettes.

5. *Achievements* :—A number of Cottage Industries in the State have been revived by rendering them financial and technical guidance.

XXXVII.—INDUSTRIES.

6. *Control* :—The Department is under a Director, assisted by one Assistant, an Industrial Engineer, a Textile Expert, a Tanning Inspector, a Superintendent for District Demonstration Parties, a Dyeing Expert and a Superintendent for Village Industries Training Centre.

XXXVII.—INDUSTRIES

No. 21.—*Brief History of the Factories and Boilers Inspection Department.*

(Compiled on the basis of information supplied by the Factories &
Boilers Inspection Dept.)

1. Established on 20-5-1921 Fasli (1912 A. D.)
2. Heads of the Department and period of their tenure.

Chief Inspectors.

3. *History*:—About the beginning of 1921 Fasli the Hyderabad Boiler and Machinery Inspection Act was enforced in the State and a Boiler Inspector was appointed to administer the Act.

In 1939 Fasli, the Hyderabad Factories Act, modelled on the Government of India Factories Act, then in force, was enforced throughout the State. This department was consequently re-organized and enlarged. Two Inspectors in addition to a Chief Inspector were appointed. In the beginning of 1953 F. one more Inspector of Factories was appointed and at the end of the year 1953 Fasli, the new Hyderabad Factories Regulation came into force and the old Act was repealed. The new Factories Regulation is modelled on the Government of India Factories Act, which is enforced in British provinces.

About the beginning of 1944 Fasli, the Hyderabad State Boiler and Machinery Act, modelled on the Government of India Boiler Act, was enforced throughout the State.

1921 Fasli to 1954 Fasli has been a period of very marked industrial activity and progress in the State. The total number of factories increased from 150 to 674. The number of boilers on register has risen from 96 to 608. The average daily number of employees employed in the factories rose to 55,088. Various new industries such as power pressing, oil mills, cement factory, match factories, cigarette

XXXVII.—INDUSTRIES

factories, tile and earthenware pipe factories, Spinning & Weaving Mills with modern machinery, button manufacturing factories, power printing presses, Sugar factory, Glass factories, biscuit manufacturing factory, clothing factory, Chemical Pharmaceutical factories, Surgical and dressing factory (Absorbent Cotton, Gauze, Lint and bandages etc.) Paper manufacturing factory, Starch factory, Enamel and Porcelain factories, Bren Gun factories, have been established. Electric power supply has been introduced in factories situated in Hyderabad City as well as in the towns of several Districts.

4. *Exercising Jurisdiction* over all the registered factories and Boilers under the Hyderabad Factories Regulation and the Hyderabad Boiler and Machinery Act in the whole State. The important industrial establishments i.e., factories situated in Railway Lands, are subjected to the Hyderabad Factories Regulation.

Examining and issuing certificates to candidates of the Boiler Attendants' Examination held bi-annually.

Issuing permits for exporting and transporting the machine tools under the Machine Tool Control Order.

Participating in meetings held in connection with the progress of Industries and amelioration of labour in the State.

Besides the Hyderabad Factories Regulation and Boiler and Machinery Act, the following labour legislation is administered as well :—

1. Hyderabad Workmen's Compensation Act and the Rules thereunder.
2. Hyderabad Payment of Wages Regulation and Rules thereunder.
3. Hyderabad Maternity Benefit Act and Rules thereunder.

Inspecting and approving of factory sites as well as plans thereof.

5. *Achievements*—Enforcement of legislative measures in regard to ameliorate the labour condition in the State and strengthen the relations between labour and capitalist.

6. This Department is under a Chief Inspector assisted by three Inspectors.

XXXIX.—EMPLOYMENT & UNEMPLOYMENT.

No. 4.—*Brief History of the Department of Resettlement and Employment (formerly Employment Bureau)*

1. Established on 28th Mehir 1350 Fasli.

2. Heads of the department and the period of their tenure :—

1. Mr. Ashfaq Ahmed Khan	28-11-1350 F. to 10-3-1351 F.
2. Major Khaja Mohamed Sayeed	10-3-1351 Fasli (continuing).

3. *History* :—The department was created in connection with the war effort of the State. When training for the technical branches of the Indian Air Force and the Indian Army was subsequently discontinued, the Employment Bureau continued recruiting men for training and services in the technical branches of the Defence Service of India, but instead of directing the men to the local training centres, as was done previously, directed them to the Technical Recruiting Officer, Western Area, Poona.

H. E. H. the Nizam's Govt. had foreseen that the cessation of hostilities would bring in its wake many thorny problems relating to (a) the resettlement in civil life of those subjects of His Exalted Highness who would be discharged from the Defence Services and from workshops, factories, mills etc., engaged on war work and (b) the general problem of unemployment in the Dominions, and a small Employment Bureau, a Post-War Planning Department and the nucleus of an Employment Exchange under the Labour Secretariat were accordingly set up as a first step towards meeting the situation. Since the end of the war Government have set up a Directorate of Resettlement and Employment under the Labour Secretariat. The Labour Department Employment Exchange has been amalgamated with the Employment Bureau and the Employment Bureau itself has been merged into the newly established Directorate of Resettlement and Employment.

The Department formerly had under it three boarding houses *viz.* the Kachiguda Hostel, the Lallaguda Hostel and the Saifabad Hostel, for the convenience of trainees, from the districts and provided accom-

XXXIX.—EMPLOYMENT & UNEMPLOYMENT.

modation for nearly 400 trainees. When, training for the Indian Air Force and the Indian Army was discontinued, Lallaguda and Saifabad Hostels were closed down and only one hostel at Kachiguda has been retained.

4. *Chief Functions* :—The Bureau was established mainly with a view to (a) recruiting candidates for training and services as technicians under the Hyderabad Technical Training Scheme and (b) finding employment, on the one hand, for the men recruited by it on completion of their training, and, on the other, for all other seekers of employment.

The Department adopts various methods, such as

(a) To explore and open out new avenues of employment for all mulki seekers of employment who ask for its help.

(b) To popularise, particularly with the younger generation, fields of employment other than those connected with Government or private service.

(c) To encourage the development, particularly in the younger generation, of the business mentality in every possible manner.

(d) To encourage those who have aptitude for the work to take up such productive pursuits as agriculture, horticulture, fruit farming, canning, cattle breeding, sheep farming, dairy farming and poultry farming.

(e) To secure with the co-operation of Government Departments, business concerns and other large employers, such employment for all seekers of employment as may be most congenial and profitable to them and enable them to do the greatest amount of good to the State.

Schemes for the actual placing of demobilised personnel in various civil occupations and to deal with the general problem of unemployment in the Dominions are being formulated and spade work in this connection is proceeding apace.

5. *Achievement* :—The total number of candidates recruited for the Defence Services of India and the local war industries, is 6,809. This figure has raised Hyderabad to the status of a first class recruiting centre.

6. *Control* :—The Bureau is under the control of a Director.

SECTION XLI.

(a) Trade—General

XLI —(a) TRADE—GENERAL.

The total trade of H.E.H. the Nizam's Dominions for the year 1354 F. amounted to Rs. 66.07 crores as against Rs. 69.83 crores, Rs. 42.24 crores and Rs. 81.97 crores for 1353, 52 and 51 F. respectively. The figure for 1353 F. was the highest recorded so far. The percentage increase for 1354 F. compared with the year 1350 F. was 86 whereas for 1353 F. it was 103.

The value of total imports amounted to Rs. 30.95 crores for 1354 F. as against Rs. 32.95 crores, Rs. 28.73 crores and Rs. 17.88 crores for the year 1353, 52 and 51 F. respectively. The increase in the value of imports for 1354, 53 and 52 F. was under fruits and vegetables, oils, precious metals, textiles, jute etc.

The value of total exports was also the highest on record for 1353 F. and stood at Rs. 36.87 crores. The value of exports for 1354, 52 and 51 F. amounted to Rs. 35.13 crores Rs. 18.50 crores and Rs. 14.60 crores respectively. This increase was mainly due to larger exports under animals, grains and pulses, oils, textiles etc.

The balance of trade of H.E.H. the Nizam's Dominions, which was adverse for the year 1351 and 52 F. became favourable to the tune of Rs. 3.92 crores and 4.13 crores, in 1353 and 1354 F. respectively.

The Inter-Provincial Trade for the period under survey was not recorded due to war restrictions.

XLI.—(b) MARKET CENTRES.

No. 6.—*Brief History of the Department of Marketing—1354 F.*

1. Year of Establishment, Permanent Staff Aban 1340 (Sept. 1931)

2. Heads of the Department and the period of their tenure :

1. Ahmed Mohiuddin, Esqr., B. A. (Cantab) Marketing Officer,
1340—47 F.

2. Dr. Amir Ali Khan, Ph. D., Chief Marketing Officer,
Azur 1348 Fasli.

3. *History.*—To implement the recommendations of the Royal Commission on Indian Agriculture, an Act called the "Agricultural Markets Act" No. II of 1339 F., was passed in the Dominions with the object of controlling trade practices in wholesale agricultural markets. The powers of administering the Act vested originally in the Director-General and Secretary to Government in the Commerce and Industries Department, and for close supervisions of the provisions of the Act and Rules at various trade centres the post of a permanent Marketing Officer, with a small staff was created on 2-12-1349 Fasli (November 1930). During the next four years 10 markets were brought under the Agricultural Markets Act.

A fairly large temporary staff was provided in 1345 (1935) when H.E.H. the Nizam's Government agreed to collaborate with the Government of India in the surveys of agricultural marketing when the latter Government themselves implemented the recommendations of the Royal Agricultural Commission. This staff still continues.

In 1348 F. (1938), the newly appointed Additional Revenue Secretary (Rural Reconstruction) was given charge of this administration and in 1349 F. (1939) the designation of the Marketing Officer was revised to Chief Marketing Officer.

The temporary staff provided in 1345 has been made permanent since 6th Aban 1354 Fasli whereby the Chief Marketing Officers post was raised from 400-800 to the grade of O.S. Rs. 750-1,200 and the Deputy U.M.O's grade was raised from 250-325 to 250-400

XLI—(b) MARKET CENTRES.

4. *Chief Functions*:—The work assigned to the Marketing Department falls into three main divisions *viz.*

(1) *Supervision of Regulated Markets*:—This phase covers the scrutiny of the functioning of the Agricultural Markets Act 1939 Fasli and the bye-laws framed under it. Modifications and alterations in the bye-laws to bring about co ordination and uniformity amongst several markets is also an important phase.

(2) *Investigation work*:—This involves detail survey of existing trade practices in respect of important agricultural commodities and animal products, also of such general questions as Regulated Markets, Co-operative Marketing etc.

(3) *Grading & Development Work*:—This aims at setting up quality specifications for various agricultural commodities under the Hyderabad Grading and Marketing Act 1949 Fasli and also at securing more extensive use of agreed commodity standards, elimination of waste and better organisation of produce for marketing purposes.

(5) *Review of Work during 1354 F.*

General Remarks:—Dr. Amir Ali Khan, in addition to his duties as Chief Marketing Officer continued to work as Deputy Secretary of Supply Department as in the previous year. The Deputy C.M.O. attended to routine administration work of Regulated Markets.

(a) *Regulated Markets*:—The Market Act was enforced at Karimnagar, Jagtial and Jammikunta on 1st of Azar 1354 Fasli.

The food control orders such as institution of Monopoly Purchase Order for Paddy and Rice, fixation of levy and market ceiling prices throughout the Dominions, of staple food crops resulted in decrease of arrivals in the Regulated Markets. The trend of general inflation of prices was thereby checked with the result that the total valuation of commodities handled at the Regulated Markets fell to 17 crores as against 22 crores last year.

(b) *Investigation Work*:—The Marketing Survey work in collaboration with the Government of India continued. Reports on the Marketing of Maize and Millets, Pulses and Castor were sent to the Agricultural Marketing Adviser, Delhi.

XLI—(b) MARKET CENTRES.

The scheme of extension of the Department in Post-war Planning was submitted to Government.

6. *Control* :—The Chief Markoting Officer is the head of the Department and is directly responsible to Government in the Rural Reconstruction Secretariat.

SECTION XLII.

Rural Reconstruction

XLII.—RURAL RECONSTRUCTION.

The rural reconstruction activities were pursued during the year 1354 Fasli. The membership of Co-operative Credit Societies stood at 5,206 as compared to 4,810 in the previous year. The working capital and owned capital of these societies was Rs. 3.6 lakhs and Rs. 2.6 lakhs respectively.

The grain banks were as popular as ever. The number of members stood at 8,281 showing an increase of 569 over 1353 Fasli. The total quantity stored during the year was 4.17 lakh seers, while the quantity loaned out amounted to 2.6 lakh seers.

2,044 cultivators received seeds and manures from the Government. 29,907 persons suffering from various kinds of diseases were treated. The expenditure on this item being Rs. 2,547.

Along with the activities connected with child and adult education, baby shows, village rallies, sports for adults were also arranged.

The total number of families registered were 48,552.

XLII.—RURAL RECONSTRUCTION.

No. 7.—Brief History of the Office of the Rural Reconstruction Department.

1. Established in Azar 1348 Fasli.
2. Heads of the Department and the period of their tenure.
1. Mr. Fazlullah B.A., H.C.S. ... 1-1-1348 F. to 31-8-52 F.
2. Mr. Mohinuddin Ahmed Razvi H.C.S. 1-9-1352 F. to 13-11-58 F.
3. Mr. Gulam Haider H.C.S. officiated as Joint Secretary, Revenue Department, R.R. Dept. 14-11-1353 F. to 25-10 54 F.
4. Mr. Zaheer Ahmed H.C.S., Additional Secretary, Revenue Dept. officiated as Joint Secretary, Rural Reconstruction Dept. besides his own duties, from 26th Shahrwar till the end of Aban 1354 Fasli.

3. *History*:—Enquiries made during 1346-47 F. about rural indebtedness of H. H. H. the Nizam's Dominions proved that until the ryots are relieved of the heavy burden of Rs. 65 crores they cannot hope to see the day of prosperity. So it was deemed proper to find ways and means of helping the peasantry. In pursuance of this policy Government introduced the Debt Conciliation Regulation 1347 F., and the Money-lender's Regulations and Land Alienation Regulation. In 1349 F. they became Acts.

4. *Chief Functions*:—To ease the burden of Agriculturists' indebtedness by conciliation methods.

5. *Achievements*:—15 Conciliation Boards received 524 claims involving a sum of Rs. 6.21 lakhs of which 327 cases representing Rs. 3.92 lakhs were conciliated. The average reduction in the claims of the creditors was 38 percent.

6. *Control*:—The Additional Revenue Secretary exercises control. 15 Debt Conciliation Boards dealt with 524 claims valued at 6.21 lakhs, of which 376 cases involving 3.92 lakhs were settled. The aggregate relief given to debtors was Rs. one lakh.

The society is also in charge of Co-operative Societies, Agriculture, Marketing and Fisheries Departments, the last being established in 1350 F.

SECTION XLIII.

Municipalities and Local Boards

XLIII.—MUNICIPALITIES AND LOCAL BOARDS.

Local Self Government institutions exist in all cities and towns in Diwani and Jagir areas. They are either Municipalities or Town Committees, according to the size and importance of the places concerned. They receive grants and loans from Government and raise their own income from taxation and other sources. The total income in 1954 F. was Rs. 105.58 lakhs, and expenditure Rs. 27.72 lakhs leaving a balance of Rs. 77.81 lakhs.

Nawab Mehdi Nawaz Jung Bahadur	...	1347 F.
Meher Ali Fazil Esq.	...	1352 F.
Sabre Yousuf Esq.	...	1352 F. (contg.)

4. *History :—*

Municipal administration was first introduced in Hyderabad by Sir Salar Jung I, the Prime Minister, in 1270 F. (1869). A Board consisting of six members two of which were representatives of the public and four of *paigahs* and other estates, was appointed for the administration. The head of the administration was designated, Superintendent of Roads. He was also the President of the Board. The first officer was Hakim Syed Ali. Disputes between the Municipality and the public were settled by a few respectable persons appointed for the purpose who had powers of Small Cause Court to dispose of money suits to the extent of Rs. 20/-. In 1394 the Board consisted of 6 officials, 5 non-officials and 5 *ex-officio* members and one of the Ministers of the State was nominated by Government as President of the Board.

XLIII.—MUNICIPALITIES AND LOCAL BOARDS.

There was another Local Board for the area lying on the southern side of the River Musi called Chaderghat. In 1297 F. this Board consisted of a President and 11 members.

In 1818 F. these two Boards were amalgamated and the new Board consisting of one President, 15 officials, 18 non-officials and 18 ex-officio members was appointed.

Municipal code was passed in 1286 F. and the Municipal Act was passed in 1343 F. The Municipal Board was converted into Municipal Corporation. It now comprises 86 members.

1	Representative	of Sarf-i-Khas.
8	"	Paigahs
1	"	Estate of Nawab Salar Jung Bahadur
1	"	Maharaja Sir Kishen Pershad Bahadur
2	"	Jagirdars
1	"	Graduates
1	"	Sowcars
1	"	Depressed Class (nominated by Government)
1	"	Parsees (")
1	"	Christians (")
10	Nominees of Government	
13	Elected Representatives of 13 wards of the City	

The President of the Corporation is elected by the Corporation from among the members.

(a) The Municipal Area in 1279 F. was 80.69 sq miles. The Residency Bazar was retroceded to the State in 1343 F. The area is now 81.87 sq miles and the population of the City according to the Census of 1850 F. is 490,881.

(b) The Municipal sources of revenue are house tax, at 7½ per cent, Vehicle tax and Licence fees. The incidence of taxation is Rs. 11-4 per head. The Corporation receives from Government Rs. 4 lakhs yearly.

5. *Chief Functions*:—Drainage, registration of births & deaths, prevention of epidemic diseases, control of dangerous trades, improvement of streets and roads, lighting, public health.

6. *Achievements*:—The four Child Welfare Centres, a Convalescent Home for the mental staff, Life Insurance of menial servants and

XLIII.--MUNICIPALITIES AND LOCAL BOARDS.

Lepor Asylum in Chandulal Baradari. A night school for adults has been opened in every ward, and grant-in-aid is given to several Public Libraries and Reading Rooms, Parks and Playgrounds have been opened. Construction of markets, Slaughter houses, cement concrete roads and Municipal Services centres were started towards the end of the year 1850 E.

6. *Control:*—This Department is under a Commissioner assisted by an Assistant, a Health Officer, an Executive Engineer, Assessor, a Collector, Superintendent-in-Charge of Markets and Slaughter houses, a Licence Officer, a Publicity Officer and an Examiner of Municipal Accounts.

XLIII.—MUNICIPALITIES & LOCAL BOARDS.

No 9.—Brief History of the Local Fund Department. (1854 F.)

1. Established in 1803 F. (1894).
2. Heads of the Department and the period of their tenure:—
 1. Revenue Secretary ... 1803-1825. F.
 2. The Director General of Commerce & Industries Department. ... 1825-1826. F.
 3. D. G. & Revenue Secretary. ... 1826-(continuing.)
3. *History:—*

In 1806 F. the Local Board Regulation was promulgated. A levy of a local cess of one anna in the rupee of land revenue was made in all settled tracts of the Dominions. The Regulation established local boards in the districts with certain defined powers to administer the funds.

The powers of the Local Boards under Regulation of 1806 F. were revised in 1888 F.

Formerly a Central Board administered the Local Fund Department. This was abolished and its functions developed on the Department of Revenue, Education and Medical so far as the funds allocated to these departments were concerned, and also on District Boards and Taluqa Boards.

The District Board consisted of fourteen Members, official and non-official representatives being equal. The Taluqa Boards consisted of either members, officials and non-officials in equal number.

The Life of a Local Board is three years.

4. *Chief Functions:—*

The income from local cess of one anna was first distributed as follows:—

Village police and other village services 4 pies, education 2 pies, Rafa-i-Am 4 pies, Rasta-patti 2 pies and subsequently redistributed them:—Rafa-i-Am 7 pies, Education 3 pies and Medical 2 pies.

XLIII.—MUNICIPALITIES & LOCAL BOARDS.

In 1930 F. the Government in the Revenue Department sanctioned the introduction of a unitary budget merging the three cesses into one at the time maintaining as far as possible the ratio 7:3:2 between Rafa-i-Am, Education, and Medical departments of Local Fund work. In 1940 F. under the Rafa-i-Am a large sum had accumulated and it is now being used for the development of village communications, water supply and other essential amenities of life to villages.

In 1951 F. the village panchayat A'in and five other A'ins were sanctioned relating to Local authorities, Loans, the Contonments, Sanitary Powers, District Boards, Municipal and Town Committees.

5. *Achievements*: Established in 1940 F. of a Dominion Local Fund service, in 68 towns local taxes are levied. In 1943-46 F. a series of rules were framed under section 16 of the Act regulating the establishment of Committees and the Nomination of members and specifying their duties.

In 1948 F. Government sanctioned constitution of Municipal Committee with a non-official majority in all district head quarter towns and 2 other bigger towns.

Town Committees composed of 8 official and 2 non official members. In other towns which are tahsil headquarters, local taluk boards function as Town Committees under the District Board.

The Act permits the levy of 'Ching' and *ad valorem* duty at $\frac{1}{2}$ anna per rupee on articles coming in a town (This toll is not levied anywhere in the State), Nuzul or ground rent; 'House Tax', 'Light Tax'. Barbardari toll on vehicles and animals within Municipal limits; 'Vehicle Tax', 'Market Toll', 'Rakhwal putti' or a fee for using a cart stand or enclosure provided by the Committee.

In addition, water tax at a maximum rate of 1 anna in the rupee of rental value of building is leviable in towns provided with water works.

6. *Control*:—The Local Fund Department is now under the control of the Director-General and Secretary, Revenue Department.

XLIV.—MISCELLANEOUS.

No. 8.—*Brief History of the Ecclesiastical Department.*

(*Ummor-e-Mazhabi*)

1. Established in the year 1294 F.

2. Heads of the Department with the period of their tenures.—

- | | | |
|----------------------------------|-----|----------------------|
| 1. Nawab Rasool Yar Khan | ... | 1294 to 1304 F. |
| 2. Nawab Izzat Yar Khan | ... | 1305 to 1324 F. |
| (Mohiud Dowla Bahadur) | | |
| 3. Nawab Fazilat Jung Bahadur | ... | 1321 to 1324 F. |
| 4. Nawab Ikramulla Khan | ... | 1324 to 1326 F. |
| 5. Nawab Akhter Yar Jung Bahadur | ... | 1326 to 1344 F. |
| 6. Mr. Aliuddin Ahmed | ... | 1345 to 1354 F. |
| (Nawab Deen Yar Jung Bahadur) | | |
| 7. Mr. Md. Abdul Quyum Khan | ... | 1354 F. (Continued). |

3. *History*.—The Department was established in 1161 Hijri and was originally known as Sadaratul Aliya. It dealt with all the religious matters such as distribution of Yomias, control of expenditure from religious grants, construction of places of worship, arrangements for sending pilgrims etc., under an Officer called Sadrus Sadur. The Officer was responsible for carrying out of religious functions and checking the weights and measures. The Sadrus Sadur was also called "Nirkhi". This designation was based on fact that he had to fix the rates of provisions. Judicial matters (before the creation of the Judicial Department) and judgments passed by the Qazi, Kotwal were executed through the Sadrus Sadur.

In 1294 F. during the incumbency of Nawab Imadus Saltanat the department was split into two separate and permanent officers, one retaining its old name and prestige and the other was given the name of Ecclesiastical Department. The latter remained independent. The Sadrus Sadur was changed to the Secretary, Ecclesiastical Department.

4. *Chief Functions*.—The functions are to control and supervision of mosques, temples and churches and other religious buildings, to properties endowed for religious services, to supervise cash and landed

XLIV.—MISCELLANEOUS.

properties granted for religious services and the work of persons appointed for religious duties, to construct and maintain religious buildings, schools and libraries, to arrange for pilgrimages, distribute fixed and sanctioned mamuls, yomias and saliyanas, to maintain endowed properties' Registers, and to promote good-will among all religions.

5. *Achievements*.—The grant of Rs. 81,541 was given for the repair of religious buildings. Rs. 15,000 and Rs. 1,000 were given for the poor of Harmin Sharufain and Iraq respectively. Permission for the construction of 21 mosques, 28 temples and 1 church was granted and Government contributed a sum of Rs. 24,892 towards the expenses.

6. *Control*.—The Department is under a Director aided by three Assistants and Superintendents.

XLIV.—MISCELLANEOUS.

No. 5.—*Brief History of Statistics and Census Department, for 1354 F.*

(Adad-o-Shumar)

1. Established on 19th Khurdad 1328 F.
2. Heads of the Department and the periods of tenure:—

Directors:—

1. Mr. Mohammad Rahamatulla 19-7-1328 to 30-4-1338 F.
(Now Nawab Rahmat Yar Jung)
2. Mr. Abu Mohammad (incharge) 1-5-1338 to 6-3-1339 F.
3. Mr. Gulam Ahmud Khan 7-3-1339 to 31-6-1342 F.
4. Mr. Mazhar Hussain M.A., B.Sc. 1-7-1342 to (Contg.)

3. *Brief History:—*The Department of Statistics was created by a Firman dated 22nd Rajab 1337 Hijri (19th Khurdad 1328 F., or 24th April 1919), eight years after His Exalted Highness' accession to the Asaf Jahi throne. Its creation was received with satisfaction by the Government of India, and made the subject of commendation by the then Viceroy, H. E. Lord Chelmsford, in the session of the Chamber of Princes.

Previously the only evidence of a definitely statistical character was the decennial population census, beginning with 1290 F. (1881 A.D.). The different departments of Government also collected such statistics as were of immediate concern to them for administrative purposes and much of them lay buried in the Yellow Books. Statistics of socio-economic importance had been left untouched or treated inadequately. Consequently, the range of economic activities and the material development of the State could not be properly gauged from the information obtainable from the department administration reports. Gradually, statistical consciousness emerged as the need for quantitative data grew, and this Department came into existence. The scope and function of the Department are almost similar to those of like departments of the Government of India and of the Dominions of Australia, Canada and New Zealand.

XLIV.—MISCELLANEOUS.

Within this short period the Department progressed so rapidly and gained so much importance that it is now considered the backbone of the Government. Proposals are already before the Government to widen its scope and make it a Central Bureau of Statistics and Census. Thus the present Department of Statistics and Census will be reconstituted as a Central Bureau of Statistics and Census with a view to expand, standardise and co-ordinate all the statistical work done in different Departments of the State so that the necessary statistics are easily available at one centre and there may be no overlapping, waste and duplication.

Prof. R. A. Fisher, D.Sc., F.R.S. Galton, Professor of Eugenics, London University, visited Hyderabad and inspected the Office in 1847 F. (1938). He paid a warm tribute to the workings of the Statistical Department. The other eminent persons and scientists who have seen the workings of the Statistics Department and recorded their appreciation are:

1. Sir A. Ramaswamy Mudaliar, Commerce Member, Govt. of India.
2. Sir S. S. Bhatnagar, Director, Scientific and Industrial Research, Govt. of India.
3. Dr. C. A. V. Rao, Director of Statistics, Govt. of India.
4. Professor Hotelling, Professor of Statistics, Columbia University, U. S. A.
5. Dr. W. A. Shewhart of Bell Telephone Laboratory, New York, U. S. A.
Ex-Vice President of Statistical Institute of U. S. A.
6. Mr. C. C. Desai, I.C.S., Secretary to Govt. Commerce and Industries, Central Provinces and Berar.
7. Dr. Shastri, Director of Statistics Reserve Bank of India.

Dr. Fisher emphasised the need of developing at a very early date the commercial intelligence side and the establishment of a Research Department (a) to be a training ground for responsible posts later and (b) to allow special enquiries to be carried out independently of the routine work of collection and tabulation.

XLIV.—MISCELLANEOUS.

4. *Chief Functions*.—This may be classified into two groups, *viz.* (1) routine and periodical collection, record, tabulation and publication of various statistical matters, and (2) summarization, interpretation or remarks and reviews on the material thus gathered. To carry out any extensive work in Statistics requires time, money and staff and these are never given all at once.

The Department of Statistics however has made great strides along the lines suggested in the above two groups. This will be seen from the Census Reports on population, livestock and other Statistics, the review of Trade Statistics, and explanatory comments on other social and other economic data collected and reviewed by the Department.

5. *Achievements*.—The Department conducted and published reports of three previous population censuses 1921, 1931 and 1941; six livestock censuses 1920, 1925, 1930, 1935, 1940 and 1945; Wages and labour Censuses for 1935, 1940 and 1945; collected the data and issued a score of useful series of statistical publications relating to trade, agriculture, economics, census, Labour, etc. The Department participated in the All India Economic Conference held in 1937 at Hyderabad and is an active member of the All India Cotton Committee at Bombay.

Both Government and public including statisticians and students of Indian and foreign universities seek the assistance of this Department for various statistical facts and figures.

The following are the main heads of statistical subjects for which data are collected and regular statements are compiled and supplied to Hyderabad Government, Government of India, Local press, published in the Govt. Gazette (Jarida), or published departmentally:—

XLIV.—MISCELLANEOUS.

1. *Issued every week*:—Season and Crop Reports and Cotton Bales pressed in Factories.
2. *Issued every Fortnight*:—Retail and Wholesale Prices of Commodities and stock of Linseed in different centres.
3. *Issued every month*:—Special Reports of Season, Agriculture and Economic Conditions during the monsoon periods; cotton report dealing with cotton acreage, outturn, local mill consumption, export trade and market prices of cotton; quantity of yarn spun and cotton goods woven in State factories and their value; consumption of cotton in mills; returns of selected industries, e.g. matches, cement, glass, sugar, distillery produce and tanneries, cigarettes and vegetable oil, production and imports of foodgrains and Joint Stock Companies and Wholesale Prices of all the important commodities.
4. *Issued every Year*:—Trade Statistics and Review; Statistical Year Book containing statistics of Cotton Mills, Ginning and Pressing Factories, raw cotton trade, Joint-stock Companies, large industrial establishments; census of cotton stocks, cattle mortality and statistics of various departments. It has, as many as 380 statements accompanied by numerous charts, diagrams and other statistical devices showing the activities of various Government Departments and private organisations. Livestock Census every year.
Agricultural twice a year.
5. *Issued Periodically*:—46 Forecasts for principal crops, Railway Statistics, Motor Transport; Post-mortem Examination of Cotton Crop.

XLIV.—MISCELLANEOUS.

The other works of periodical nature include the following:—

1. Population Census (every 10 years)
 2. Livestock Census (every 5 years)
 3. Urban and Rural Wages Census (every 5 years)
 4. District Gazetteers (every 5 years)
 5. Village Lists (every 10 years)
 6. Prices Statistics (every 5 years)
 7. Cotton Manual (every 5 years)
 8. Agricultural Statistics (every 5 years).
6. *Control* :—The Department is under a Director, assisted by one Deputy and five Assistants

XLIV.—MISCELLANEOUS.

No. 8.—*Brief History of Archaeological Department.* (*Asar-e-Qudīma*)

1. Established 1923 E. (1911)
2. Heads of the Department and the period of their tenure:

Director:—

Mr. Gulam Yazdani, M.A., F.A.S.B., F.R.A.S.B., O.B.E.,

21-7 1923 E. to 15-6-1952 E.

On the retirement of Mr. Yazdani (15-6-1952 E.) the activities of the department were bifurcated into 1. Conservation and maintenance of Archaeological monuments and 2. Excavation, Exploration and Museum.

3. *History*—The department was established for preserving the ancient monumental remains of the Dominions. A curator was appointed each at Ajanta and Ellora for preventing further deterioration of paintings and sculptures. Curators and care-takers were subsequently appointed at Bidar, Gulbarga and Warangal.

4. *Chief Functions*:—To survey, excavate, preserve and study authentic specimens of antiquities of Dominions.

5. *Achievements*:—Ajanta and Ellora monuments are preserved and several pre-historic and proto-historic sites such as Muski, Kondapur, Panigiri and Paithan are surveyed and explored and a Museum in Hyderabad established. Mono-graphs, guide books and illustrated articles have been published.

6. *Control*,—The bifurcated branches have an Officer each.

XLIV.—MISCELLANEOUS

No. 10.—*Brief History of Information Bureau.*

1. Established on 1-10-1310 F.
2. Heads of the Department and period of their tenure.

1. Mr. Marmaduke Pickthall	1-10-1310 to 16-8-1341 F.
2. Mr. Quadir Hussain Khan	17-8-1341 to 13-12-1343 F.
M. A. Bar. at-Law.	
3. Mr. Mirza Ali Yar Khan	11-12-1343 to 12-3-1346 F.
(Nawab Ali Yavar Jung Bdr. (B. A. Oxon)	
4. Mr. Syed Mubarak B. A.	13-3-1346 to 12-9-1346 F.
5. Mr. Habib-ur Rahman	13-9-1346 to 12-12-1352 F.
M.A., L.L.B., B.Sc., (London)	
6. Mr. Mirza Najaf Ali Khan	13-12-1352 F. Continuing
B.A. (Leeds)	

3. *Chief Functions.*—The Bureau was established with the primary object of serving as a liaison between Government and the Press; the aim being, on the one hand, to keep Government posted with the current trends of public opinion on important questions and, on the other, to keep the press informed of the important activities of Government. The Bureau subscribes to 380 newspapers and journals of all schools of thought published in India and abroad, in English and in various Indian Languages. It keeps the Government apprised of everything of note by means of a daily service of newspaper cuttings and a monthly summary of important happenings within and outside the State. The second part of its duties is accomplished through the issue of communiques, press notes, notifications and unofficial notes and by publication of pamphlets and brochures; it also publishes a monthly bulletin, "Hyderabad Information", which is issued in Urdu, English, Telugu, Marathi and Kanarese. The General Administration Report of the Dominions is compiled and issued by the Bureau. Authoritative information on specific or general matters relating to the State is supplied to Authors, Journalists, Businessmen and others, who may need it. All Government advertisements for local and outside newspapers are issued through the medium of the Information Bureau.

XLIV. — MISCELLANEOUS.

4. *Achievements*.—During the war the Bureau gave full publicity to matters connected with the war, food, standard cloth and anti-hoarding propaganda. This was done through the distribution of literature, including pamphlets, leaflets and posters. Broadcasting and such other media as exhibitions, cinema films and photographic slides were also used for the purpose. Press censorship work, necessitated by war was done by the Bureau in addition to its usual activities. Many write-ups were prepared as back ground material to help the press dealing with local problems arising out of the war.

In the last six years the Bureau has issued 3,811 statements comprising communiques, press notes and notifications.

5. *Control*.—The Bureau works under a Director assisted by one Assistant Press Commissioner, one Assistant Director (Administration Branch) and five Publicity Assistants. One Publicity Assistant edits "Hyderabad Information" and the other deals with general publicity work.

XLIV.—MISCELLANEOUS.

No. 12.—*Brief History of the Daftar-e-Dewani, Mal and Mulki.*

1. Year of establishment.—In the reign of Nawab Asif Jah I.
2. Heads of the Department and the period of their tenure:—

Directors.

1. Mr. Syed Khurshid Ali 17-2-1825 to 23-12-1853 F.
2. Mr. Nasesruddin Khan 24-12-1853 F. (Continuing)
M. A. (Edin)

3. *History.*—The Daftar-e-Dewani was founded in the reign of Nizam-ul-Mulk Asif Jah I and was modelled after the Mughal administration in India. It was later divided into two sections viz. Daftar-e-Dewani and Daftar-e-Mal, the first being entrusted with the Civil and Military administration of the provinces of Aurangabad, Berar, Bijapur and Burhanpur, while the second with that of Hyderabad and Bidar Subas. The Daftars supervised over all such matters as related, in the past, to Finance, Revenue, Settlement, Police, Accounts, Judiciary, Coinage, Marketing, Grants of Cash and Lands, appointments to, and dismissal from, the State forces, posting of Military units, appointments of officers, Civil and Military etc., in short, all state business under the immediate commands of the Rulers.

Associated with this, there were other Daftars such as Daftar-e-Istifa, Daftar-e-Dewani, Daftar-e-Darul Insha, Daftar-e-Poshkari, Daftar-e-Mulki, Daftar-e-Munshi Khana, Daftar-e-Munsab-wa-Kkhatbat, Daftar-e-Mahwar and Daftar-e-Qannun Gawi-wa-Checkbandi.

The Daftar-e-Dewani and all its subsidiary Offices continued to perform their assigned functions upto the reign of Nawab Nasir-ul-Doula Bahadur, the 4th Nizam, when Sir Salar Jung was the Prime Minister. At this time the administrative system underwent a complete change and all the executive functions gradually devolved on various secretariats and departments. Finally, the Government assumed direct control over these daftars and placed them under the Finance Portfolio.

4. *Chief Functions.*—In consequence of this development the Daftar-e-Dewani and other subsidiary daftars ceased to exercise their

XLIV.—MISCELLANEOUS.

executive control but still retained, as they do even in the present day administration, their functions in respect on the verifications of the grants or Jagirs and Inams by the Crown, and reference is still made to them on any matter that bears on the past administration of the Government in what are now styled Finance, Revenue and Atyath, Police, Accounts, Postal, Judicial, Ecclesiastical, Army or Military Departments and Sarf-i-Khas Mubarak and by Jagirdars, Mansabdars and various grant holders of lands and privileges in H. E. H. the Nizam's Dominions. Records or the titles and honours, conferred by the Rulers, even today are maintained by these Daftars, and making of Royal seals and badges for Government offices and personages are still supervised over by the same Daftars. Many matters relating to Avildars of the Nazam-e-Jumiat (Irregular Army Dept.) are also referred to these Daftars for verification.

5 *Achievements*.—It is hardly necessary to emphasise that these archives are of immense value, generally to all students of history but particularly to the student of the Deccan History. This has been fully realised by the Govt. of H. E. H. and the department of Daftar-e-Dewani is taking due care in housing and preserving them on the most up-to-date lines.

The Government of H. E. H. the Nizam have appointed a special standing committee which advises the Daftar-e-Dewani and Mal on such matters as are connected with the organisation of records, the original survey of documents and the promotion of original research etc., The Government have also framed special rules regulating the access of the public to the records for bonafide research purposes which have also been included in the Manual of the Imperial Record Department, New Delhi. All possible steps are being taken for sorting, selecting, classifying, cataloguing and indexing of the documents and records.

6. *Control*.—The department is placed in charge of a Director with one Senior Assistant, one Curator, (for the historical Records Section) one Special Officer (for the Marathi Section) and four other Assistants.

XLIV—MISCELLANEOUS.

No. 18.—*Brief History of Hyderabad City Fire Brigade for the year 1854 F.*

1. *Established in:* Hyderabad City Fire Brigade had been established before 1828 Faslī.
2. *Heads of the department and period of their tenure:—*
 1. Mr. Farni was in charge from 29-4-28 F. to Aban 30 F.
 2. „ Rajwade, Mechanical Engineer, Municipality, from 30 F. to the end of 38 F.
 3. „ S. R. M. Naidu, Firemaster from 1-1-39 F. to 2-10-50 F.
 4. „ M. A. Jalool i/c Fire Brigade from 3-10-50 F. to 30-7-51 F.
 5. „ S. Sayeed Hassan acting Fire Master from 31-7-51 F. to 9-12-51 F.
 6. „ R. A. Wright, Sub-officer from 10-12-51 F. to 4-3-52 F.
 7. „ W. M. H. Drake from 4-3-52 F. to 4-7-53 F.
 8. „ Syed Sayeed Hassan, Deputy Fire Master, acted as a Controller from 4-7-53 F. to 10-8-53 F.
 9. „ B. C. Iyengar was in charge as a acting Controller from 20-8-53 F. to 6-9-53 F.
 10. „ L. L. Hanson from 6-9-53 F. to the end of the year.
 11. „ W. M. H. Drake returned to Hyderabad from Assam and took charge from Mr. L. L. Hanson who then returned to U. K.

3. *History:—*The Hyderabad City Fire Brigade was under the management of Municipal Commissioner from 29-4-28 F. to 5-5-46 F. Then it was brought under the supervision of City Police Commissioner due to the recommendation of the Commission set up for investigation of the most tragic Fire Accident ever occurred in the annals of the History at Moti Mahal Cinema. A report was prepared for the expansion of the Fire Brigade by Mr. A. Fredrick, Chief Officer, Calcutta Fire Brigade who was invited to attend the foresaid Commission. But, nothing came into realisation.

At the end of 1851 F. Fire Brigade was principally comprised of one officer and 29 other ranks incharge of 2 Self-propelled pumps and one trailer pump.

XLIV.—MISCELLANEOUS.

But in view of the possibilities of India being threatened by air raids its expansion was deemed indispensable. On the advice of Mr. Kher, Fire Advisor to the Government of India Mr. S. Sayeed Hassan then in charge of Fire Brigade was sent for training in Bombay.

In the re-organisation scheme of 1952 F.; the material was increased from 8 to 86 pumps together with a Foam Tender and personnel of 12 officers and 180 other ranks.

4. *Chief Functions*:—1. Fire protection of the whole of the area under its charge.

2. Six Lease Lend Motor Chassis were purchased in order to mount pumps and convert them into suitable Fire Fighting appliances.

5. *Achievements*:—Miscellaneous accessories and equipment amounting to Rs. 10,292/- were purchased.

Total Fire Calls received 98. Property involved Rs. 2,951,686/4/-, Loss Rs. 126,874/-, Property saved Rs. 2,825,262/4/-.

6. *Control*:—Control of Fire Service is under the Home Secretariat.

6. Tamarind (fresh).

(4) *Salt.*

7. Lonar salt. (see S. No. 171 a.)
8. Tanning salt. (Chrome).

(5) *Dairy Produce.*

9. Milk and curds (fresh)

(6) *Fruits and Vegetables.*

10. Fruits (fresh) for private consumption
11. Fruit (wild, including wood-apples, charoli, jamun, gongul, custard apples, Bholawan fruit, etc.)
12. Garlic.
13. Myrobalans.
14. Onions.
15. Tubers of all kinds not otherwise specified.
16. Vegetables (green) including cucumber.

(7) *Textile materials, Yarn and Fabrics.*

17. Cotton (raw, clean and waste).
18. Gunny bags, hessian cloth and tarpaulin, old.
19. Raw hemp, jute and wool.
20. Hand-made cloth of Madina Shariff.

XIV.—APPENDICES

(8) *Apparel.*

21. Second-hand or used apparel for personal use.
22. Kuranj oil for tanneries.

(9) *Seeds.*

23. Ambada seed
24. Hemp seed.
25. Vegetable, fruit and flower seeds and bulbs for ornamental plants and trees.

(10) *Wax and Fat.*

26. Artificial wax or paraffin.
27. Tallow or fat.

(11) *Dyes, Colours and Tanning Substances.*

28. All kinds of vegetable and mineral (aniline and alizarine) dyes, colours, barks, roots, etc., used in dyeing cotton, silk, wool and similar articles, including sappan wood, suranji wood, indigo, safflower, crude lac and lac seeds, indigo seed but excluding paints, varnish, distemper, turmeric, catechu and red ochre (gairu), (see S. Nos. 17, 26, 107, 109 and 119).
29. Dyes, vegetable materials and chrome salt used in dyeing and tanning hides and skins, including halda chamari (galls), amal-tas and turwar bark.
30. Hirakush green and red (sulphate of iron).

(12) *Forest Produce and Manufactures thereof.*

31. Baskets made of twigs and palm leaves.
32. Brooms and canes
33. Gums and resins (used for polishing purposes).
34. Leaf plates (patroli) and leaf cups (duppas).
35. Leaves and twigs on which duty has not been specifically prescribed.
36. Seed lac, lac stick.
37. Sieves and winnows made of bamboo.

(13) *Wood, Timber and other Manufactures.*

38. Firewood.
39. For match factories, matchwood.
40. Wheels for country carts with or without tyres.

(14) *Fodder.*

41. Chuni and konda of all kinds.

XLV.—APPENDICES.

42. Grass, hay, straw and Kadbi (javar, bajra and maize stalks).

(15) *Building Materials.*

43. Fire bricks and fire clay.
44. Sand carch and Sunari sand.
45. Stone, undressed.

(16) *Animals and birds.*

46. Country fowls.
47. Kids with goats and calves with cows and buffaloes under three months and one year respectively.

(17) *Coal, Coke and Plumbago.*

48. Coke and Plumbago.

(18) *Metals and their Manufactures.*

49. Brass or copper ingots and sheets of all shapes, including broken pieces and used brass pipes from boilers.
50. Ingots or broken pieces of kansi (Bell-metal).
51. Current coins of H. E. H. the Nizam's Government and British Government (for Sovereigns see S. No. 145).
52. Iron and steel:—
Pig iron. Wrought and cast iron ingots or blocks. Scraps of iron and steel, including old broken pots and pans. Flat or square bars of iron or steel. Sheets and plates, galvanised, tinned or otherwise, of iron and steel, except galvanised corrugated sheets.
53. Tin, lead, zinc, aluminium or German silver sheets and ingots of all shapes, including broken pieces.

(19) *Cutlery, Implements and Instruments.*

54. Agricultural implements, namely winnowers, threshers, mowing, reaping and binding machines, elevators, seed and corn crushers, chaff cutters, root cutters, ensilage cutters, horse and bullock gears, ploughs, cultivators, scarifiers, harrows, clod crushers, seed drills, hay tedders, hay presses, potato diggers, Lates spouts, spraying machines, powder blowers, white-ant exterminating machines, boring machines, pest-pullers, broadcast seeders, corn pickers, corn shedders, culti-packers, drag scrapers, stalk cutters, huckers and shredders, potato planters, lime sowers, manure spreaders, listers, soil garders and rakes; also agricultural tractors, (worked by power or otherwise), pumps worked by any power; also component parts of these implements, machines or tractors, provided that they can be readily fitted into their proper places in the implements, machines or tractors for which they are imported, and

XLV.—APPENDICES.

they cannot ordinarily be used for purposes unconnected with agriculture.

55. Dairy appliances, namely: Cream separators, milking machines, milk sterilising or pasteurizing plant, milk aerating and cooling apparatus, churns, butter dryers, butter workers, milk bottle fillers and cappers, apparatus specially designed for testing milk and other dairy produce; also component parts of these apparatus, provided that they can be readily fixed into their proper places in the appliances for which they are imported and they cannot ordinarily be used for other than dairy purposes.

(20) *Machinery.*

56. All machinery worked by any kind of power, including electric machinery, and electric motors, also belting (canvas, leather, hair and cotton), driving ropes, belts and leather washers for *bona fide* use of factory and parts thereof for industrial purposes only.
57. Boilers, and power-driven road rollers, lathes, oil-engines, steam engines and spray painting plant.
58. Drilling machines worked by power.
59. Flour mills, oil crushing and refining machinery, rice mills including hullers, shellers and parts, saw mill and wood working machinery and sugar-cane mills and parts.
60. Hosiery, printing and silver wire and plate drawing machines and parts thereof worked by any power.

(21) *China, Glassware and Earthenware.*

61. Indian made earthen pots and goglets.

(22) *Chemicals, Drugs, and Medicines.*

62. Heavy chemicals, namely:—

Alum, carbonates of soda (sonar salt, crude or pure or soda ash or washing soda and sujji khar), caustic soda, crude carbolic acid, hydrochloric acid, nitric acid, chlorate of potash, sulphur and sulphuric acid and bleaching powder for sand mills and cottage paper industry.

63. Kaliziri.
64. Medicines imported for charitable institutions.
65. Palas papad.
66. Oxalic acid for Tanneries.

(23) *Manures.*

67. Quinine imported by P. O. for sale.
68. Organic manures.

XLV.—APPENDICES.

69. Chemical manures such as.—Amophos, sulphate of ammonia, sulphate of potash, muriate of potash, nitrate of soda, nitrate of lime, muriate of ammonia, calcium cyanide, ordinary superphosphates, concentrated superphosphates, basic superphosphates, basic slag, radiophos, nitrophos, ephas, solophos, arsokol, potash fish oil, rosin soap, crude oil emulsion, synogas and pysect, nitro chalk, potash salt, rock phosphates, carbonate and oxide of lime, diammonorphos, nitrate of potash.
70. Waste of dry fish used as manure.

(24) *Stationery, Books, Printed matters, Pictures, etc.*

71. Books, printed maps, manuscripts, newspapers and waste paper.
72. Printed account-books and letter forms with name of firm, advertising circulars, catalogues, calendars, and printed labels, binding tapes, paper bags, paper rolls and calendars with name of firms and stencil plates to mark name of firms.
73. Printed cards, including Christmas, invitation, other greeting and visiting cards not for sale
74. Trailers, Cinema developed miniature films sent from here: if returned.
75. Postage stamps used or unused and paper money.
76. Photographs (personal) upto 3 copies of different photos and 12 copies of the same photo.

(25) *Miscellaneous.*

77. Aerated waters and ice.
78. Art, the following works of:—
 - (a) Statuary and pictures intended to be put for the public benefit in religious charitable or other public institutions
 - (b) Memorials of a public character intended to be put up in a public place, including materials used or to be used in their construction.
 - (c) Other articles, including furniture, idols, building materials, etc., intended for public institutions.
79. Coconut shells for hakkas, including wooden pipe and earthen chilams.
80. Cowries.
81. Crude washing soda (alkali sodium carbonate).
82. Fresh flowers, plants and trees.
83. Gifts and presents for students of all public schools. Badges and uniforms, etc., for Boy Scouts and Girls Guides (on production of a certificate from organising commissioner or trainer)
84. Samples of no commercial value and advertising articles and articles sent along with goods as discount.
85. Stone pots for domestic use.
86. Grinding stones and stones for making grinding stone.
87. Kardora and religious thread (Zunna) (cotton, silk or wool).
88. Kuku.
89. Personal jewellery in use (brought or otherwise imported).
90. Surgical Instruments for charitable dispensaries.
91. Travellers' *bona fide* luggage, and old cycles in use including pet birds and animals.

XIV.—APPENDICES.

APPENDIX II.

II.—*Customs Tariff (Report)—Articles which are Free of Duty.*

(1) *Grains, Pulses and Flours.*

1. Amaranthus (Rajgira).
2. Maize ears (green).
3. Rice, beaten (partially boiled and pressed).

(2) *Provisions.*

4. Confectionery, pickles, jams, biscuits, etc.
5. Fish (fresh).

(3) *Spices and Condiments.*

6. Tamarind, (fresh).

(4) *Sugar.*

7. Jaggery, molasses or jaggery and red sugar.
8. Sugar, brown.
9. Sugar-candy.
10. Sugar, white.

(5) *Dairy Produce.*

11. Milk and curds.

(6) *Fruits and Vegetables.*

12. Fruit, (fresh) for private consumption.
13. Wild fruit, including charoli, jamun, gongul, wood apples, Bhulawan fruit, etc.
14. Green vegetables and tubers, including green chillies, garlic, onions and cucumbers except potatoes.
15. Myrobolans.

(7) *Tobacco and its Manufacture.*

16. Bids, cigars and cigarettes.

(8) *Textile materials Yarn and Fabrics.*

17. Yarn and textile fabrics, viz.:—(a) Cotton piece-goods, twist and yarn, sacred thread, cotton waste, tape, durries, carpets and other manufactures. (b) Hemp and jute twine and other manufactures. (c) Hosiery. (d) Woollen blankets, kammals, carpets, rugs and other manufactures. (e) Silk cloth and other manufactures.

(9) *Apparels.*

18. Apparel (new or old) other than hosiery including boots and shoes, articles made of silver, gold and other metal thread or lametta, namely, chunki, nukki and gotha, etc.

(10) *Perfumery and Essences.*

19. Perfumery, including essences and incense sticks.
20. Double boiled linseed oil.

(11) *Hides, Skins, Leather and its manufactures and Guts.*

21. Seeds of vegetable and fruit trees.
22. Hides and skins tanned, or dressed, including cuttings thereof
23. Leather and leather manufactures

XLV.—APPENDICES.

(12) *Forest Produce and Manufactures thereof.*

24. All leaves and twigs including brooms, leaf cups and leaf plates, unless otherwise specified.
25. Baskets, mats, sieves, winnows, etc., made of bamboo and other forest produce.

(13) *Wood, Timber and their Manufactures.*

26. Firewood
27. Furniture, toys and other local manufactures of wood such as, country carts, doors, windows, wheels for country carts with or without tyres, etc.

(14) *Fodder.*

28. Grass, hays, straw and kadbi (stalks of jawar, maize, etc.).

(15) *Building Materials.*

29. Bricks and tiles.
30. Common boulders and undressed stone (granite, trap and sand-stone.)
31. Earth and sand.

(16) *Animals and Birds.*

32. Calves with cows and kids with goats under one year and three months respectively.

(17) *Coal and Coke.*

33. Coal and Coke ash of collieries situated in the Dominions.

(18) *Metals and their Manufactures.*

34. Current coins of H. E. H. the Nizam's Government and British Government.
35. Gold, silver and other metal manufactures.

(19) *Chemicals, Drugs and Medicines.*

36. Kalizeeri, marking nuts and pulas papud.
37. Medicines, including mercury subchloride and oxide of mercury.

(20) *Stationery, Books and Printed Matters.*

38. Books, maps, manuscripts and waste paper.
39. Paper and all other articles of stationery.

(21) *Miscellaneous.*

40. Coconut shell for hukkas including wooden pipes and earthen chilams.
41. Cowries.
42. Crude washing soda (Alkali sodium carbonate)
43. Fireworks.
44. Flowers fresh.
45. Glue.
46. All indigenous manufactures by hand or by machinery.
47. Kuku.
48. Ice.
49. Machinery.
50. Travellers' *bonafide* luggage including pet birds and animals.

N. B.—Any special concessions under Sanads, Agreements, etc., in respect of any item are not noted in this list.

XIV.—APPENDICES.

APPENDIX V.

V.—*Customs Tariff (Imports)—Articles which are liable to Duty at varying percentage ad valorem.*

Articles which are liable to duty at 5 per cent. ad valorem.

(1) *Grain, Pulse and Flour.*

1. Barley, oats and sago.
- (2) *Provisions, Oilman stores and Groceries of all kinds.*
2. Coffee.
3. Confectionery.
4. Fish (dry).
5. Other provisions and oilman stores.
6. Tea.

(3) *Spices and Condiments.*

7. Betel-nuts, catechu, cloves (entire, crushed and exhausted), mace and nutmegs.
8. Chillies (dry).
9. Condiments of all sorts, not otherwise specified such as; Asafoetida, cardamom seeds, cardamom wild, carraway seeds, cinnamon, corander, cumin grass, cumin seed (black, white and jo i zoora) parsley, pepper and poppy seed.
10. Musk and saffron.
11. Papad, khar.
12. Tejpat (casia leaves).

(4) *Salt.*

13. Refined table salt.

(5) *Sugar.*

14. Molasses of sugar and tar imported (with permission) for manufacturing liquor and molasses of tar.
15. Saccharine.
16. Sugar-candy.
17. Sugar loaf.

(6) *Dairy Products.*

18. Butter (fresh).
19. Ghee.

(7) *Fruits and Vegetables.*

20. Almonds (in shell).
21. Almonds (shelled and thin shell).
22. Amsole kokam.
23. Apricots (dried).
24. Cashew nuts.
25. Chironji.
26. Cocoanuts (dried).
27. Cocoanuts (fresh).
28. Fruit (dried) all kinds, not otherwise specified, including dry mango slices.
29. Fruit (fresh) all kinds, not otherwise specified for sale.
30. Kopra.
31. Marling-nuts (shelled).
32. Pistachios.
33. Potatoes.
34. Raisins and currants.

XLV.—APPENDICES.

35. Singada (shelled) fresh or dry (*trapabispinosa*).
36. Singada (unshelled) fresh or dry (*trapabispinosa*).
37. Vegetable (dried) all kinds, not otherwise specified.
38. Walnuts.
- (8) *Liquors.*
39. Foreign spirits and wines of all kinds, including ale, beer and fermented liquors and similar spirits and fermented liquors manufactured in British India.
- (9) *Tobacco and its manufactures.*
40. Cigars, cigarettes and bidis.
41. Manufactured tobacco, gudakoo and snuff.
42. Tobacco (unmanufactured).
- (10) *Textile materials, yarn and fabrics.*
43. Cotton twist and yarn (hand-made).
44. Textile unmanufactured materials—silk waste and raw silk including cocoons, raw flax, silk cotton, artificial silk, coir fibres and all other unmanufactured textile materials not otherwise specified.
45. Cotton piece-goods, twist and yarn, sewing thread, cotton waste, tape (nawar) durries and other manufactures not otherwise specified.
46. Silk and artificial silk yarn (foreign or Indian) silk, tussore and artificial silk piece-goods and other manufactures.
47. Haberdashery.
48. Hosiery.
49. Woolen yarn, knitting wool and other manufactures including rugs, carpets and kamnals.
50. Jute and hemp twist and yarn and their manufactures including new empty gunny bags and hessian cloth and sacking, not otherwise specified.
- (11) *Apparel.*
51. Apparel other than hosiery, including boots and shoes, hats caps, boi nets, and hattersware, and articles made of silver, gold and other metal thread or lametta, namely kallabuthoo, chamki, nakki, gothu, etc.
- (12) *Perfumery and Incense.*
52. Ambergris.
53. Gugul (resin of *bdellium*).
54. Incense, incense sticks, loban and imitation incense.
55. Perfumery not otherwise specified, including scents.
56. Sandalwood dust.
- (13) *Oils.*
57. Essential oils:—
- (a) *Rassa oil.* (b) *Sandalwood oil.* (c) *Others.*
58. Mineral oils:—Kerosene oil, crude or fuel oil, lubricating oils and petrol.
59. Vegetable oils:—Linseed oil, solidified oil (*masnu ghee*).
- (14) *Seeds.*
60. Mohwa nuts.
61. Mohwa seed or kernel.
62. Mustard and rape seed.
- (15) *Wax and Fat.*
63. Wax.

XLV.—APPENDICES.

(16) *Hides, Skins, Leather and Leather Goods.*

- 64. Hides and skins raw.
- 65. Leather, including tanned and dressed leather and their manufactures, excluding boots and shoes, belting and washers, etc., for machinery.

(17) *Dyes, Colours and Tanning Substances.*

- 66. Hurmurtaz (a kind of ochre).
- 67. Ochre (red).
- 68. Ochre (yellow).
- 69. Turpentine, varnish and paints, including distemper, white lead etc.

(18) *Forest Produces and Manufacturés thereof.*

- 70. Bamboos and baskets made thereof.
- 71. Gulmohwa (under a permit from the Abkari department.)
 - (a) When imported from a distance of 50 miles and beyond.
 - (b) When imported into the Asifabad District.
- 72. Mats made of bamboo, palm leaves, etc.
- 73. Sandalwood, white and red.
- 74. Shellac.
- 75. Soap nuts (ritha).
- 76. Sikakai (pods of acacia concinna).
- 77. Tendu leaves.

(19) *Wood, Timber and their Manufactures.*

- 78. Furniture and all other manufactures of wood, not otherwise specified.
- 79. Wood and timber, all sorts, not otherwise specified, including ornamental wood.

(20) *Fodder.*

- 80. Bran.

(21) *Building materials.*

- 81. Building materials, including bricks, tiles, cement, marble and dressed stone, lime, pipe clay and others, new or old.

(22) *Animals and Birds.*

- 82. All other poultry or wild birds except pet birds.
- 83. Dumbas (broad-tailed sheep).
- 84. Fighting rams and milking goats.
- 85. Horned cattle of all sorts not otherwise specified.
- 86. Other animals, including camels, elephants, horses, etc., except pet animals.

(23) *Coal, Coke and Plumbago.*

- 87. Charcoal.
- 88. Coal, coal-ash and patent-fuel.

(24) *Metals and their manufactures.*

- 89. Gold and its manufacture not otherwise specified, including wire, leaf, ornaments, and obsolete or foreign coins and sovereigns for use as gold.
- 90. Gold and silver-plated and enamelled articles.
- 91. Green and white gold.

XLV.—APPENDICES.

92. Iron and steel bars round, tee, angles, beams, galvanised iron, corrugated sheets and other manufactures not otherwise specified.
93. Flat bars under $\frac{1}{2}$ " thickness, square bars under $\frac{3}{4}$ " thickness, thin zinc sheets for packing.
94. Manufactures of gold, with a large percentage of alloy.
95. Manufactures of all metals (brass, copper, aluminium, tin, zinc, German silver, etc.) other than iron, steel, gold and silver excluding sheets, etc.
96. Quicksilver.
97. Silver and its manufactures, including thread, wire, leaf, ornaments and obsolete or foreign coins.
98. Tin for soldering and tinning.

(25) *Cutlery, Implements and Instruments*

99. Clocks, watches and parts thereof.
100. Cutlery.
101. Refrigerating or other appliances, implements, apparatus and instruments of all sorts for domestic purposes, including electric appliances and fans, and also broadcasting appliances, gramophone and all musical instruments worked by electricity or otherwise, except surgical instruments for charitable dispensaries.

(26) *Arms, Ammunitions and other Explosives*

102. Firearms.
103. Fireworks.
104. Other arms, ammunitions and explosives.

(27) *Machinery*

105. Cinema machines and their motors, lighting sets, sewing machines worked by hand or electric motor, soda water and other small machines worked by hand, including typewriters and parts, perforating and paper-cutting machines.

(28) *Conveyances*

106.
